Lincoln, NE 68508

Dear Mr. Zafft:

SUBJECT: State Concurrence with Lincoln MPO Administrative Modification #1 to the FY 2021-2024 Transportation Improvement Program.

The Nebraska Department of Transportation has reviewed the attached request for an Administrative Modification to the FY 2021-2024 Transportation Improvement Program (TIP) and concurs that this change is an administrative modification per the guidelines for amending or modifying a MPO TIP.

If you have any questions, please contact me at 402-479-4623.

Sincerely,

A handwritten signature in blue ink that reads "Craig Wacker".

Craig Wacker AICP,  
Planning Manager

RE: FY 2021-2024 TIP – Administrative Modification No. 1

In accordance with the Lincoln Metropolitan Planning Organization (MPO) “Guidelines for Modifying the Transportation Improvement Program”, minor revisions can be made by the Lincoln MPO staff to a project already included in the Transportation Improvement Program (TIP). Administrative revisions are subject to approval by the Planning Director and do not require committee review or approval.

To process administrative modifications, MPO staff will:

- Enter the requested modifications into the project database and map as necessary.
- Prepare and publish an updated TIP project listing.
- Notify the Nebraska Department of Transportation and request that modifications be included in the State Transportation Improvement Program (STIP).
- A summary of administrative modification activity report will be prepared for the MPO Technical and Officials Committees and posted on the MPO web page.

### Summary Report

The Nebraska Department of Transportation (NDOT) has requested changes to the Control Number and Project Number for the 27<sup>th</sup> Street and West O Street Bridges over Salt Creek project because the Control Number and Project Number are misidentified in the TIP. This project is up for a November 2020 letting. The project funding has not changed for the project, and the TIP remains fiscally constrained. This revision will affect the FY 2021-2024.

Attached is the Lincoln Transportation and Utilities Appendix of the FY 2021-2024 TIP that shows the changes to the above project’s Control Number and Project Number in red.

The administrative modification would also include Control Numbers and Project Numbers for nine other projects in the Lincoln Transportation and Utilities Appendix. The attachment shows the Control Numbers and Project Numbers of these projects in red. The project funding has not changed for these project, and the TIP remains fiscally constrained.

The Lincoln MPO is requesting NDOT’s concurrence for this administrative modification to its FY 2021-2024 TIP.

Please contact me if you have questions.

Thank you,
