**DETAILS**

**POSITIONS/RECOMMENDATIONS**

<p>An amendment to Section 9.36.080 to allow City recognized homeowner association to use nonlethal means to control bird populations that are threatening the public's health, safety, and welfare. The homeowner association must be located in a flight pattern designated by the Lincoln Airport Authority as in need of bird population control. The homeowner association would need authorization from the City and act under the supervision of the Nebraska Game and Parks Commission.</p>	Sponsor	Council Person Annette McRoy
	Program Departments, or Groups Affected	All automated departments
	Applicants/ Proponents	Applicant  City Department  Other
<p>Discussion (Including Relationship to other Council Actions) The Airport Authority is currently using nonlethal methods to control the bird population at the airport causing the birds to relocate in areas controlled by area homeowner associations. Thus, the bird population continues to cause concern for the public's health, safety, and welfare in the Airport's designated flight patterns. By allowing the homeowner associations to use nonlethal means to control the bird population on its property, there would be a reduction of the bird population located within the flight patterns.</p>	Opponents	Groups or Individuals  Basis of Opposition
