### **COMPREHENSIVE PLAN SPECIFICATIONS:**

Encourage different housing types and choices, including affordable housing, throughout each neighborhood for an increasingly diverse population. (F-18)

Interconnected networks of streets, trails, and sidewalks should be designed to encourage walking and bicycling, reduce the number and length of automobile trips, conserve energy and for the convenience of the residents. (F-18)

The Land Use Plan identifies this area as urban residential. (F-25)

Tier I: Defines the City of Lincoln's near term growth area-generally a 40 square mile area which could reasonably expect urban services within the next twenty-five year period. Land within this area should remain generally in the present use in order to permit further urbanization by the City. (F-28)

#### Priority A of Tier I:

Areas designated for near term development are generally contiguous to existing development and should be provided with basic infrastructure within 12 years of the adoption of the Plan. Some of the infrastructure required for development may already be in place. This area includes some land already annexed, but is still undeveloped and without significant infrastructure. Areas with this designation are the next priority for infrastructure programming. Some infrastructure improvements may be done in the near term while others, such as road improvements that are generally more costly, may take longer to complete.(F-29)

Affordable housing should be distributed throughout the region to be near job opportunities and to provide housing choices within every neighborhood. Preserve existing affordable housing and promote the creation of new affordable housing throughout the community. (F-65)

Provide different housing types and choices, including affordable housing, throughout each neighborhood for an increasingly diverse population. (F-66)

Guiding principles for new neighborhoods includes:

1. Similar housing types face each other: single family faces single family, change to different use at rear of lot;
2. Parks and open space within walking distance to a ll residences;
3. Pedestrian orientation; shorter block lengths, sidewalks on both sides of all roads ( F-67)

Continue the City's growth policy of contiguous urban growth. Urban development will occur in areas immediately abutting the city that reflect a logical and timely extension of urban infrastructure. (F 75)

The Lincoln Airport Authority has assessed the existing and future noise impacts, noise contours for the Airport environment in a Part 150 Airport Noise Compatibility Planning Study. The Comprehensive Plan will use information from the Part 150 Study to guide land use planning throughout the airport environs. (F-123)

**HISTORY:**

**August 2, 2004** The Lincoln Airport F.A.R. Part 150 Noise Compatibility Study, 2003 was adopted by City Council.

**September 2, 1997** Timber Ridge Preliminary Plat was approved by City Council.

**November 8, 1995** High Ridge Estates Final Plat was approved by the Planning Commission.

**April 21, 1995** High Ridge Estates Preliminary Plat was approved by City Council.

**UTILITIES:** This development can be served with water and sanitary sewer by connecting to the water and sanitary sewer mains in Timber Ridge subdivision adjacent to the east.

**PUBLIC SERVICE:** The nearest fire station is located on Coddington Ave., south of West “A” St.

Roper Elementary school is located at Coddington Ave. & West South St.

**ANALYSIS:**

1. This request is for a change of zone from AGR-Agriculture Residential to R-3 Residential in order to develop 83 residential lots. It is associated with Woodland View preliminary plat.
2. Annexation policy of the Comprehensive Plan:

**-To not extend water and sanitary sewer services beyond the city limits.  
Annexation shall occur before any property is provided water, sanitary sewer, and other city services.**

Sanitary sewer and water service is available to the site from existing mains in Timber Ridge. The developer will be responsible for posting a surety of \$125,000.00 for off-site improvements to the sanitary sewer along West “A” St.

**-Land which is contiguous and generally urban in character may be annexed.**

The area is contiguous, and the preliminary plat shows urban-density development.

**- Annexation generally implies the opportunity to access all City services.**

The area is within the future service limits.

3. This area is designated as urban residential on the Land Use Plan in the 2025 Comprehensive Plan. The area is inside the future service limits.

4. This zoning is an expansion of contiguous existing R-3 zoning.
5. This area is designated as Tier 1, Priority A in the 2025 Comprehensive Plan. The Comprehensive Plan identifies Priority A of Tier I as areas designated for near term development generally contiguous to existing development and should be provided with basic infrastructure within 12 years of the adoption of the Plan. Some of the infrastructure required for development may already be in place.

**PUBLIC HEARING BEFORE PLANNING COMMISSION:**

December 8, 2004

Members present: Carlson, Carroll, Krieser, Sunderman, Pearson, Marvin, Taylor, Larson and Bills-Strand.

Staff recommendation: Approval of the annexation, subject to an annexation agreement; approval of the change of zone; and conditional approval of the preliminary plat.

Ex Parte Communications: None.

This application was removed from the Consent Agenda at the request of Mark Hunzeker.

Proponents

**1. Mark Hunzeker** appeared on behalf of the applicant. Hunzeker requested to amend the legal description on all three applications, reducing the scope of the area being annexed and reducing the size of the land area within the change of zone and preliminary plat.

Hunzeker also requested that Condition #1.1.4 on the preliminary plat be deleted. This condition requires the extension of a street to the limits of the preliminary plat. Inadvertently, the applicant had included a street which was not intended to be built in this first phase, but was intended to be built when and if the adjacent property was subdivided. At the time the additional area is subdivided they would be required to extend that street to meet it. Hunzeker has visited with the staff and he does not believe they object.

There was no testimony in opposition.

Tom Cajka of Planning staff agreed with the proposed amendments. With the revised legal description, Condition #1.1.4 is no longer needed as the application meets the requirements of the subdivision ordinance of extending streets to the boundary of the plat.

ANNEXATION NO. 04010

CHANGE OF ZONE NO. 04070

PRELIMINARY PLAT NO. 04027

Rick Short  
<rt.short@worldnet.att.net>

To: plan@lincoln.ne.gov  
cc:  
Subject: Concern of Annexation No. 04010

12/14/2004 05:39 PM

Planning Commission,

We know that the date has expired on subject annexation hearing for change of zone No. 04070, and preliminary plat No. 04027, but we have a question and concern that we hope you will respond to anyway since we are affected by this.

Our records show that portions of the western "area of application", from north to south, is considered to be "wetlands". No where in your letter of notification, dated November 24, 2004, is it addressed how the construction of road, sewer, and 83 homes will affect these wetlands and what the city of Lincoln will do to protect the area.

This area is considered sensitive enough that when SW 40th St was paved sometime back, and dirt was being dumped into this area, county officials told residents that the owner of the property was fined for failure to assure this dirt was not going to spill silt into the wetlands as stated above. Now, we see major destruction of this area and the issue is not addressed.

It's obvious that Lincoln continues emphatically at all costs to build it's tax base and provide affordable housing to it's influx of diverse citizens, but what available "green space" need be sacrificed for this? We would appreciate a response to assure us that the city of Lincoln is doing everything in it's power to be a good neighbor and not to violate any federal laws or destroy what wetlands we have left in this area. As a native Nebraskan, I would hope this area will be preserved regardless of the cities urgency for the builder to develop it and of course prevent ugly urban sprawl in SW Lincoln.

Sincerely,

R.T. Short
