LINCOLN/LANCASTER COUNTY PLANNING STAFF REPORT

for March 15th, 2006 PLANNING COMMISSION MEETING

P.A.S.: Comprehensive Plan Conformance No. CPC06002

PROPOSAL: Review an amendment to add nine projects to the West “O” Street Redevelopment Plan to determine conformity with the *Lincoln and Lancaster County 2025 Comprehensive Plan*.

CONCLUSION: The proposed amendment is in conformance with the goals and policies of the Comprehensive Plan.

<u>RECOMMENDATION:</u> Find that the proposed amendment is in conformance with the Comprehensive Plan.

GENERAL INFORMATION:

LEGAL DESCRIPTION: An area generally bounded by 10th Street on the east, a ½ mile west of NW 70th Street on the west, Interstate 80 on the north and the Burlington Railroad Yard on the south.

PURPOSE: Nebraska Community Development Law, NEB REV STAT § 18-2112 requires the Planning Commission to review a redevelopment plan as to its conformity with the Comprehensive Plan. A recommendation of the Planning Commission is required to be provided to the City Council.

EXISTING ZONING:

H-3	Highway Commercial District
H-4	General Commercial District
I-1	Industrial District

EXISTING LAND USE: The redevelopment area consists of a mix of commercial, industrial, single family residential, with majority of land shown as vacant.

HISTORY: As required by the Nebraska Community Redevelopment Act, the City commissioned a Blight and Substandard Determination Study which was completed in June 2005. The West O Redevelopment Area Blighted and Substandard Determination and the West “O” Street Redevelopment Plan were adopted by the City Council on September 26th, 2005.

COMPREHENSIVE PLAN SPECIFICATIONS:

The Comprehensive Plan Future Land Use Map shows this area as Commercial and Industrial development.

“Maximize the community’s present infrastructure investment by planning for residential and commercial development in areas with available capacity.” (P. F17)

“Encourage mixed-use redevelopment, adaptive reuse, and in-fill development including residential, commercial and retail uses. These uses may develop along transit routes and provide residential opportunities for persons who do not want or cannot drive an automobile.” (P. F18)

“Preserve and enhance entryway corridors into Lincoln and Capitol View Corridors.” (P. F19)

“Guiding Principles for Existing Commercial Centers:

Encourage renovation and reuse of existing commercial centers. Infill commercial development should be compatible with the character of the area and pedestrian oriented.

Maintain and encourage retail establishments and businesses that are convenient to, and serve, neighborhood residents, yet are compatible with, but not intrusive upon residential neighborhoods.

Expansion of existing commercial and industrial uses should not encroach on existing neighborhoods and must be screened from residential areas.

Encourage mixed use commercial centers, including residential uses on upper floors and at the rear of commercial buildings.

Encourage efforts to find new uses for abandoned, under utilized or “brownfield” sites that are contaminated.” (P. F49)

ANALYSIS:

1. This is a request to review an amendment to the West “O” Street Redevelopment Plan for a determination of conformity with the Lincoln and Lancaster County 2025 Comprehensive Plan. West “O” Street is an entryway into Lincoln and acts as a front door, introducing visitors and residents to Lincoln. This area is a gateway for Lincoln’s inventory of future industrial land, as it has convenient access to highways and Interstate 80, as well as nearby rail and air transportation.

2. The amendment provides for 9 new projects to be added to the plan as Projects 5 through 13, and changing the project formerly numbered as 5 to number 14. Each project describes a specific project site, but generally describes the project as “Support commercial/industrial redevelopment efforts”.
3. Redevelopment activities appear on page 24 under the heading *Redevelopment Activities: Commercial and Industrial*. The following projects are specifically identified as activities to be added to the Redevelopment Plan (this is a summarization, specific language appears in the application package):

5. The Comprehensive Plan recommends that redevelopment projects be reviewed by the City of Lincoln Urban Design Committee. The Committee is charged with advising the Mayor, City Council, Planning Commission, city boards, and city departments on the design of city buildings and other public projects, major public/private developments, and any private projects constructed on city right of way or other city property (page F 129, Comprehensive Plan).

6. Public Works and Utilities, Watershed Management Division has the following comments on specific projects:

7. The above projects represent sites where some interest has been shown over the past several months. In some cases there are no specific details available at this time. Floodplain, Airport height and noise, and other site-specific issues will be addressed in individual redevelopment plan agreements, to be submitted to the City Council in the future, along with the details on how TIF revenue will be used in each area.
8. Development should conform to the subdivision and zoning ordinances and adopted design standards. Meeting jointly with the Public Works, Building and Safety, and Planning Staffs is strongly encouraged before preparing specific development plans.

Dear Marvin:

Please find enclosed an amendment to the *West O Redevelopment Plan*. This amendment identifies nine potential new projects, under the section entitled *Redevelopment Activities: Commercial and Industrial*, page 23 of the redevelopment plan. Since the Lincoln City Council adopted the West O plan in September, 2005, the Mayor's Office and Urban Development have received many inquiries concerning redevelopment opportunities in the area.

This amendment adds nine projects for potential redevelopment. Under each location are the possible redevelopment activities that could be done in support of the projects. I've also included an amended map entitled *Exhibit 4 Location of Commercial/Industrial Redevelopment Activities*.

Please forward the amendment to the Planning Commission for their consideration at their March 15, 2006 meeting. If you have any questions please call Ernie Castillo at 1-7855.

Sincerely,

Marc Wullschleger
