4. Special Wastes routed to Facility Headworks may include all remaining wastes not otherwise processed as described above and that are deemed acceptable for regular treatment through the entire treatment facility.
5. The disposal fees set forth above apply to the type of waste processing used, rather than to the type of Special Waste received. MCROY Moved to accept the Substitute Resolution on Bill No. 06R-155. Secounded by Cook & carried by the following vote: AYES: Camp, Cook, Eschliman, Marvin, McRoy, Newman, Svoboda; NAYS: None.

CLERK Read the following Substitute Resolution, introduced by Annette McRoy, who moved its adoption:

WHEREAS, the City Council of Lincoln, Nebraska, is authorized
Under Sections 17.60.020 and 17.60.030 of the Lincoln Municipal Code to establish wastewater charges for all customers of the Lincoln Wastewater System.

WHEREAS, Both the Mayor’s Advisory Committees, Streets, Roads and Trails (SRT) and the Mayor’s Infrastructure Finance Committee (MIFC) support the wastewater rate increases proposed by the City’s Public Works & Utilities Department over the next 10 years, to help finance the infrastructure needs identified in the City’s Capital Improvement Program. The current projections acknowledge the need for approval of a 8% increase for Fiscal Year 2006-07; a 9% increase for Fiscal Year 2007-08; and a 9% increase for Fiscal Year 2008-09.

WHEREAS, Lincoln’s wastewater infrastructure is a necessary component and is required under city charter to be provided to all areas served within the city limits.

And WHEREAS, Lincoln’s wastewater rates have historically remained low, and even with the proposed rate increases will continue this tradition of competitive rates within the region and nationally.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Lincoln, Nebraska:
Effective with the billing cycle commencing on November 15, 2006, the following schedule of wastewater use charges is hereby established and adopted:

BASIC WASTEWATER USE CHARGE

(a) The basic wastewater use unit charge is hereby established as 144.0 cents.

(b) For any given residential property, the basic wastewater use charge for each billing cycle shall be determined by multiplying for each such cycle the total amount of water, in hundreds of cubic feet, metered for said property during a billing cycle chosen by the Director from the most recent past winter, by the basic wastewater use unit charge.

In the case of change of occupancy of residential property, if the Director reasonably determines that to compute the basic wastewater use charge for a given billing cycle upon the amount of water used by such property during such winter billing cycle would be inequitable either to the City or to the user, he shall use the average amount of water used by like users during such winter billing cycle to compute such charge.

(c) For any non-residential property, the basic wastewater use charge for a given billing cycle shall be determined by multiplying for each such cycle the amount of water or wastewater, in hundreds of cubic feet, measured for said property during such cycle, by the basic wastewater use unit charge.

(d) Non-residential users shall be given credit, at the same rate, for water not discharged into the sanitary sewers provided such water is separately metered with the approval of the Public Utilities Department and at the customer’s expense.

(e) Where a wastewater flow meter or other wastewater measuring device is required or permitted by the Director and is used to measure the volume of wastewater discharged into the Lincoln Wastewater System, such wastewater use charge shall be computed theron at the basic wastewater use unit charge.

SERVICE CHARGE

Regardless of whether a wastewater meter is used, there shall be a service charge per month to each property using the Lincoln Wastewater System, determined by the number and size of the water meters serving such property, to-wit:

The minimum service charge for a multiple dwelling unit or a mobile home shall be at least $0.78 per dwelling unit or mobile home hookup space per month. In those instances where fire protection considerations dictate that a water meter larger than 1-inch service a single-family dwelling unit located on a single lot, the monthly service charge shall be $1.31 per dwelling unit.

WASTEWATER RATES TO CUSTOMERS OUTSIDE THE CITY LIMITS

Customers located outside the City Limits of Lincoln and served by the Lincoln Wastewater System shall pay the same Wastewater rates charged to customers within the City Limits of Lincoln for service furnished them by the Lincoln Wastewater System.
