I. MAYOR -

Mayor Chris Beutler called on Directors. Police Chief Casady reported how things have gone the last few days. Over the weekend, Friday, Saturday, and Sunday, they dispatched officers to 1,253 incidents, and just a few samples of that 260 disturbances, 84 thefts, 80 traffic accidents, 61 assaults, 25 child abuse-neglect cases, 20 missing persons, 5 sexual assaults, and they did 4 death investigations. So, pretty busy weekend for them, and interestingly not much busier than the past two weekends, the thought that may be a big game in town makes the weekend a lot busier not really true to us, every weekend is pretty much maxed out for us. Everything went smoothly, they started traffic just a little bit earlier than they did at the Nevada game, they anticipated an earlier arriving crowd probably good thing that they did. Cost them about $700 more than the Nevada game, they have basically cut the cost of our over-time for the football detail over the course the past five years about half. That’s basically constricting the number of intersections that they are directing traffic at and Antelope Valley has helped a lot, it has changed the dynamic from memorial stadium considerably on traffic that comes out of that area and much better than it ever did before.

Fire Chief Wright stated he sent out an email but just to brief everybody they have all seven of the E-One Fire Engines the crossmembers and frame extensions have been installed. There’s a few odds and ends that they are still working through but for the most part everything is done.
They also had a busy weekend, Medic three and Medic one on Saturday alone. They had about 50 EMS calls, pretty typical of all five units vs just two of them so Saturday was pretty busy for them as well. Mr. Marvin commented they had a car fire that is being investigated. Fire Chief Wright replied yes, it’s under investigation. It’s pretty suspicious on how it started and the amount of damage that it caused and it is now with the Bureau of Fire Prevention and LPD.

Karl Fredrickson (Public Works & Utilities) reported the “O” Street bridge for Antelope Valley construction will begin this coming Wednesday. A temporary roadway will maintain two lanes of traffic in each direction during construction. South Street is opened up from 9th Street east, there are some lane closures on it to work on the outside and the exciting thing they’re starting up our new train out at the Theresa Street Wastewater Treatment Plant. Construction projects are working their way along so they’re making progress.

Mayor Beutler stated they’re starting to focus on the legislative program and as the fall passes they will be in touch with Council on it. If any of them would like to be more involved in it or have input or suggestions with regard to what they might like to see on the Legislative Agenda let him know.

For Item 38, they have a Motion-To-Amend #2 requested by Dan Marvin, she just received copies of it from the Law Department which she will handout to Council now. Mr. Marvin stated they will discuss it at the “Noon” Meeting today. Mr. Cook commented maybe they should talk about delaying this item a week because he has an amendment as well but also he has a number of RFI questions and he has not seen answers to those. So, he just thinks there is some things here relating to how they would be handled legally and so on that maybe they need to think about a little bit more before they move forward on it. Mr. Cook commented he doesn’t know how others feel but they can talk about it at the “Noon” Meeting today. City Clerk Joan Ross handed out amendment #2 to Council, and Mr. Cook handed out his amendment #1.
