6. That by adoption of the Capital Budget, the City Council hereby authorizes the acquisition of all necessary right-of-way, easements, or other interests in land, by purchase if possible, by condemnation if necessary, for those projects included within the Capital Budget.

7. That, to the extent capital improvements of LES are made from LES revenue and other funds, it is intended that the amount of such expenditures, which is not reasonably expected to exceed $95 million shall be reimbursable to the LES revenue and other funds through the issuance of future electric system revenue bonds, there being no funds of LES or the City reserved, allocated on a long-term basis or otherwise set aside (or reasonably expected to be reserved, allocated on a long-term basis or otherwise set aside) to provide permanent financing for the expenditures related to such expenditures, other than pursuant to the issuance of such electric system revenue bonds, this Resolution being determined to be consistent with the budgetary and financial circumstances of LES and the City as they exist or are reasonably foreseeable on the date hereof. The proper officers of LES shall keep and maintain records at least annually to determine the amount of such excess capital expenditures that may be reimbursed from electric system revenue bond proceeds.

8. There is hereby appropriated all money received from any source as grants or donations received for public purposes.
