Soulinnee Phan, Deputy City Clerk

Rhonda M. Bice, Office Specialist
COUNCIL CHAIR GAYLOR BAIRD: This Public Hearing is held each year to fulfill State Statutory Requirements for the One and Six Year Streets and Highways Program and also serves as the Public Hearing for the City’s Capital Improvements Program. It should be noted that the C.I.P. is a funding document only. The One Year Program lists projects proposed for final design, right-of-way acquisition, construction or study during fiscal year 2017. The second through sixth year (FY 2018-2022) program lists those projects which are in some phase of development or will enter the street planning process. The program was identified on the Public Hearing Notice, advertised in the Lincoln Journal Star on Sunday, July 17th, 2016 plus being placed on the City’s website and on Channels 5, 10 and 21.

Citizens have 10 days from today to submit any statements or exhibits to the Public Works Department. Therefore, all statements and exhibits received on or before, August 18, 2016 will become a part of the Public Hearing Record. These statements should be forwarded to Roger Figard, Engineer, Engineering Services, 949 West Bond Street / Suite 200, Lincoln, Nebraska 68521.

The information received will be evaluated by the Public Works Department, and subsequently by the City Council. Final action will be taken by City Council resolution adopting the first two years of the C.I.P. budget.

The State Statutory Requirement ensures that an integrated system of public roads is provided for the general welfare of the State, Counties and Municipalities. The program is administered by the State Board of Public Roads Classifications and Standards.

Capital Improvement Program for fiscal years 2017 thru 2022 reflects an average annual expenditure of nearly $39.32 million dollars. This average annual expenditure is comprised of $28.62 million dollars of City Revenues (i.e. Wheel Tax & City share of Gasoline tax), $6.8 million in Federal Aid and $3.9 million in other funds (Includes the Railroad Transportation Safety District).

Roger Figard, Public Works, came forward. The One and Six as required by the State is actually a separate, additional public hearing in addition to the City’s CIP, in order to receive our share of the State Highway Allocation Funds. The program we’re submitting to the Board of Public Roads is consistent & the same as our Transportation Streets & Highways One & Six. The one year program for 2017 lists projects proposed for final design, right-of-way acquisition, construction or engineering such as: the East Beltway, South Beltway, Northwest 48th Street from O St. to Adams, Yankee Hill Rd. From 70th to Hwy. 2, West A Street from Southwest 40th to Folsom Pedestrian Improvements for new schools, Pine Lake Rd. From 61st Street & Hwy. 2, Rokey Road from 70th to 84th, 33rd and Cornhusker and the BNSF RTSD Program, Pedestrian & Bicycle Capital Improvement Program. Additionally, the One Year Program includes projects which continue through the entire 6 year program such as: traffic optimization & management, studies, preliminary engineering, right-of-way, construction, asset records, safety & operational improvements, sidewalk maintenance & repair, residential rehabilitation, intersection improvements, roadway & bridge rehabilitation & potential impact fee funded projects. For the rest of the program the State still has a One & Six, the City has Two & Four Program since we approve two budget years at once now. The second through the six program 2018-2022 includes projects also identified for continuation of projects from year one in addition to some projects that are in some phase of development or will enter the street planning process. Those include the ongoing East Beltway, South Beltway, West A, Pedestrian Improvements for new schools, Pine Lake Rd. From 61st Street & Hwy. 2, 33rd and Cornhusker and the BNSF RTSD Program, Pedestrian & Bicycle Capital Improvement Program. The only additional project that moves into the Six Year Program is West A Street From SW 40th to Folsom Street. There is a requirement for an annual public hearing so this is just for the first year & we’ll be back next year even though the City approves a 2 year budget.

2016-2018 MAYOR’S RECOMMENDED BIENNIAL OPERATING BUDGET & CAPITAL IMPROVEMENT PROGRAM 2016/18 - 2021/22

Deputy City Clerk Phan: As part of the Mayor’s proposed budget, the budget also proposes to take the following action allowed by LB 989 as passed by the 1998 Nebraska State Legislature.

1. The Mayor’s Recommended Budget anticipates the use of allowable growth, if any, in the tax base above the 2.5% already provided by LB 989 for improvements to real property as a result of new construction, additions to existing buildings, any improvements to real property which increase the value of such property, and any increase in valuation due to annexation, and any personal property valuation over the prior year. This change is estimated as an increase of 1.8% pending certification of final valuations from the County Assessor’s office. It is the City’s intention to utilize the final percentage change or the 2.5% increase, whichever is greater, provided for by the certified final valuations, to increase the restricted funds base and to utilize various other lid exemptions provided in LB 989. An additional 1% of lid authority can be authorized by a super majority (5) vote of the City Council. It is the Administration’s intention to ask for this additional authority in the final budget resolution.
2. The city intends to carryover all unused restricted fund authority from prior and current fiscal years as well as any unused restricted fund authority from the 2015-16 budget to future fiscal years. This unused restricted fund authority is estimated at up to $9,000,000 but depends upon final completion of lid documents to be filed with the State Auditor’s Office. It is the City’s intention to carryover all unused restricted funds authority as determined by final completion of the forms.

THE FOLLOWING ORDINANCES & RESOLUTIONS HAD
PUBLIC HEARING ON 8/08/16 IMMEDIATELY FOLLOWING
THE REGULAR CITY COUNCIL MEETING WHICH BEGAN AT 2:30 P.M.
(Action Dates are Indicated for Each Item)

PUBLIC HEARING

APPROVING THE ONE AND SIX YEAR STREET AND HIGHWAY PROGRAM, THE 2016-2018 CITY OF LINCOLN BIENNIAL BUDGET AND THE CAPITAL IMPROVEMENT PROGRAM FOR FY 2016-2018 (ACTION DATE: 8/22/16) - Richard Schmeling, 4612 Van Dorn Street, came forward and stated he feels we have made progress with StarTran and wanted to thank the Mayor for including additional funding in the budget, and City Council, for not making cuts to the StarTrans budget. We need to maintain funding to StarTran to ensure we will be able to make improvements needed.

Amy Eidenmiller, 1415 Kark Lane, came forward and thanked City Council and the Mayor for not forgetting StarTran and is in favor of the budget.

Ben Day, 2125 140th Street, Raymond, came forward and stated he is in favor of the new rate schedule increases for Lincoln Water System. Mr Day said he has been a Water Waste & Water Engineer for almost 20 years, and feels we need to maintain our water system structure. Lincoln continues to see breaks of older pipes and it is much cheaper to be proactive with our aging pipes.

John Camp, Council Member, asked Mr. Day if he was aware the water side of the bill would go up 15.1% each of the next two years, not 5%, and the wastewater is projected to go up 20.5% the first year and 18.8% the second year.

Mr. Day stated the reason for that is as rates go up people tend to conserve water and that impacts revenue as well, and he is aware of the increased amounts. Discussion followed.

Erin Hunt, 8404 Indian Hill, Omaha, came forward and stated she is in favor of the new rate schedule increases for Lincoln Water System. In 2013 Ms. Hunt served as the Project Manager for Lincoln Water System Master Plan. During her time in that position an assessment was done on Lincoln’s Water Replacement Plan and it was determined the level of replacement needed to be increased to 7 miles per year. The recommendations from of staff for the increase of water rates is consistent with our findings in 2013.

Roy Christensen, Council Member, asked if Ms. Hunt was aware the rate increase would be between 15 and 20 percent each year.

Ms. Hunt said yes, she was aware of this.

Carl Eskridge, Council Member, asked if this increase would be a service charge fee.

Donna Garden, Public Works Asst. Director, stated that is correct, your bill is made up of two pieces that include a service fee and the usage fee. This entire rate increase is applied to the service fee, for the very reason that Mr. Day and Ms. Hunt talked about. We are trying to adjust this so it meets the level of our fixed costs. The rate overall is actually a 5 percent increase to the average household.

Mr. Eskridge stated the information given to Council shows Lincoln is at 5.75 percent for service charge, while other cities in our State pay a minimum of at least twice of what we pay, and in some cases even higher. So it looks like we are way under where other cities are in terms of services charges.

Discussion followed.

Ms. Garden said that is correct, our service fee seen on a bill will be at 34 percent and our fixed costs are at 42 percent.

Trent Fellers, Council Member, inquired what the monthly charge is to someone that does not use any water.

Ms. Garden said they would be charge the service fee, of around $8.00. Discussion followed.

Mr. Fellers inquired why increase the fixed fee portion instead of the usage fee portion of the bill. Ms. Garden said with this increase our service fee will be increased to 34 percent and our fixed costs are at 42 percent. Discussion followed.

Mr. Camp stated in the information provided to Council the rate increase shows the average household would save .39 cents per month if we drop from a 5 to 3 percent increase. With doing some calculations the fees doesn't fit with just the increases you have on the meter amount, they would go up more than that.

Ms. Garden stated the household amount would increase by 5 percent. Discussion followed.

John Ericson, Deputy Director for the Nebraska Forest Service, 6100 Saltillo Road, came forward to share some information related to Emerald Ash Borer (EAB), and what communities should be expecting as the insect invades our area. We will be addressing this problem for the next 20 years, it is impossible to stop the spread of the Emerald Ash Borer. The cost of removing dead trees is two to three times higher than it is to remove a declining tree. We need to address this problem as the Ash trees will be a risk to life, property and substantially increases in liability. Discussion followed.
Kyle Fischer, Lincoln Chamber of Commerce, 1128 Lincoln Mall, Suite 100, came forward in favor of the budget, stating the budget put forward by the Mayor is a good budget, and the Council made some minor adjustment to the budget that kept the property tax rate at what it is today. The Chamber has no issues with this budget, but is not supportive of moving wheel tax dollars back into the snow construction fund. Snow removal should come from the general fund as it is something we all need done, and it should not come from the just people that license their car or buys gas. Discussion followed.

Marian Malone, 6018 Old Farm Circle, came forward to discuss the budget for StarTran and feels the City should give more money to our bus system. Ms. Malone wanted to thank the Mayor who has always been in support of public transportation. Discussion followed.

Ed George, 3011 H Street, came forward stating he currently uses StarTran everyday. He feels that the quality of life is most important and StarTran is a very important part of that.

Kathryn Johnston, 4540 North 69th Street, came forward and stated she feels StarTran is getting better with more drivers and people that use the hours for bus service. But the funding is running low and more money is needed.

John Baker David, 3201 South Street, came forward and stated he has concern about the way the bus routes loop and go downtown, but not everyone likes to go downtown. With a few changes, he feels this would increase riders and save people time. Mr. David is requesting that we put a hold on this for two weeks to go over changes.

Kent Seacrest, Seacrest & Kalkowski Law Firm, 1111 Lincoln Mall, Suite 350, representing Van Dorn Street Coalition, came forward stating they are in favor of the new rate schedule increases for Lincoln Water System. This increase is essential for the growth of Lincoln to continue. Discussion followed.

Mr. Eskridge asked Ms. Garden about the water systems growth and what the rates would do to help the system grow.

Ms. Garden came forward to discuss future plans of the water system. There are a number of projects in the CIP and a lot of them apply to the entire City. A new water well will be going in within the next two years, and we will be finishing a water well we have already started. There are some pump stations around town as well as other street pump stations in the north part of town.

Russell Miller, 341 South 52nd Street, came forward and stated he is in favor of the 5 percent increase in water rates and feels that we need to keep up with our deteriorating infrastructure. Please keep the water main replacement at the recommended 7 miles per year and keep up with Lincoln's growth.

Patty Pansing Brooks, State Senator, 1925 Dakota Street, representing Legislative District 28 in the Nebraska Legislature, came forward and stated she is interested in the entire budget, but today she wanted to speak about the Emerald Ash Borer (EAB). For the past two years she has been working with communities on a bipartisan basis in State Legislation, which would provide communities with State Assistance in preparing for the impending EAB crisis. Ms. Pansing Brooks said she feels that the Emerald Ash Borer should be funded at a level that Parks & Rec. Department has recommended.

Cyndi Lamm, Council Member, thanked the Senator for attending the Budget Meeting, and inquired if when the Senator brings this bill forward in the legislature, will it be for a 50/50 funding.

Senator Pansing Brooks said yes, this needs to be a state wide and community wide effort. Discussion followed.

Kendall Weyers, 2443 South 19th Street, came forward and stated he is a Certified Arborist, and feels we should not waste time and we need to take action now on dealing with the Emerald Ash Borer. Mr. Weyers is requesting that Council approves the full funding for the Emerald Ash Borer as proposed by the Mayor.

Jane Raybould, Council Member, stated at one time it was the Emerald Ash Borer was being considered in a StormWater Bond, and inquired about the benefits of planting more trees and being proactive regarding this issue. Discussion followed.

Douglas Campbell, 4629 Hawthorn Drive, came forward and stated Lincoln has a great appearance and he feels more money should be put towards Emerald Ash Borer, he feels we have time and can start planting trees now.

John Cariotta, 6310 Mesaverde Drive, came forward and stated he has had discussions with several arborists and they expect the price of removing Ash Trees to quadruple, and feels we need keep the levels at what the Mayor has proposed.

DaNay Kalkowski, Seacrest & Kalkowski Law Firm, 1111 Lincoln Mall, Suite 350, representing Northern Lights LLC and 1640 LLC, came forward in favor of the proposed water and sewer rate increases. Ms. Kalkowski stated her clients are looking forward to the continued growth in Lincoln to provide residents with a variety of choices in different parts of the city. These water increases are essential in assuring the availability of funding that has been shown in the CIP, that would support the infrastructure for these new growth areas.

Diane Bartels, 1801 Mindora Drive, came forward and stated she is in favor of the StarTran budget, and feels everyone should have access to public transportation.

Peter Smith, 900 South 34th Street, came forward and stated he is an Urban Forester and a Certified Arborist with more than 20 years experience helping other Cities and Towns address the needs of their trees. He asked City Council to be proactive with the Emerald Ash Borer. Mr. Smith urged Council to approve the request of funds for EAB or to consider doing even more, there is still time to start planting many more trees to help replace those that will be removed.

Mr. Eskridge asked Mr. Smith when he thinks the Emerald Ash Borer will be here.

Mr. Smith stated he as well as many other experts feel it is already here and is getting a foot hold. Expect to hear many reports around Lincoln within the next 3 to 4 year period. This will affect not only public property but will also affect private property. Discussion followed.
Richard Esquivel, 733 W Cuming Street, came forward and stated he is against the increased rate fees for the Water System. Mr. Esquivel feels he already pays several taxes and fees, he lives on a fixed income as many others do.

Jane Kinsey, 6703 Hawkins Bend, representing Watch Dogs of Lincoln, came forward and stated she is against increasing fees, but is for the budget cuts. In the Mayor's original budget he wanted a tax increase on the backs of fee hikes for Wastewater, Downtown Parking fees, Parks & Rec. fees. Health Department fees, Waste Hauling fees, Water and Waste Water fees, and the City dividend on the electric bill of citizens. We have the highest wheel tax in the US, and five counties in Nebraska have no wheel tax at all. Wages remain the same, and taxes continue to go up. We need some creative thinking and not just dipping into the tax payers pocket to maintain City Government.

Mike Eckert, Civil Design Group, 8535 Executive Woods Dr, Suite 200, representing Rokey Coalition, are in favor of the water and wastewater rate increases. There are some new areas of town we need to open up and there is a need for the sewer and water mains to do this. In comparison to surrounding communities water is still very affordable here at $45.00 per month in Lincoln. Discussion followed.

Jean Eileen Durgin - Clinchard, 638 North 25th Street, came forward and stated she is retired and on a fixed income and feels things need to be done preventatively. She is in favor of the budget and is encouraging Council not to make cuts to the budget.

Rosina Paolini, 1850 Dakota Street, came forward and thanked Council for their service and is in support of public transportation as well as other public services, and feels these services need to be made available to everyone. Ms. Paolini also feels any further cuts to the budget would just be amputations to those departments. She feels snow removal is part of the street fund, so if we take snow removal out of the general fund, we then end up taking more away from other services. Discussion Followed.

Mike Renken, 2715 Docs Drive, came forward and stated he hopes we continue to move forward, and feels much more needs to be done. He has concerns about the cuts in Planning and Urban Development. These departments are very important and he feels that we do not want or need to be making cuts to staff.

June Pederson, 4501 Dryden Place, came forward and stated she took the Taking Charge Survey and feels we should not be making any cuts to the budget, and if necessary an increase in our taxes.

Ms. Pederson was pleased with the way the budget looked until she saw the cuts that Council had made to the budget. Ms. Pederson would like Council to reconsider these cuts they have proposed.

Deb Andrews, 1235 West A Street, came forward and stated she is in support of the budget with the cuts and no tax increases.

Pat Anderson, 1500 South 11th Street, came forward and stated she is in support of a tax increase, for her the increase would be about $12.00 a year. Ms. Anderson also stated she does not mind paying a tax increase, and feels quality of life is very important and is willing to pay for it.

Marilyn Kruger, 2324 A Street, came forward and stated she is an employee of StarTran and she is in favor of the entire budget from the Mayor. She is happy the cuts are not coming out of StarTran and is willing to pay more in taxes. Ms. Kruger asked Council to rethink their budget cuts.

Christ Oakum, 330 NW 13th Street, came forward and stated she is fine with paying more in taxes, but does not support the budget cuts. She feels the cuts proposed would severely affect our quality of life, by not putting as much money into what we need to.

Brayden McLaughlin, 2041 South 18th Street, came forward and stated the items he was here to speak about have already been addressed. Discussion followed.

5:56 - Recess.

6:30 p.m. - Council reconvened.

Coby Mach, Lincoln Independent Business Association (LIBA), 620 North 48th Street, came forward and stated they are in favor of the changes Council is proposing to avoid a property tax increase. LIBA also feels they have suggestions for saving tax money. Stating their disappointment in some of the fee increases that are in the budget, and the proposed shifting of funds from road construction to snow removal. LIBA feels changes still need to be made to the CIP.

Wes Oestreich, 6610 Plumwood Lane, representing Lincoln Members of the Associated General Contractors, Nebraska Building Chapter, came forward in opposition of the reduction in the general fund section of the budget for Building and Safety Department. Mr. Oestreich stated making this cut would be cutting all funding for minimum housing inspections, fire and bomb investigations, plus other expenses for general public safety not covered by fee revenue. Mr. Oestreich stated you will still be using funds in a way they were not intended to be used from the general fund.

Ms. Raybould asked if inspectors will be able to keep up with the growth and demand of the contractors in the City with all of the projects going on.

Mr. Oestreich said there is a concern that we need more inspectors. Staff replacement is critical and the feeling is that they are currently under staffed sometimes on the field inspections. And to further cut funding would delay inspections, and create additional expenses to the construction cycle. Discussion followed.

Mr. Fellers stated Mr. Oestreich had mentioned there were previous increases in the fees to this fund that were supposed to go to staff. Mr. Fellers, then asked, if those increases went to staff at the time those rate increases happened, and what areas were they planned for.

Mr. Oestreich said it was his understanding that those positions were not yet filled.

Mr. Fellers inquired what areas they were for.

Mr. Oestreich stated he did not know specifics, he thought it was department wide.

Mr. Fellers inquired about the amount of inspections they were behind on.
Mr. Oestriech said it was for work in progress, fees are paid in advance and there are several inspections that need to be completed. Discussion followed.

Ms. Raybould inquired when construction plans are submitted for review if there have been any delay in Building & Safety on getting plans approved.

Mr. Oestriech stated it really depends on the quality and complexity of the plan that is brought in. Discussion followed.

Tom Hardesty, 7811 Preserve Lane, representing Lincoln Cooling and Heating Contractors Association, Lincoln Plumbing Contractors Association, Mechanical Code Task Force, and Plumbing Code Task Force came forward and stated they are in opposition to the elimination of the general fund to Building & Safety. In 1996 then Mayor Johann had asked us to become self funded, and at that time we wanted and asked for insurances that those funds would be used as intended. The City is not doing what it needs to do by hiring new staff to get the inspections done, and the inspections have been backing up since we became self funded.

Mr. Camp inquired if prior to the 1996 EO, it was it set up as general funds, and after that you became self funded.

Mr. Hardesty said yes.

Bo Jones, 3801 West Bucks Drive, representing The Home Builders Association and the 575 small businesses we represent, came forward in opposition to the general funds for Building & Safety being cut. We are approaching a record number of permits since building is strong now in today's economy, and would caution that while the bill looks high right now Building & Safety has a lot to do. They are taking deposits on work yet to be done, and the department needs to bring on additional staff to keep up with this pace. They feel it is not fair for a reduction to Building & Safety General Fund to pay for public services. That needs to be passed on to the building community. Discussion followed.

Dana Karcher, 3925 B Street, Certified Arborist came forward and stated she feels we need to increase funds for the Emerald Ash Borer issue. We are taking a step backwards if we do not increase funding to EAB. We need to utilize the urban wood that will be created and reuse the wood so waste is not generated.

Leirion Gaylor Baird, Council Chair, asked about examples of what other communities have used the wood for once the trees are removed.

Ms. Karcher said chipping is the normal use, and can also be reused for the wood in benches as long and you are sure the wood is safe from any transfer of EAB. Discussion followed.

Meg Mikolajczyk, 4035 Holdrege Street, came forward and stated she feels the water rates should be increased to 5 percent and not just the 3 percent that Council is proposing. She feels this will be a negative impact to the Northeast part of Lincoln, which currently has older pipes that are in the most need of repair. She is willing to pay a higher fee to get the pipes replaced in her area.

Heather Nobert, 1525 South 24th Street, Nebraska Forest Service employee, came forward and stated she is for the EAB funding for the full amount, and not making any cuts to the EAB budget.

Mr. Eskridge asked what happens when Ash Trees start to die.

Ms. Nobert said trees become brittle at the top of the tree and branches start to fall. It can be hard to identify since it affects the tops of the trees first, which can be hard to detect.

Mr. Camp inquired about the time line.

Ms. Nobert said the insects are in the trees for 1-3 years prior to it being discovered, and is likely that EAB is already here. She also stated that 80 percent of these trees will be dead within 10 years. Discussion followed.

Charlie Schroeder, 5420 West Chancery Road, Amalgamated Transit Union (ATU) Local, came forward in support of the budget and feels we need to expand StarTran now. This expansion will help us down the road. Discussion followed.

Chad Blahak, Building & Safety Director, came forward to make one clarification to comments earlier, about hiring inspectors in the department. Since 2014 Building & Safety has hired an additional plumbing inspector, in 2015 we hired a building inspector and earlier this year we were approved to hire an electrical inspector. We have not advertised for the electrical inspector position as of yet, but do plan to and we are also in the process of adding a mechanical inspector. It was decided that we should wait on advertising for the mechanical inspector position until after the budget process.

Mr. Fellers inquired if there was a two year backlog in mechanical inspections, and if there is a need for another mechanical inspector.

Mr. Blahak did state with the mechanical inspections this has been one of the longer sections since the previous inspector addition, and he feels the back logs are increasing and not decreasing. Mr. Blahak feels that this is a good indicator for the need of a new inspectors. Discussion followed.

Steve Hubka, Finance Director, stated the position of mechanical inspector is already in the budget, they just have not hired this position yet. Discussion followed.

Mr. Fellers inquired about the fixed fees for the water rates.

Mr. Hubka stated service charge is more dependable and is more desirable, than something based on usage that can vary quite a bit.

Mr. Fellers asked if we were planning on doing revenue bonds to get more of those projects done faster.

Mr. Hubka said yes.

Ms. Raybould asked about the water main break rate project, and stated, it looks as if the break rate is increasing.
Ms. Garden stated some of the materials used in the past are thin walled and not holding up as long as they normally would. We are not getting the 100 year life out of our pipes, so we are requesting seven miles per year to be replaced. This is recommended by the master plan.

Ms. Lamm asked about the water main replacement since it is only part of the reason why the water fees are going up, and said she understands it will be $1 Million per mile.

Ms. Garden stated that was correct. Discussion followed.

Rick Hoppe, Mayor’s Office, came forward and stated that Lincoln has a low number of Chiefs in Police and Fire compared to other Cities.

Tom Casady, Public Safety Director, came forward and stated Lincoln has a low number of Assistant Chiefs, most departments of this size have at least two and sometime three Assistant Chiefs. Also, a new level of rank that Lincoln does not have between the Assistant level and first line of managers. Both of these departments are very low on managers. Discussion followed.

Mr. Hoppe stated a great deal of our funding comes from the State Legislature, and we need someone to be able to build good relationship with the States Senators. This is how we have been getting some of our funding for our programs, and it can be very successful. We do not have enough staff currently to have someone talking with the Senators all the time.

Mr. Camp asked if we could work more with our legislature team. We have a good relationship with them and they are there to represent the City and its citizens.

Mr. Hoppe stated you need someone there everyday to make a difference.

Diane Gonzolas, Mayor's Office, Citizens Information Center, came forward to discuss CIC and the stated the general fund is about 55 percent of their budget. User fees also fund some of the operations as well as the cable access fund. This department only has two full time staff and the other work is contracted out. CIC continues to do more with less as most of the departments do.

Lynn Johnson, Director of Parks & Rec., came forward and stated the EAB tree removal estimates it is a package it is not just tree removal. The package is for removal, replanting and staff positions along with inflation costs. Mr. Johnson stated the tree removal cost is less than $1,000 a tree, state wide it is $1,400 a tree. Discussion followed.

Mr. Camp asked if some of the excess in Keno funds could be used for EAB.

Mr. Johnson stated if you use the Keno funds it would take away from another project. Discussion followed.

Mr. Camp asked about the CIP, and stated if we stop the green light project then we would not need to take away from snow.

Thomas Shafer, Design and Construction Public Works, came forward to discuss the green light project and its funding. Mr. Shafer stated this project is from customers complaints about street lights not working. We need to have a good traffic system to keep cars moving. This project will take care of the 30 percent of our signals that currently have something wrong with them. Discussion followed.

Miki Esposito, Director Public Works & Utilities, stated 70 percent of the budget will be spent on roads. Discussion followed.

Mr. Eskridge asked if there is a savings in doing this now with Allo going in.

Mr. Shafer stated by doing this now we are taking advantage of some of the contractors in town and it could cost the city less. Discussion followed.

Ms. Raybould asked if the City had partnered with Allo Communications on the Green Light Project.

Mr. Shafer said yes, they are putting fiber in the City's cabinets.

David Young, Public Works & Utilities, came forward and stated the agreement with Allo is for them to install fiber to every cabinet in the first five years. The City then pays for the connection to the traffic cabinet, and the green light funds is set up to pay for this connection. Discussion followed.

Ms. Raybould stated some of the cabinets are twenty plus years old, and inquired if some of the money is going towards the upgrading or rehab of the cabinets.

Mr. Shafer said yes, that is also part of the green light project as well. Discussion followed.

Pat Leach, Library Director, came forward and stated the amount of the proposed bond in the CIP Project for a Central Library shows $42 Million, and that is a presentable representation of the project. They have talked with potential partners and neighbors that might be interested in some kind of mixed use project. We feel this would be an exciting thing to happen in Downtown Lincoln. Discussion followed.

These matters were taken under advisement.
