If there is a blood borne pathogen exposure, those exposed would go in for HIV testing, Hepatitis B, and Hepatitis C at a reduced cost and performed quickly. This Agreement was previously in effect for 4 years and has since been very successful.
This matter was taken under advisement.
SPECIAL PERMIT 300C – APPEAL OF JEFF MONZU FROM THE PLANNING COMMISSION’S APPROVAL OF A SPECIAL PERMIT TO ALLOW FOR RECONSTRUCTION OF A NON-CONFORMING FACILITY, WITH WAIVERS TO INCREASE THE ALLOWABLE SQUARE FOOTAGE, INCREASE THE NUMBER OF ALLOWABLE PARKING SPACES, AND INCREASE THE NUMBER OF ALLOWABLE MEMBERS RESIDING ON THE PREMISES, ON PROPERTY GENERALLY LOCATED AT 3601 APPLE STREET - Jeff Monzu, Architect with Leo A. Daly, 8600 Indian Hills Drive, Omaha, came forward and explained the original permit that was approved by the Planning Commission had 12 conditional items. At the time, we requested one of those conditional items to be removed which was the location of the dumpster on the property. Where the dumpster is planned to be moved still meets the requirements, will be screened and will following other design ordinances. The project has gone through a long design process, working with the East Campus Community Organization and Neighborhood Association in terms of placement of the building on the property. Originally, the building was on one end of the property and is now moved to the other end of the property, which is more amicable to the Neighborhood Association. There is currently a service drive associated with this for deliveries and trash removal. The service drive was placed behind the facility to allow deliveries and trash pickup without mixing with the member parking lot. One of the Neighborhood requirements was to get as many parking stalls as possible on the property and increase landscaping buffers with the neighborhood. The requirement was to achieve 68 parking stalls on the lot and they currently have 79 stalls planned. They have also allowed for perimeter landscaping at the edges and the retention requirements are taken care of on the property. Moving the dumpster as it states in the special permit might create problems with organization on the property. They have kitchen services and dining services on the same end as the service drive. The service drive was also intended to keep all the service traffic as far away as possible to the single family housing neighborhood as possible, as well as keeping it out of the member parking lot. That is the one provision that is being asked to be removed from the special permit.

Jane Raybould, Council Member, asked if the surrounding neighborhood was notified of this request.  Mr. Monzu confirmed the neighbors on the other end of the lot were not part of the East Campus Community Organization, and most of their conversations were with them. That also involved the Historic District, but there have been no specific communication with the neighbors on how the property will be used. There will be some neighborhood meetings to deal with other issues.

Ms. Raybould asked about the specifics of the dumpster and if it is a compactor. Mr. Monzu explained the intent would be to have a regular commercial dumpster. One of the earlier concerns was the trash being picked up early and being close to the surrounding residence. The current hauler confirmed the current pickup times for that area would be on Tuesdays and Fridays at 10:00 a.m. Where the service drive is, there will be screening from the current neighbors, there will be a wall and some landscaping to follow the dumpster enclosure requirements.

Ms. Raybould stated there was some concern about the current landscaping. Mr. Monzu said they will be removing some of the landscaping, but plan to maintain some of the bigger trees on the property. Discussion followed.

Ms. Raybould mentioned concerns the neighbors were having with runoffs. Mr. Monzu stated that Olsson and Associates is the design partner for this site and they are very familiar with the City requirements and intend to follow those requirements.

Ms. Raybould asked for clarification on what is being voted on with the appeal. Jeff Kirkpatrick, City Attorney, clarified they would be appealing what was passed by the Planning Commission. The appeal just brings it in front of Council, but there is also a request to strike two lines, which would take an amendment from the Council. The two lines are 19 and 20 on page 3, and those lines pertain to the location of the dumpster.

Leirion Gaylor Baird, Council Chair, asked for an explanation regarding any rules pertaining to the location of the dumpster and the distance from surrounding neighbors. David Cary, Planning Department Director, came forward and explained there are no rules as far as the location of the dumpster in this type of a use.

Ms. Gaylor Baird asked if any of the neighbors were notified of the appeal. Mr. Cary said there was regular notification of the special permit that went to the Planning Commission, and the surrounding properties all received notice. As it is written, the appeal process does not require notification to the adjacent property owners. However, in this case, the Neighborhood Association was contacted about the appeal and they did have that information. Discussion followed.

This matter was taken under advisement.
