WHEN TO USE FISCAL IMPACT STATEMENT

1. Requesting transfer of operating appropriations.
2. Requesting increase in personnel (full time equivalents) appropriations.
3. Requesting transfer of capital improvement appropriations.
4. Requesting operational change not authorized during the budget process.
5. Requesting appropriations based on receipt of additional funds from outside sources.
6. Requesting use of Contingency funds.

HOW TO USE FISCAL IMPACT STATEMENT

NEED: There should be a detailed explanation of why a change to the previously approved budget is necessary. If the change will have any impact beyond the current fiscal year, it should also be noted.

FUTURE IMPACT: One of the boxes should be checked. An example of an item with ongoing impact would be a request for additional fte authorization that will also be requested in upcoming budgets. This would necessitate filling out the “Next Fiscal Year Annualized” column. An example of an item with limited impact would be asking for authorization to use salary savings for the one time purchase of equipment. If “Projected Completion Date” applies, please fill in.

REVENUES GENERATED: Please note if the request will affect current and future revenues.

LEGISLATIVE CHANGES: These boxes should be marked yes or no. Some of the actions this form is used for (transfer of capital improvement appropriations, Contingency Funds) require a City Council ordinance.

PERSONNEL (full time equivalents): Please note the number of fte’s the request involves, if applicable.

PERSONNEL (cost), SUPPLIES, OTHER SERVICES AND CHARGES, EQUIPMENT: All entries in these boxes must have the business unit, object code, and object code description along with the dollar amount. Negative amounts must be indicated by brackets.

TOTAL EXPENDITURES: This box should contain the sum of the dollar amounts in the various expenditure categories.

SOURCE OF REVENUES: This box should contain the name of the fund the action is required for.
33rd St. from Holdrege St. to Madison Ave.
Mill, Overlay and Storm Drainage Improvements
City Project No. 540044

With active construction and reduced traffic lanes along 27th Street, the City of Lincoln has decided to move the construction start date for the 33rd Street Project from May 30th to June 19th. This is in effort to minimize overlapping construction impacts to traffic. Construction of the 33rd Street project is scheduled to be completed in mid-October. As a reminder, the 33rd St. project will include milling and replacement of the asphalt surface along with replacement of deteriorated concrete base and curb as needed from Holdrege St. to Madison Ave. This project will also include the reconstruction of curb ramps to meet Americans with Disability Act standards along with improvements to storm drainage pipes, structures and inlet tops. The work through this area is necessary to provide the public with improved storm water drainage and an improved driving surface. The City of Lincoln appreciates the public’s patience during this time of construction.

MTZ Construction will be the contractor. They will perform the work under closure of thru traffic on 33rd St. The City and Contractor will work with local property owners and businesses to maintain vehicular and pedestrian access during construction. Brief restrictions to driveways may be necessary. If you have questions or comments, please contact one of the following people:

Board Members Absent: Dan Harshman

LES Staff Present: Kevin Wailes, Shelley Sahling-Zart, Jason Fortik, Dan Pudenz, Lisa Hale, Trish Owen, Laura Kapustka, Paul Crist, Lacy Stockdale, Clayton Buss, Dee Huber, Melissa Palmer, Jim Rigg, Marc Shkolnick, Dave Auman, Heather Schlautman, Kelley Porter, Lucas Fahrer, Taletha Kryzsko, Randy Hampton, Ron Kratzer, Bryan Willnerd, Scott Benson, Rachel Barth, Dan Dixon

Others Present: John Atkeison

News Media Present: Nick Bergin, Lincoln Journal Star
Cole Epley, Omaha World Herald

Chair Jerry Hudgins called the meeting to order at approximately 9:30 a.m. A safety briefing was provided. He noted that LES conducts its meetings in compliance with the Nebraska Open Meetings Act, and noted that copies of the Act are located near the entrance to the Board room.

Chair Hudgins asked for approval of the minutes of the meeting of April 21, 2017. Vicki Huff moved their approval. W. Don Nelson seconded the motion. The vote for approval of the minutes was:

Nay: None

Abstain: Kalkowski

Absent: Harshman

Call to Order

Approval of Minutes
Clayton Buss, Senior IT Administrator, Database, Technology Services, Information Infrastructure & Governance, was recognized by the Board for 20 years of service to LES.

Dee Huber, Coordinator, Treasury & Risk Management, Financial Services, was recognized by the Board for 30 years of service to LES.

Vicki Huff, member of the Budget & Rates Committee, reported on Committee discussion which included: 1) a high level overview of the 2018 budget schedule; 2) a review of the 2017 Sustainable Energy Program funding level and the Committee’s support for increasing the program by another $500,000 by reallocating other budgeted funds; 3) a discussion about the 2001 agreement between LES and Norris regarding joint use area customers; 4) rate concept alternatives; 5) a review of recommended changes to LES’ Service Regulations; 6) the first quarter 2017 generation revenue and cost report; and 7) an update regarding DEC and NUCorp.

DaNay Kalkowski, Chair of the Communications & Customer Services Committee, reported on Committee discussion which included: 1) a review of recommended changes to LES’ Service Regulations; 2) an update on the payment portal project; 3) a report on LES’ Virtual Net Metering marketing efforts; and 4) an update on customer and employee engagement planning.

Tammy Ward, member of the Operations & Power Supply Committee, reported on Committee discussion which included: 1) the first quarter 2017 generation revenue and cost report; 2) a review of recommended changes to LES’ Service Regulations; 3) a generating resource update; and 4) an SEP analysis as it pertains to LES’ 2017 Integrated Resource Plan (IRP).

Vicki Huff, Chair of the Finance & Audit Committee, reported on Committee discussion which included: 1) an update regarding worker’s compensation and incidents for 2017; 2) an update on LES’ talent management system; and 3) a review of the CEO’s performance for the past year.
W. Don Nelson reported on activities of the District Energy Corporation (DEC). DEC has adopted another twenty year management agreement with LES. DEC has enlisted Prime Communications to review security needs at DEC facilities. Nelson noted that approximately one year from today, DEC will be providing heating and cooling services to the LES Operations Center, a current project which is running on schedule.

Ron Kratzer, Manager, System Planning, Energy Delivery, presented the Board with the 2017 construction review and outlook. (Exhibit I) LES anticipates approximately 2,400 new meter sets and 600 rewire this year. Kratzer noted that due to the increase in digging and boring in the city, LES has made at least 6,000 locates per month and current LES projections show underground primary cable cuts are on track to exceed 60 for the year, which would be the highest total LES has seen in the last seven years.

Laura Kapustka, Vice President and Chief Financial Officer, presented the 2017 Report to Rating Agencies. Kapustka noted that she, Kevin Wailes and Jason Fortik will be traveling to New York City next week to provide an annual update to the rating agencies on LES' current business situation, as well as a forecast of upcoming issues and events that could affect LES and the industry in the future.

Heather Schlautman, Manager, Customer Care, presented proposed changes to LES' Service Regulations. (Exhibit II) Among the proposed changes is a restructured layout with additional detail to make the regulations more customer-focused. The last time the regulations were updated was in January 2016. Schlautman noted there would be an open house regarding the proposed changes at 6:00 p.m. on May 30, 2017, at LES' Walter A. Canney Service Center. The LES Administrative Board will take action at the June 16 Board meeting.

Shelley Sahling-Zart, Vice President & General Counsel, provided a brief update on legislative activities of impact to LES. Of the 667 legislative bills introduced this session, 344 are still in various legislative committees and 143 are on General File. There were an additional 126 legislative interim study resolutions introduced. Sahling-Zart noted the Legislature was initially set to adjourn on June 2, 2017, but is going to adjourn early on May 23, 2017.
Layne Sup moved that the Board go into closed Executive Session for the purpose of discussing the Chief Executive Officer's performance and salary adjustment. W. Don Nelson seconded the motion. The vote to go into closed Executive Session was:

Nay: None

Absent: Harshman

Chair Hudgins declared the Board in closed Executive Session at 10:44 a.m. He declared the Board out of Executive Session at 11:09 a.m.

Vicki Huff, Chair of the Personnel & Organization Committee, reported the Committee discussed with the LES Administrative Board the performance of CEO Kevin Wailes for the 2016 calendar year. (Exhibit III). Vicki Huff moved approval of LES Resolution 2017-5, approving a salary increase of 6.9% for an annualized salary of $403,104 for the Chief Executive Officer, effective June 1, 2017. Layne Sup seconded the motion. The vote to approve LES Resolution 2017-5 was:

Nay: None

Absent: Harshman

The Monthly Financial and Power Supply Reports were distributed to the Board and staff was available to answer questions. (Exhibit IV).

The next regular meeting of the LES Administrative Board is scheduled for Friday, June 16, 2017, at 9:30 a.m.
There being no further business before the Board, Jerry Hudgins declared the meeting adjourned at approximately 11:12 a.m.

City of Lincoln  
Telecommunications/Cable Television Advisory Board  
Meeting Minutes – January 26, 2017

**Members Present:** Steve Eggland, Kate Engel, Trent Fellers, Ed Hoffman, Jim Johnson, Laurie Thomas Lee, Helen Meeks, Art Zygielbaum  
**Members Absent (excused):** Rebecca Henderson, John Neal  
**City Staff:** Diane Gonzolas, Steve Huggenberger, Jamie Wenz, David Young  
**Allo/NelNet:** Brad Moline  
**Charter/Spectrum:** Jarad Falk, Tyler Hedrick  
**WindStream/Kinetic:** Scott Barnett, Brad Hedrick  
**Other:** Jay Edmiston

**Call to Order**  
Meeting was called to order at 3:06 pm by chair Ed Hoffman. Hoffman made note of the copy of the Open Meetings Act at the back of the room. Board members and guests introduced themselves. The board welcomed new member Kate Engel, who was appointed to fill the vacancy created by the resignation of Paul Barnett.

**Review of Agenda**  
Agenda was modified to add Election of Officers as an item under New Business; January is our traditional meeting at which officers are elected. Gonzolas suggested that since we have a member of the public, we might consider moving Public Comments to just after item 4 (PEG report) rather than leaving it near the end of the meeting. Zygielbaum moved the agenda as amended, Lee seconded, motion passed 8-0.

**Minutes**  
Minutes of the December 1 meeting were presented. Eggland moved approval; Lee seconded; motion passed 6-0.

**City Report/PEG Channels**  
Wenz distributed a written report on the Government and Education Access channels, then led a discussion of where the City is in terms of the channels. We have live streaming on YouTube and Facebook; we also send out tweets that those links are live. We have seen increases in viewership. We have done two men’s and women’s basketball games on the educational channel. Melissa from 10Health has a video (training class on running).

Gonzolas commented that the current grant for 10Health TV will end June 30; we have applied for another grant from the Community Health Endowment.

Wenz said that we have resolved the backup power issue. Half of the power was on the backup, half was not; the building maintenance people are in the process of getting everything onto the backup power.

Gonzolas distributed a written report on Goals, Objectives, Strategies, Tactics, and Measurement. Board can look over the written document at our convenience; however she wanted to discuss Goal #1. She met with a class at the University to discuss rebranding of the channels, including de-emphasis/removal of the channel numbers in the brand (i.e. 5CityTV, 10Health). This would be more in keeping with current trends; also with multiple cable providers the channels are not in consistent locations anyway. Suggested names included LNKCityTV, LNKEducationTV, LNKSportsTV. Gonzolas said that she could answer questions on the document now and/or at a future meeting.

Lee asked if this cover all the PEG channels; Gonzolas said that it only applies to the ones that are under City control (Education, Government); Public Access is not controlled by the City.

There was a question about whether unlinking from the channel numbers is a good idea. Zygielbaum said yes, especially with channels moving around and people who do live-streaming.

Hoffman asked if the board would be making a recommendation to the Mayor on this document. Gonzolas said not at this time; the document is part of a bigger plan for which she will need to consult with the Mayor and hash something out. The bigger plan will need to be considered by the board when it’s ready.

**Public Comments**
Jay Edmiston had sent the City a copy of a letter that he had written to Spectrum regarding changes to service at his address. (See document name SKM_C454e16122917300.pdf, emailed to the board on 12/29/2016.) Edmiston addressed the board and summarized his concerns about the changes in pricing and service which he is experiencing under Spectrum after the change from Time-Warner Cable. Zygielbaum asked what Edmiston would like to see as an outcome. Edmiston said that he would like to see the Spectrum Silver plan for the same price as the Select plan that he had under Time-Warner. He also thinks having a non-working box back across town is “no way to run a railroad.”

Charter/Spectrum report
Tyler Hedrick distributed a written report for the Public Access studio. There are two new shows. One is a finance show that’s recording a 10-part series; they have five done, not yet aired. It will cover the basics about saving money.

Jarad Falk said he received a promotion last month. He is now a senior director with Spectrum, has six states in his jurisdiction now. It’s an exciting new challenge, but will keep him busy; he wants to find someone in Lincoln who would be a director of Kansas and Nebraska.

Hoffman asked Falk how many Nebraska employees Spectrum has. Falk said he thinks they’re at 352. There is a new director of Technical Operations; call center has moved back to the US.

Spectrum has an Internet/Internet Assist program; a low-income broadband program. The program meets the definition of broadband. It is made available to low income families with school children; also to people 65 and over who receive SSI benefits. He would like to have an opening reception; will probably invite board members. Falk will email a fact sheet to Gonzolas; February/March.

He thinks that there may be changes in DC that help telecommunication companies to provide services.

ALLO report
Brad Moline reported that ALLO continues to convert businesses and customers. They have received notice of some channels, such as Cloo, that will be discontinued by the operators; he will communicate that to the City and the Board as it happens. ALLO continues to add bandwidth. They are seeing a lot of Over The Top (OTC) people who bypass cable.

The firm has over 300 employees in the state of Nebraska. About 200 are based here in Lincoln; last year at this time we had 2. ALLO, LPS and LES are working on a Chromebooks program in the schools.

He acknowledged that ALLO has received some negative comments in the news recently for the challenges of building a fiber network. Channel 8 had a report. One piece is working in the winter. When a utility gets hit often it’s a locate issue, but 1/3 of the time it’s one of their contractors. They are meeting with USIC a lot, the entity who does those locations. They did 175 miles in Lincoln last year, passed 25,000 homes, with an error rate of less than 1/2 percent. But if you’re the home owner it hits hard; ALLO is trying to work with those who do get hit. A couple of contractors “won’t be joining us” in the future; (Moline commented that we probably know what that phrase means in this context).

Lee asked what kind of coverage there is. Moline said that everything downtown can get access; roughly from UNL to K Street, Railyard to 21st Street. Also south Lincoln from downtown east to 40th Street, O Street south to Old Cheney

Lee asked how OTC is affecting ALLO. Moline said it’s leveling off a little bit. Lots of college age kids won’t subscribe to cable even with dad providing it. It’s something they need to think about.

Windstream/Kinetic report
Brad Hedrick commented that Cloo will be going off of their system also; the provider has decided to terminate the channel.
Regarding NetFlix, that’s why they are partnering with NetFlix. They have three 160 TB servers in their downtown building, which only store NetFlix content and nothing else.

Building out; will soon be adding another 100 miles.

They have had GFast trials in a couple of apartment complexes; getting tremendous speeds. The service had fiber right up to the outside of the building, then utilizes the apartments’ wiring.

Old Business
Revision of Bylaws
At the last meeting we had a draft; there were several comments regarding additional changes, and a clean copy was distributed to the board. Zygielbaum moved approval, Eggland seconded, motion passed 8-0.

Internet Provider Speeds
Young said that $5000 has been earmarked for software that can be used to measure Internet speeds. He asked for a discussion on how the board would like to measure speed differences between the providers. He suggested that we could ask people who is their service provider, how much they are paying, what they are paying for.

Hoffman asked where this software would be located. Young said there are a couple of different locations.

Hoffman asked if other cities have used this software. Young said that it's been used by St. Louis and Santa Monica. He doesn't think anyone has used it in the way that we plan to, getting measurements over time.

Young asked if we should do a citywide day of testing, or how do we test it? We're educating people on how to evaluate broadband. He would humbly ask the board if we might want to create a subcommittee to do this. It would be nice to get it up and running over the next 60-90 days.

Hoffman said that the information that people don't know is dangerous.

Meeks asked if the consumer would have the option to say that they don't want to do this. Young said yes; this would just be an option so they would just not do it if they didn't want to.

Hoffman asked Young what he would like to see this board do. Young said that we could assign this to a subcommittee, maybe two 30-minute meetings. Subcommittee could discuss what is the strategy to communicate with the citizens. They will need to report to the Mayor; report will likely come out of this committee.

Hoffman said that he will appoint that to the ALLO nonprofit/wifi zones subcommittee.

Young said that 18 months after ALLO hits 50% of the community then they have 18 months to offer free wifi zones.

Hoffman asked when should the free wifi zone committee plan to meet to talk about wifi zones. Young said that should probably happen this fall. Said OK, then we'll work on the speed measurement software now.

COOPER FOUNDATION APPROVES SECOND QUARTER GRANTS AT MAY MEETING

Lincoln, Neb. — The Cooper Foundation awarded a grant of $10,000 to Legal Aid of Nebraska in support of their work in Lincoln. Legal aid attorneys meet with families in a variety of settings in Lincoln neighborhoods. Working with community partners, they will address specific issues that impact self-sufficiency, independence and well-being. Legal Aid works in all 93 counties in Nebraska, providing quality legal civic aid dedicated to helping people preserve and maintain life essentials—income, health, safety, and shelter.

Overall, Cooper Foundation’s Board of Trustees approved grants at the second quarter grant cycle totaling $138,300 to 15 nonprofit organizations. The foundation awarded grants to a diverse group of arts, community improvement, education, and human services organizations. Grant recipients are located in Lincoln unless otherwise noted.

Approved for Funding by the Cooper Foundation, May 2017

Arts

Hear Nebraska - $10,000
General operating support for this organization that promotes Nebraska music and art through music journalism, education, and events.

Lincoln Parks and Recreation Foundation - $5,500
In support for a free summer concert series at Union Plaza on Friday evenings, from June through October 2017.
Museum of Nebraska Art (MONA) - $4,050
To support a video documentary about David Stewart, “The Accidental Artist,” highlighting his home and studio space in Hastings, Nebraska.

Nebraska Shakespeare - $5,000
General operating support for the 12th season of the statewide Shakespeare on Tour program.

University of Nebraska-Lincoln, Nebraska Repertory Theatre - $7,500
Support for the Nebraska Rep in its relaunch as a year-round professional theatre.
Community Improvement

Lincoln Bike Kitchen - $6,250
General operating funding to support rent, utilities, and the purchase of bike-specific tools for this organization that provides free bicycles, helmets, and bike repairs.

Education

Camp Summergold - $5,000
To provide tuition assistance and transportation for girls from Lincoln to attend the residential summer camp, located in Aurora, Ne, focused on the arts, STEM education and personal growth.

Nebraskans for Civic Reform - $10,000
In support of the New American Civic Action Program to educate and engage immigrant and refugee populations in the civic process.

Prairie Loft Center for Outdoor and Agricultural Learning (Hastings, Nebraska) - $10,000
General operating support for the Experiential Education Program to create cultural connections to people, food, and the land.

Human Services

ACLU of Nebraska - $15,000
Operating support for the protection and defense of civil rights and civil liberties for all Nebraskans.

CEDARS Youth Services - $15,000
In support of the Bridges Transitional Living Program for at-risk youth, ages 16-24, who are homeless or who have aged out of the foster care system.

Friendship Home - $15,000
General operating support for the expansion of emergency shelter and supportive services for 2017.

Heartland Big Brothers Big Sisters - $10,000
General operating support.

Legal Aid of Nebraska - $10,000
General operating support for Lincoln activities.

St. Monica’s - $10,000
For general operating support.

The Cooper Foundation, established by Joseph H. Cooper in 1934, has granted nearly $23 million to benefit the people of Nebraska. The Foundation makes quarterly grants supporting arts, community improvement, education, environment, humanities and human services primarily in Lincoln and Lancaster County. For more information about grant guidelines and deadlines, call 402-476-7571, or visit the foundation's web site, www.cooperfoundation.org.

Comments: I understand the the Costco Chicken Plant in Fremont will generate 900 Million pounds of waste a year, more than twice the amount of human waste that Omaha disposes of yearly. How can we even be considering this?! What a threat to land, life, and most specifically, water! Our water—Lincoln’s water. Those of us downstream of Fremont will bear the brunt of the damage caused by this extraordinarily foolish undertaking. Most wastewater treatment facilities are already dealing with massive amounts of nitrates, and this plant will result in much higher volumes. Please, please spare us the unthinkable problems this plant will create. Thank you for listening, Pippa White Lawson

Comments: I've continually reported several potholes that I encounter on my way to work as well as while driving around town. While a few have been repaired, several have not. One in particular just south of 33rd and F has been been reported multiple times by myself. It's been there growing bigger since February. Fixing potholes seems to me to be the easiest preventative maintenance the city can do to keep the streets in good shape. I'm not sure why a citizen has to continually report issues.
It has come to the attention of members of the NAACP and of the Lincoln chapter of Nebraskans for Peace that there appear to be few persons of color on Lincoln and Lancaster County governmental boards and committees. We have had the good fortune of having two persons of color elected to city office in this last election; however, there appear to be few persons of color on the non-elective, appointive committees and study groups of the city and county. The 2010 census showed that Lincoln has almost 20% citizens of color, and it is very likely that the 2020 census will show an expansion in the percentage. We recognize that Project All and Lincoln Leadership have made efforts in this direction that have been of some use. However, we believe that more could be done to place people of color from a variety of ethnicities in positions of governing responsibility in the city.

It is important to the maintenance of good order in the city and to the development of a sense in all citizens that they are represented in our governance that all major constituent groups be placed in positions of authority and analysis. We are speaking here not only of African-American citizens, but also of Latino ones, Native American persons, and persons of Asian descent. Would you please undertake an active recruitment program for the purpose of expanding the participation of citizens of color in the governance of the city? We believe that doing this on a nonpartisan basis would be an advantage both to the citizens of color, to other citizens, and to the city as a whole. We would like to ask the Human Rights Commission to send a representative to our July meeting to discuss these matters and we would welcome any representatives from the mayor's office city Council, who might wish to speak to us.

Sincerely,

Comments: I read w/interest your comments on the $150,000 to be used to further beautify P St. downtown or in that area & close to the Haymarket. I so enjoy seeing our city grow w/all the new bldgs., businesses, amenities, etc. But for 2-3 yrs now I have written to the mayor about the landscaping that was put in along O St. when that stretch was redone back then. The block from 17th to 18th on the south side is mainly Thrift stores & antique shop. I wish they would have just left it all cement, but they made grassy areas w/trees & every yr. since then it has looked terrible. A few weeks ago there were some weeds you could almost hide a bike in. It doesn't get mowed, it collects trash & cigarette butts, etc. I feel like just because it isn't high end shops, etc. & the bars further west, it just gets ignored thinking nobody will notice. I think the mayor's office has told me that there is a private contractor that is supposed to keep it up. If you are driving down O St it doesn't looks too bad but if you get out & walk it looks terrible. Thanks for your time.

Classes are from noon to 12:45 p.m. Fridays from June 2 through September 1 at the Jayne Snyder Trail Center, 21st and “Q” streets. All classes are free and open to the public, and no preregistration is required. Six different types of classes are offered:

- **June 2 – Movement and Music:** Explore elements of dance in a no-pressure, social environment at a comfortable pace.
- **June 9 – Chair Tai Chi:** Perform simple movements while sitting or standing near a chair.
- **June 16 – Dynamic Movement:** Stretching, breathing and a unique combination of exercises and dance steps will isolate muscle groups, enhance flexibility, increase heart rate and improve strength.
- **June 23 – Qigong:** Movements work with the body, breath, mind and subtle energies to attain health, vitality and longevity.
- **June 30 – Fit Mix:** An eclectic class that incorporates movements from dance, yoga, Tai Chi and Qigong.
- **July 7, 14, 21 and 28 – Movement and Music**
- **August 4 – Fit Mix**
- **August 11 – Tai Chi, Moving for Better Balance:** A fall prevention program using principles and movements of Tai Chi.
- **August 18 – Dynamic Movement**
- **August 25 – Fit Mix**
- **September 1 – Qigong**

The Move More Lincoln Wellness Series is designed to help individuals stay active, flexible and balanced. It is sponsored by the Community Health Endowment of Lincoln and Lincoln Parks and Recreation.

Come see the Mini House!

224 N 28th is a brand new small home. At just over 500 Square feet, it and a garage fit on a non-standard lot that is only 44’ X 55’. It will be open to the public on Thursday, June 1 from 5:00 – 7:00 p.m.

This small home fits several important niches in the current marketplace. Its small size makes it affordable and easy to maintain - suitable as a starter home, for the single professional or for an empty nester. It addresses the small lot challenge of older neighborhoods and its design could work as an Accessory Dwelling Unit or ADU. It offers over 800 square feet of living space and features a finished basement with bath and laundry facilities on both levels.

The small home at 224 N 28th St. is available to purchase and is listed for $119,900 through Woods Bros. Buyers can get up to $25,000 in assistance for the purchase of this property but they must also live in the property, meet income eligibility requirements and complete homebuyer training through Neighborworks Lincoln.

224 N. 28th was built by Affordable Housing Initiatives, a non-profit based in Lincoln, and designed in cooperation with the City of Lincoln’s Planning Department and Department of Urban Development and Ken Inness as the general contractor.

Unlike the tiny houses featured on television, small homes are usually 500 – 1000 square feet and are built on a permanent foundation, conforming to current standards of safety, efficiency and zoning while meeting the financing requirements of mortgage lenders. Small homes will also work where more conventional home designs do not. Non-Standard lots are often times referred to as Non-Buildable lots because current zoning and setback requirements mean that the existing structures on them cannot be built to the same footprint. There are many lots like this in Lincoln and when it comes to repurposing them, small homes are a viable option.

The City of Lincoln is currently considering a zoning ordinance amendment that would allow small houses to be built as ADU’s associated with existing residential properties throughout the city. These could provide a provide living space for a relative, rental income for a homeowner or an accessible structure allowing a property owner to “age in place”. In other cities small homes may be part of new development areas where a cluster affordable, accessible and efficient houses may be grouped together with common areas for community activities.

33RD STREET PROJECT TO BEGIN JUNE 19

The start of the 33rd Street rehabilitation project between Holdrege Street and Madison Avenue has been delayed until Monday, June 19. The project had been scheduled to start Tuesday, May 30. The postponement will minimize traffic conflicts between the 33rd Street project and other area construction projects.

The project will continue to have four phases:

- Beginning June 19, storm drainage repairs will begin at the intersection of 33rd and Holdrege streets. The intersection will remain open with turning movement restrictions.
- In early July, 33rd Street will be closed to through traffic between Holdrege Street and Huntington Avenue for continued storm drainage work as well as pavement repairs.
- Following completion of the work from Holdrege Street to Huntington Avenue, repairs will be made between Huntington and Madison avenues, and that section of the street also will be closed to through traffic.
- 33rd Street from Holdrege Street to Madison Avenue will remain closed until asphalt is installed on the entire section. 33rd Street is expected to be open October 1.

Access to area residences and businesses will be maintained during the closure. The Public Works and Utilities Department asks the public to drive carefully when travelling near or through construction zones to keep themselves and the construction workers safe. The Department appreciates the public’s patience during this project.

For more information on the project, visit lincoln.ne.gov (keyword: 33rd) or contact Kris Humphrey, Public Works and Utilities, at 402-326-1176 or khumphrey@lincoln.ne.gov. MAYOR, LOCAL OFFICIALS ANNOUNCE SOUTH BELTWAY FUNDING PLAN

Mayor Chris Beutler and officials from the City, County and the Railroad Transportation Safety District (RTSD) today announced a funding plan that will allow construction of the South Beltway project to begin in 2020. The beltway is designed to relieve traffic congestion and improve safety, mobility and efficiency in Lincoln by connecting Highway 77, south of Saltillio Road, to Highway 2, near S. 120th Street and Rokeby Road.

“The distant dream of a South Beltway has become a reality because of the planning and partnership between the people standing with me today and our State transportation leaders. We put our heads together and found a solution that gets the job done,” Beutler said.

The City’s $50 million matched contribution will not increase taxes or delay other important roads projects, Beutler said. The funding comes from a combination of sources:

- $18.6 million previously paid by the City to the State
- $11.4 million from the City’s Capital Improvement Program
- $13 million previously committed by the RTSD for rail crossings
- $7 million from the RTSD

The City and State are negotiating an agreement that will reduce the City’s 20 percent matched contribution to the project by $10 million, Beutler said. The adjustment would be made possible because City payments made over the next 16 months allow the State to immediately move forward on important highway needs, allowing it to avoid inflated construction costs.

“The agreement is a great example of how government ought to work,” Beutler said. “Four different levels of government came together and dealt a winning hand for the City and the State. We found a path forward and as a result, we can look forward to getting together again for a South Beltway ground breaking in 2020.”

City Council Chair Roy Christensen said that the project will relieve traffic congestion in the City. “Completion of the South Beltway will help divert semi-truck traffic from Highway 2, increasing safety and improving traffic flow,” he said.
The RTSD provides funding for railroad safety related projects throughout Lincoln and Lancaster County. Since 1971, the RTSD has helped reduce train/vehicle fatality accidents by nearly 90 percent.

“The South Beltway passes over two different railroad crossings and the necessary overpasses will be paid for by RTSD funds. This will connect streets and reduce conflicts between cars, trains and pedestrians, increasing safety for Lincoln and Lancaster County drivers,” said Deb Schorr, RTSD chair.

“The County Board is committed to ensuring the successful completion of the South Beltway. It will benefit both residents and businesses in Lincoln and Lancaster County,” said Todd Wiltgen, Lancaster County Board Chair. “Investing $300 million in transportation infrastructure will create good paying jobs and spur additional economic development.”

LFR RECOGNIZED FOR CARE OF HEART ATTACK PATIENTS

Lincoln Fire and Rescue (LFR) has received the American Heart Association’s (AHA) 2017 Mission: Lifeline® EMS Gold Plus Award for implementing quality improvement measures for the treatment of patients who experience severe heart attacks.

“LFR received a silver award in 2015 and a gold award in 2016, so another year of receiving the top award is evidence that the dedication of our firefighters, dispatchers, hospital providers and community-minded citizens is making a measurable difference in our community,” said Lincoln Fire Chief Micheal Despain.

Despain reports that every year, more than 250,000 people in the U.S. experience the most deadly type of heart attack – an ST elevation myocardial infarction or STEMI – which is caused by a blockage of blood flow to the heart. To prevent death, it’s critical to restore blood flow quickly.

When responding to heart attacks, LFR uses electrocardiogram (EKG) machines with 12 connections to the patient to determine if blood flow to the heart is blocked. The EKG information is sent by cellular modem to the emergency room where doctors review the results and share them with a cardiologist by cell phone. When patients arrive at the hospital, they often do not need to stop in the emergency room, but can go directly to the catheterization lab for a balloon angioplasty to open the blocked artery.

LFR also follows protocols derived from AHA/American College of Cardiology guidelines. These tools, training, and practices allow emergency medical providers to rapidly identify suspected heart attack patients, promptly notify the hospital and trigger an early response from hospital staff. Agencies that receive the Mission: Lifeline® Gold Award have demonstrated at least 75 percent compliance for each required achievement measure for two years.

“This award demonstrates the outstanding collaboration that occurs between Lincoln Fire and Rescue and our community hospital systems and provides an example of the elite care delivered by our firefighters and paramedics,” said Dr. Jason Kruger, Medical Director for the Lancaster County Emergency Medical Services Oversight Authority.

For more information on the AHA’s Mission: Lifeline®, visit heart.org/missionlifeline and heart.org/quality. More information on LFR is available at fire.lincoln.ne.gov.

PUBLIC IS INVITED TO JUNE NATURE CENTER PROGRAMS

The Pioneers Park Nature Center invites the public to the following events in June:

Nature Trekkers – Wednesdays, 10 to 11 a.m.
Children and their families can explore our trails, visit various locations around the Nature Center and learn about the natural world. Hikes are planned for young children, but all ages are welcome. One adult supervisor is required per six children. Register by the Monday before each trek. Program fee is $3 per person, per trek.

Rain Barrel Workshop – Sunday, June 11, 2 to 4 p.m.
This workshop will teach you how to build a rain barrel, rainwater harvesting basics and how to use a rain barrel for your lawn or garden. All participants will take home a rain barrel, valued at $110. Rain barrels must be transported by the participant off-site on the day of the workshop. The workshop is designed for adults, but children may attend with an accompanying adult. Registration deadline is June 7. Program fee is $35 per person.

Herb Class: Container Gardens – Thursday, June 15, 6 to 8 p.m.
Luann Finke of Finke Gardens leads a class that sends participants home with a pot of four different herbs. The program fee is $14 per person and includes a container, soil, plants and instruction. Registration deadline is June 7. Space is limited.

Saturday with our Naturalist – June 17, 2 to 3 p.m.
Join us for a guided hike with the Nature Center’s Naturalist, Jamie Kelley. We’ll go for a guided hike on the Nature Center trails to observe what’s blooming, view wildlife and enjoy the current season. Dress comfortably for the weather. Registration deadline is June 14. Program fee is $5 per person.

Frogs and Floats – Father’s Day, Sunday, June 18, 1 to 3 p.m.
Spend the afternoon celebrating Dads with frog catching, tadpole chasing and exploration of our wetlands. We’ll supply nets to dip in the water, buckets to collect critters, magnifiers to get a closer look and field guides to identify what is found. After all the animals are released and the mud is cleaned up, we’ll enjoy root beer floats. Old shoes and clothes are encouraged. Insect repellent is also recommended. Registration deadline is June 14. Program fee is $10 per person or $18 per family.

Composting Workshop – Saturday, June 24, 10 a.m.
Learn composting at a workshop sponsored by Nebraska Extension in Lancaster County and the City of Lincoln Recycling Office. Demonstrations on how to manage three kinds of composting bins are presented by Extension Master Gardeners. This free workshop is located at the composting demonstration area across the road from the Prairie Building.
