DISCUSSION / FINDINGS OF FACT:

The July 1, 2017 through June 30, 2018 budget for the Railroad Transportation Safety District approved $200,000 for the Rock Island to Jamaica North Trail Connection project to begin design work. The full project involves the design and construction of a pedestrian and bicycle bridge from the Rock Island Trail to the Jamaica North Trail near the west end of Densmore Park and extending over the existing railroad. This project will provide much needed connectivity in the trail system and remove an existing, dangerous trespass issue where pedestrians and bicyclists have been crossing at grade over the active rail lines. Additional requests of $200,000 are planned for the 2018/19 and 2019/20 RTSD budget cycles in order to assist in the full cost of this project. Remaining funding is being sought from major and smaller donations as well as some City funding in later years.
