IV. ADJOURNMENT
The State of Nebraska has made a request to vacate the east-west alley in the block bound by 17th-18th, and K to L Streets. The area was viewed and consists of a paved parking lot with no delineation of an alley other than the utility poles located in the area. The alley is 16 x 300 feet for a total of 4,800 square feet. The alley can be accessed by both 17th and 18th Streets with a right in right out along 17th Street and either right or left turns at 18th Street. The State plans to use the alley and parking lot for a geothermal well field for heating and cooling the Capitol and a future parking garage. Staff report shows a sewer line and LES utilities in the alley and both are to be retained according to comments in the report. The utilities will need to be relocated at the time of the future site projects, and it is assumed relocation costs will be paid for by the applicant.

The writer has knowledge of land values from current and previous projects in the vicinity and estimates the value in the range of $20.00/sf. As such, it is expected that any purchaser would only be willing to pay a nominal amount for assemblage of an unbuildable parcel with their own property. The area itself is not buildable as a stand alone parcel but would continue to be used for parking and access. Since utility easements will be retained in the alley until such time as they are relocated, 20% of the underlying land value is considered appropriate for assemblage purposes. The area to be vacated is calculated as follows:

\[ 4,800 \text{ sq ft} \times 20.00 \times 20\% = 19,200 \]

Therefore, if the area is to be vacated, it is recommended that the area be sold to the applicant for $19,200.

Respectfully submitted,

Michelle R. Backemeyer
Real Estate & Relocation Assistance Agent

RE: Open Harvest Alcohol Sales

I am writing today as Chair of the Government Affairs Committee, Witherbee Neighborhood Association.

The Witherbee Neighborhood Association continues to oppose the easing of alcohol sales regulation in Lincoln. The proposal before you today does not change our position. Detail of our position can be found in the Neighborhood Plan for Action, a policy statement of the Lincoln Neighborhood Alliance, of which we are a founding member.

We understand that an attempt is being made to frame the measure as possibly helping to solve the 'food desert' problem in our community. If such an argument has merit, it should be brought to the neighborhoods for their review and input. Such an effort has not been made.

We acknowledge that food deserts are a reality. Serious discussion can and should be had, particularly if a 'best practices' solution is available. The Neighborhood Plan for Action is a living document and is subject to revision.

We do not oppose the efforts of Open Harvest to serve Lincoln in the best way possible. We do oppose opening the door on alcohol sales to the slippery slope of exceptions.

As it stands today, please oppose this latest effort to weaken Lincoln's neighborhood livability standards.

Richard Bagby, Chair Government Affairs
Past President, Witherbee Neighborhood Association.
Attention City Council, especially our District Representative, Ms. Cyndi Lamm.

THIS IS NUTS! ... From the outside looking in, it appears like a wolf in a sheep's costume!

Please read the below email strings. It appears as though things were not well-communicated by the City and there is now a public hearing tonight! Nothing was mentioned in the January 24, 2018 letter stating tonight's meeting (Jan. 29th) was still on. Rather the letter only mentions there is a conflict with the date for the Developer's attorney and there is a request to delay until February 5, 2018 at 3:00pm.

In light of the poor communication, things are looking GREAT for the City Planning Dept and the Developer. The ball was clearly in their court the entire time. This is very disheartening to witness as a long-time resident of Lincoln. I wish I could help more with our neighborhood cause, but my family (esp my Dad having his recent stroke the first week of January - as I shared with you, Cyndi) and my kids come first. It is so sad that there is NO TRUST within our neighborhood for City Officials.

Praying for a "win" as mentioned below by Mr. Mark Bigham!

We really don't want our streets being thru streets. There are plenty of other feeder streets and outlets for the new 400+ home development without going thru our neighborhood.

Council members,

I am forwarding an email chain between the county planning department and our association secretary. Please look at the Jan. 24th email from Geri Rorabaugh stating that the public hearing on the Dominion development/Sky Ranch Acres connections has been postponed to Feb. 5. Then look at the Jan 29 (today) emails from Geri and Teresa Meier that state the public hearing portion is TODAY with only new information being allowed at the Feb. 5 hearing. This is beyond comprehension when coupled with the knowledge that the Dominion planning has been ongoing for over a year and Sky Ranch first heard about it at a meeting the first part of November. When this is added to what we were told at a second meeting this month that our odds of having the City Council dead end our two streets was "the same as winning the lottery", it all adds up to a picture of total support for big developers and nothing for small neighborhoods like ours. Now that our concerns have to be presented tonight instead of on Feb. 5, it will be extremely difficult for members to attend your hearing since prior scheduling for work, kids, or other commitments has not been made. There's an old saying that You can't fight City Hall and all of this is the perfect illustration of why citizens also can't "trust" what comes out of the city's departments. When the only argument for connecting to Sky Ranch's two roads is "they were made to connect to" the underlying message is "Because we can do what we want". Our association is fairly unique because we have no sidewalks, storm sewer drains, street lights, and the streets are only 20-22 feet wide with no curbs. Throw in the drainage ditches and two downhill T-intersections and you have an accident waiting to happen. The two streets then feed into Cessna Lane which empties onto Holdrege (which is heavily used by grain trucks) where the county speed limit changes from 55 mph to the city's 45 mph and with no right turn lane into Sky Ranch. The only traffic study on future traffic into and out of the association was done by a licensed engineer and paid for by the association. The city planning department immediately dismissed this study as flawed even though it used city standards for traffic. Please at least delay the public comment portion until next week so our association members have a chance to attend the meeting. Thanks for your consideration of this.

Hi Angie

Although the developer’s attorney is requesting deferral of the public hearing on these items, it is my understanding that there will be public hearing on this matter this evening but it will likely be continued to February 5 as well. I am cc’ing Teresa Meier, City Clerk, on this email as well. She will be clarify if you have further questions.

Good Morning Geri--

I am emailing to find out when exactly we are to attend the City Council Meeting. Are we still on the agenda for Monday 29th meeting or did it all get moved to February 5th? People are just wanting to make sure they know when to attend.

Thanks!

To Andrea Howell, Mark & Susan Bigham,

Good Morning.

The City Council public hearing on the Dominion at Stevens Creek is next Monday, February 5th. The City Council meeting will begin at 3:00 p.m. This meeting will provide opportunity for anyone wanting to testify on the change of zone, annexation and special permit for a Community Unit Plan on this proposal south of Sky Ranch Acres.

Yesterday, Monday January 29th, there was an opportunity for people to testify on this matter if they wanted. Neither the developer nor anyone else chose to testify and the City Council continued the hearing to next Monday, February 5th. So the hearing on February 5th will be the first testimony before the City Council on this matter by the developer or anyone else.

The minutes of the Planning Commission public hearing on this matter were sent to the City Council previously. The minutes can be found as part of the fact sheet on this matter, and can be located online here. The correspondence on this matter can be found online here then type in the application number (i.e. SP17022); click on “Search”, then “Select” and the various correspondence can be found under “Related Documents”.

Let me know if you have any other questions.

Dear City Council members,

Over the past five decades, grocery retail in Lincoln’s older neighborhoods has hollowed out, leaving the city’s core without the anchors that are so vital to healthy neighborhoods and strong communities.

Having lived in Irvingdale for more than forty years, I’ve experienced the loss of three grocery stores in our neighborhood: first Safeway, then Hinky Dinky, and finally Sunmart.

Luckily, a small grocery, Open Harvest, moved into part of the old Safeway building and has kept our neighborhood from deteriorating further. Not only has Open Harvest helped to stabilize Irvingdale and several other core neighborhoods, it has supported the larger city economy in many ways.

As a recent Open Harvest board member, I know first hand the challenges facing the local grocery store. It can't compete in today’s market unless it is able to provide a full range of services, including beer and wine, making it a one-stop shop.

But the issue before the City Council is greater than Open Harvest’s survival. Studies show that groceries are central in revitalizing older neighborhoods. The convenient availability of goods and services is a key factor that people consider when choosing a place to live. City ordinances should be designed to encourage rather than hinder shops like corner markets, as well as restaurants and other businesses in older neighborhoods.

Too often, neighborhood groups are focused on removing something bad (like alcohol), when they should be focused on building on the neighborhoods' strengths. And too often, the unintended consequences are profound. Lincoln’s core is awash in alcohol sales, and it is largely a food desert. Open Harvest is the ONLY store that sells fresh food in a vicinity with plenty of alcohol available. If it closes, we may see another empty storefront on South Street (the Blockbuster space has been empty for years) and lose a beloved business and vital economic and community asset.
Is the potential for additional alcohol sales really more important than having groceries like Open Harvest plant themselves and thrive in older neighborhoods?

I urge the City Council to vote for the special permit and thereby promote the return of retail grocery businesses to older neighborhoods, which in turn will help to revitalize the city core.

Thank you,

Sarah Disbrow

Good beautiful morning to you all-

I appreciate your dedication to serving the public.

I am writing in favor of the text amendment to sell alcohol with in 25 ft of residential areas.

Various businesses are already selling alcohol 25 feet from a school, library, residential area. Changing the text amendment language allows for a fair playing field for all grocery stores to sell nutritious food and alcohol.

The margin for grocery stores is slim, increasing the basket size, makes grocery stores a one stop shop inviting success.

Groups who are opposed are a small percentage of their population. Knowing the folks in the Near South Neighborhood, their association may not represent the neighborhood’s views, only the views of those who show up at the meetings.

Thanks for weighing the options.

Sincerely,
*rosina

Rosina Paolini
Jon Camp,

I and many of my neighbors worked hard to get the current liquor requirements that prevent liquor being sold closer than 100 feet from Homes. I understand Open Harvests request, but there are plenty of places to buy liquor and it doesn't need to be made an exception. I am an Open Harvest member so what happens to it does concern me. One exception opens the door for the many requests that could be made by other businesses.

we want to keep our neighborhoods free from the problems that can occur when liquor can be purchased to close to existing homes.

Please do not let this exception be the cause of more problems for the council and for the citizens of Lincoln.

comments  I support a license to sell alcohol for Open Harvest. I don't know the law, but if this is a proximity to homes issue why is Moran's liquor store (33rd/34th and A) have a license.
I shop at Open Harvest. As a widow I depend on it's deli for nutritious meals which include a greater variety of vegetables than would be feasible for me to buy and not waste. I need and want them to thrive. I'm not a consumer of alcohol, but it seems ridiculous not to give them a license. Please support one of the last remaining local grocery businesses. I do..
I'm disappointed.

It is not the responsibility of the Charter Revision Commission to decide if changes should be on the ballot or when the changes should be on the ballot. This is the responsibility of the City Council. As laid out in ordinance the Commission's only responsibility is to recommend changes.

I understand that the subcommittee may not have had time to properly review the changes. This is primarily due to the excessive delay in having the subcommittee meet, a five month delay. I do not know who was responsible for that delay but it was uncalled for especially when many members of the Commission requested that the subcommittee review be done as soon as possible during the August 24th meeting.

Having no choice I look forward to the next meeting of the Charter Revision Commission, hopefully before the September cutoff for the November election.

Has a meeting been scheduled for the Charter Revision Commission?

For any approved changes to get on the May ballot they will need to be finalized by the Commission and in front of the Council for the February 12th meeting.

I believe that there are several previously approved changes, especially the gender neutral change, that should be put in front of the Council for consideration and possible inclusion on the May ballot.

comments I am in support of the liquor license text amendment requested by Open Harvest Co-op Grocery to be discussed at a public hearing with the City Council on February 5, 2018. I am asking you all to vote in support of this. I would like to be able to purchase beer and wine at their store. Thank you, Patricia Hoage
I am in favor of increasing the city sales tax as a means of additional revenue. Sales tax is a much more fair tax than either property tax or wheel tax because of the contribution from those outside of the city that also use our streets.
