Hello Mr. Camp -

I am writing to encourage you to support the bump stock ban being brought before the city council this afternoon. It is time to stop kowtowing to the gun industry and do something meaningful to stop the daily slaughter of innocent lives.

Thank you in advance for being on the right side of history on this extremely important issue.

Sincerely,
Janelle
I can not convey how vehemently I disagree with this proposed ban. It violates the state's constitution.

I am asking you to do everything in your power to prevent its passage.

Dan Walz
District 2
Good afternoon, Ms. Pallas,

You asked a question below concerning the cardboard ban and potential fines. I want to assure you that the City will not fine or ticket you for placing cardboard in the trash. However, your garbage collectors will have to separate it before they get to the landfill and may choose to charge additional fees. Residents should check with their garbage collectors to confirm whether they will be charged additional fees if recyclable corrugated cardboard is found in their trash.

If you have additional questions, please contact me. I am happy to help. You can also find information, fact sheets, and guides on our website at http://lincoln.ne.gov/city/pworks/solid-waste/recycle/.

Donna K. Garden
Assistant Director
Department of Public Works and Utilities
555 S. 10th St. Suite 208
Lincoln, NE 68508

dgarden@lincoln.ne.gov

Good Morning Donna,

Can you assist in responding to the email below, specifically, will there be a fine for continuing to add cardboard to our garage and what is that fine and how will it be collected?

Thanks,

Angie Birkett

comments  I am submitting a request to Flint Ridge Association to include recycling pick up in our HOA dues along with the garbage pick up. As the city continues to add things to the list that can not be picked up along with our garbage as in cardboard starting 4/1/18 and my assumption is that more will be added to this list as time goes forward it will become more advantageous to our members to have recycling pick up! I currently recycle myself and many in our group pay to have recycled items picked up by local companies for a modest fee. My question for you is there a fine for continuing to add cardboard to our garage and what is that fine and how ill it be collected. This information might help me with my argument that recycling would be an advantage to our home owners!
Thank you for your help!

- comments: While I think bump stocks should be outlawed, I don't think it the city's responsibility to do so. It is a federal matter as the federalist model would suggest. By outlawing them on a local basis, you would be creating a patchwork of rules and regulations. Leave it to the Feds.

Comments: I see where the city is spending $1.5 million upgrading the streets of the Haymarket. A city official indicated the streets were at the end of their useful life. I believe 90% of the streets I drive on in Lincoln are at the end of their useful life. For example, the intersection at 56th and Van Dorn, and 70th going south from Van Dorn to Pioneers. I could name a lot more.

I am disappointed the city is prioritizing the Haymarket at the expense of other streets that are in worse shape.
Members of the City Council:

Please ban the automatic weapons (Gun Bump Stock) from being legal inside the City Limits. There is no reason for anyone besides our military, etc, police and sheriffs departments to use these guns. I hope you will consider saving lives in Lincoln and pass this motion.

Thanking your in advance,

Roger and Judy Groetzinger
6321 North 14th Street
Lincoln NE 68521
Hello. Please oppose the bump stock ban for the following reasons:

1) Regulations creep:
This first step will further erode the second amendment rights of Lincoln citizens. The anti-gun crowd will propose further regulations later. The Nebraska seatbelt law at first was a secondary offense. Now it is “click it or ticket”.

2) It will have unintended consequences:
What is a multi burst trigger activator? This could easily make other types of triggers used by sportsman and competitors illegal.

3) It’s bad for business:
The new Cabela’s store in Omaha was built just outside the city limits in Lavista to avoid Omaha regulations. They are missing out on tax revenue. One of the largest firearms dealers in the region recently moved out of the Lincoln city limits. D.E. Guns now has a beautiful new facility east of town.

4) It’s just not a problem:
Proponents of this ban site the Las Vegas shooting as a prime example. The only problem is it’s not even clear the device was used. It shows up in one photograph of firearms but the perpetrator could easily have used fully automatic weapons.

5) A ban like this will invite state corrective measures:
There are already proposals at the state level to limit the ability of municipalities to suppress the second amendment rights of their citizens. A ban like this would certainly reinvigorate that movement.

Thank you very much.
John Cox
www.johncoxcfi.com
Councilman Camp,

As a member of your district, I would like you to vote to help our citizens and especially schools feel safer by banning the selling or possessing bump stocks in Lincoln. I feel very strongly about this issue both as long-time Lincoln resident, and as a former Lincoln Public Schools teacher. Although I have retired from teaching, I still care deeply about the students and teachers who could be terribly affected by an incident involving guns and a school. I remember teaching at Randolph School when we had to meet with our classes of students and talk about the reality of the planes on 9/11 that had occurred earlier in the morning as the children came to school. That was one of hardest things I have had to do as a teacher of children. To try to explain what was going on in a distant city, and yet not to terrify their little hearts with such an unbelievable event. Trying to remain calm and follow our counselor and principal’s suggestions on how to tell our students and then to continue into our “normal” day with fear and dread in our own hearts and minds. Reassuring them that we would keep them safe at school.

I know how even a fire drill practice can terrify some of our youngest students with the piercing loud alarm sounds in the hallway and flashing strobe lights as we try to walk calmly in line out of the school. Reassuring the students that they were safe and grasping tightly the most upset students’ hands was always important to me.

I can’t imagine how it would feel to try to protect my students in a real, live shooter incident. I well remember the Code Red practices we had of hiding in our classrooms, and for the kindergartens, crammed into a little bathroom, trying to keep them from making a sound even though it was just a practice. And the tears and shaking as they didn’t quite understand what we were doing. Even at Park Middle School, trying to reassure those bigger ELL students that it was just a practice, as some of them had come from places where gunshots, etc. were part of their former lives. Telling them that they were safe with us at school.

Now it is your turn as a City Council member representing me and the others of District 2 to reassure the children and the families, and the community members that you care more deeply about their safety and their mental health than you do about those who speak up for gun owners who want their rights.

Please do what is Right for the safety of the children and our great community of Lincoln—where we take care of each other so all can prosper!

comments Wanted to say thank you to all for the good dialogue at the city council meeting on Monday. While I’m not sure of your feeling on how you will vote on the multi burst trigger issue, I was wondering about possibly some lesser restrictive alternatives if you are inclined to vote for the ban?
Cyndi Lamm, Jon Camp, Jane Raybould, Carl Eskridge, Leirion Gaylor Baird, Roy Christensen, Bennie Shobe,

Attached is a letter I recently submitted to the Lincoln Journal concerning a high school football coach who was involved in a shooting at Chardon High near Cleaveland six years ago and his thoughts on the recent shooting in Stoneman Douglas H.S. in Florida. I agree with his comments that in the recent incident the AR-15 isn't the cause but "it is the means. Lets take away the means and work on the cause." I sincerely hope that you have the courage to ban the gun bump stock so that these "kids" will not have died in vain.
"We Can’t Let These Kids Die in Vain"

This quote by Frank Hall is from an article in this week’s Sports Illustrated written by Chris Ballard. The article is about Hall, a high school football coach who six years ago was a hero in helping to stop a shooting at Chardon High near Cleveland, Ohio by a 17-year-old. Three students were killed in the incident but it may have been far worst but for Hall’s actions. An unarmed Hall charged the shooter who ran when he recognized Hall. There are similarities between Hall and Aaron Feis, the coach at Stoneman Dougas H.S. in Parkland, Fl who lost his life in trying to protect students in the recent shootings. Hall was deeply saddened in reading about Feis’s widow and infant daughter.

Hall ended the SI article with the following quote: “I am a gun owner. I protect my house, but it’s not an AR-15. The only purpose of that gun is to kill people. Our children see it and it’s sad that the adults in this country don’t see it. ... An AR-15 isn’t the cause. But it’s the means. Let’s take away the means and work on the cause.”... “I just hope that we don’t ever become numb to it. We can’t let these kids die in vain.”
It is encouraging that two of our City Council members are taking action toward gun safety, albeit a small step. Please support the effort to ban bump stocks within Lincoln. The time for stronger gun safety measures is NOW. Thank you.
This proposal feels to me to be a “feel good” measure. It will not stop any criminal from doing whatever bad thing they are wanting to do. Maybe the house they break into will have guns but no bump stocks=so on to the next house or the internet to find their bump stock. Laws like this do not stop criminals=this one will only make lincoln’s law abiding citizens suddenly become criminals since they may have a bump stock in their possession.

Even the requirements now for all law enforcement agencies and dealers who sell guns to report sales is lax=also incidents of the law being aware of potentially dangerous people but do not report in a timely fashion thru the proper channels is where you need to focus your attention.

You say that you do not want to infringe on the 2nd amendment=so as long as the citizens can have guns=the answer becomes keeping the guns away from the people who want to use them for bad things. We all know that will be impossible to completely make America safe but there are ways to cut down on the possibility of bad people obtaining guns. This should be your focus!!

Please reconsider the ban on bump stocks=it is not the answer

Jane=you are running for state senator and I have been contributing to your campaign=I feel strongly on this issue and will be watching your vote on this issue.

Sincerely,
Lloyd weathermon

To Lincoln City Council members,

I strongly approve your proposal to ban gun bump stocks in the city of Lincoln. Actually I am in favor of any gun control measures that you are able to pass. It is time to stop talking about making schools safer and take actions that will make that happen. Thank you for working on this measure.
