WHEN TO USE FISCAL IMPACT STATEMENT

1. Requesting transfer of operating appropriations.
2. Requesting increase in personnel (full time equivalents) appropriations.
3. Requesting transfer of capital improvement appropriations.
4. Requesting operational change not authorized during the budget process.
5. Requesting appropriations based on receipt of additional funds from outside sources.
6. Requesting use of Contingency funds.

HOW TO USE FISCAL IMPACT STATEMENT

NEED: There should be a detailed explanation of why a change to the previously approved budget is necessary. If the change will have any impact beyond the current fiscal year, it should also be noted.

FUTURE IMPACT: One of the boxes should be checked. An example of an item with ongoing impact would be a request for additional fte authorization that will also be requested in upcoming budgets. This would necessitate filling out the "Next Fiscal Year Annualized" column. An example of an item with limited impact would be asking for authorization to use salary savings for the one time purchase of equipment. If "Projected Completion Date" applies, please fill in.

REVENUES GENERATED: Please note if the request will affect current and future revenues.

LEGISLATIVE CHANGES: These boxes should be marked yes or no. Some of the actions this form is used for (transfer of capital improvement appropriations, Contingency Funds) require a City Council ordinance.

PERSONNEL (full time equivalents): Please note the number of fte's the request involves, if applicable.

PERSONNEL (cost), SUPPLIES, OTHER SERVICES AND CHARGES, EQUIPMENT: All entries in these boxes must have the business unit, object code, and object code description along with the dollar amount. Negative amounts must be indicated by brackets.

TOTAL EXPENDITURES: This box should contain the sum of the dollar amounts in the various expenditure categories.

SOURCE OF REVENUES: This box should contain the name of the fund the action is required for.
I think it might be time to reconsider an idea I proposed five years ago, build the new downtown library over tower square. It is the perfect location for a library.

Tower Square is nice but as I predicted it is lightly used at best. Why? It very hot during the day in the summer and very cold in the winter. It is completely exposed to the elements. A there is also no avoiding the wind tunnel of downtown blowing across the square.

The Library Board is stuck on the Pershing block but that block would best serve the State as additional office space, parking and some retail. Or even better a private development of some sort.

Tower Square is the ideal location for the new downtown library. It is perfect for families. It is within easy walking distance of many family friendly areas; theatres, museums and food. Plus it would be very close to plentiful parking. The library design should leave as much ground level space open as possible. The library would cover the space making it a much more functional area for use as a public gathering and event area during the entire year.

My second choice for the library location is the parking lot south of the City County Building. A combination parking garage and library on the lot would fit with the current long term plan for the lot. The location would be near the Near South Neighborhood and the South Haymarket area. It would be a very good second choice to my first choice of building over tower square.

With an innovative design the best aspects of the tower square can be maintained and significantly enhanced by building the new downtown library over the tower square with a 21st century showcase library above.

Thanks for your service.

City Council,

As every day goes by, you seem to not realize what the problem is about guns. You try to legislate certain ideas that cripple law abiding gun owners. I am first and foremost all for responsible gun storage but to force people such as myself to buy a gun safe (that I cannot afford currently or I would have one already), it does infringe on our rights no different than forcing people to buy new tires for their cars when their tires are balding and that is very dangerous to the public. Texting and driving are far more dangerous than any guns and the statistics prove it but the Lincoln City Council ignores proven statistics because as typical politicians do, it doesn’t fit their “agenda.” I find it truly unnerving that responsible gun owners are always the target of legislation and the true problem of why it happened is ignored. We all should be responsible no doubt, offer courses for everyone to take on how to store firearms and ammunition properly but to force someone to buy something they can’t afford is not the answer.

Thank you

Please approve the agreement between the Lincoln Parks and Recreation Foundation and the Community Challenge Grant Fund to match private gifts for renovation or maintenance of facilities. The Parks and Recreation Department should have the ability to use these funds as necessary, rather than having the funds held up by the city council with the possibility of being used for some other purpose.

Sincerely,

Bob Reeves

Council Members.

Unfortunately I will not be able to attend the Oct. 29,2018 meeting of the city Council.

I would like to assure you that I believe the funds that were proposed to go to the parks department must stay with the parks department.

I believe they best know when upkeep of the parks needs to be done. They know what new equipment needs to be put in the parks and when that can be done and should not have to ask for their funds. They also will be able to have enough staff to maintain the parks. Some parks do not get mowed so that children can play in them and there are no restrooms open for their use. The recent snow fall necessitate some work on trees and removal of limbs. these are just a few of the things that make it necessary for the park department to have access to the funds that were originally designated to be in their hands.

Thank you for considering my request.
