**comments** The mixed use development Krueger Development wants to build at 29th and Pine Lake is not appropriate for the area. Krueger is wasting your time and the tax payers dollars by continuing to try to finagle some way to get this mixed used property built. It has been considered once and turned down. That should be the end of it.

Good day, City Council.

I write as a concerned citizen in regards to Mr. Krueger’s proposal to build apartments in the Porter Ridge neighborhood. The infrastructure is not built to handle the increased traffic at the proportions the apartment complex would require. Furthermore, the aesthetics for a building this tall abutted directly to residential property is a nuisance. I am fine with the development to remain office/commercial.

Thank you for your time and taking this into consideration as you proceed in making this important decision.

Regards,

Bridgett Ojeda

comments      City Council Members:

I am respectful of the planning process. Krueger Development is not respectful of the planning process or anyone but himself. He knows how to manipulate others and abuse power. His group will never go away and adhere to the zoning in place in the Pine Lake Road and 29th Street (UP100D) location. As a homeowner on the north side of Porter Ridge Road, I and others are being taken for nothing but mere “chumps” in the Krueger game. By the way, so are the Planning Commission, the City Council and the Mayor. We are all chumps. Pawns in his game.

I believe Krueger will continue to ask for a variance to get what he wants. I ask for each of you, as an individual, to come to my townhome at 2818 Porter Ridge Road, to stand on my deck facing north and see how high the height variance is, that is being requested will look. Also, considering the 24 hour / 7 days per week apartments, rather than 8 hour / 5 days per week office/medical. Well, it will be higher than the proposed Trump’s Wall on the Mexican border. Any takers for a look. Come see. You will be in for a shock. A flat blueprint does not do justice. Truly disgusting.

Have you seen the apartments where Krueger has his office on Yankee Hill Road around 17th Street on Cody Lane? They are only 3 stories tall, not the proposed 4 stories for this project. Go look. They would be hideous and tall, when squeezed into our tiny neighborhood. So, add another story to that and put it in my backyard. It’s only 25 feet to the fence. Would you want Krueger’s Wall in your backyard? I don’t, but hey, the Planning Commission is “right on it” saying it is “great”. Will do wonders for the City. It is not great.

Krueger has changed his design from last time. The only plus is putting the air conditioner units on the roof. The balconies that were gone before are now back, facing the south side. The building remains very tall. Why were lots ever zoned as currently states? So many others have made financial decisions based on unreliable zoning. The 17 units that will face Krueger’s Wall have an assessed value of some $3.4 million. For what purpose do we have zoning? So someone who doesn’t live there can request a change to meet their vision and greed later? I got it.

His underground parking is being designed to sit next to a swamp / retention pond. That’s a great idea. Once you give him the variance, he will be back and say he needs to move the parking to a higher floor, so just make it 5 stories instead of 4 stories. Just another variance change. But not to worry, you will do it.

You can all do what you are going to do, because Krueger knows best for all. Build the Krueger Wall. One guy, who will never live in this neighborhood, will dictate to all of you his greed and desires until you comply. Then all of us lucky ones get to live his dream. Perfect. Just perfect.
I hope you vote this down again and again and again. Krueger will come back forever and again. He will
never go away. Ever. It is his nature. He controls many properties in Lincoln. He controls many individuals
in Lincoln. Pure greed and madness. Sad, just so very sad.

Please review the forwarded email which we sent to Mayor Beutler following the City Council's passage of Krueger Development's project for the location at 29th and Pine Lake late last summer. Krueger is now set to resubmit a plan to the Planning Commission later this month which may propose some alterations to the rejected plan from last year, but be substantially the same. Please note the previous plan was rejected by a vote of 7-2 by the Planning Commission but passed by the council 4-3 after some light discussion and suggestions. We are not sure whether the Planning Commission conclusion was considered then, and we have little confidence that it's recommendation would be considered by the council now. The project remains completely out of scale for our neighborhood, and we are disappointed that the council failed to recognize this. We ask the council to reconsider their votes after they have looked at the area in person during the times we suggest in our previous email to Mayor Beutler.

Please consider a veto of the resolution allowing the construction of two high rise apartment buildings to be located between 28 and 29 Streets just south of Pine Lake Road. This project was debated and rejected by the Planning Commission after careful and thoughtful consideration by the commission. The developer's plan removed one story from the 5 story building to be located near 29th Street, and was able to avoid re-submission to the Planning Commission. We watched the City Council meeting regarding the direct submission to the council by the developer and we do not think the council gave much thought to their decisions to allow this development. The suggestion of planting hybrid willow trees (to mask the buildings) that would soon grow to 75 feet was laughable. These trees would be even higher and closer to the residents of the townhouses making a worse visual wall than the buildings themselves and the chances of a willow tree growing to this height before dying is low.

The area is supposed to be a buffer between the commercial buildings on 29th Street and the residences to the south. Putting a pool, clubhouse and two four story 50 ft high buildings in this narrow area completely eliminates this planned buffer. This developer has had two other waivers in the past from the council to allow DuTeau's building and car lots as well as the building of the Colorful Minds child daycare facility, which has increased the traffic in the area considerably. We live on 29th Street and now avoid using the street to reach Pine Lake. The main entrance to two apartment buildings would really increase the traffic in the area, making alternative routes even more heavily used.

The buildings proposed are completely out of scale with the neighborhood and the size of the parcel where they are planned. We urge you to drive to the area and look at the narrow plot and proximity to the town homes to the south. Be sure to come during the school traffic, the daycare traffic and the exit from Starbuck's drive thru lane. It is a very congested area to drive through.

Some on the council believed that the developer was to be praised for making compromises, but we point out that the developer was the one who initially made the plan, then has abandoned it and wants to have his third and fourth waiver from the zoning requirements. It is the residents who should be respected by the council, and their reliance on what would be built next door when they chose to locate their homes there. We believe the developer has betrayed a promise, and "compromising" his plan was not particularly praiseworthy.

Thank you for your consideration of our thoughts.

Hello Council members,

I am writing because of another story I saw today of another irresponsible gun owner that left their firearm in their car. Surprise! Someone stole it. Now there is another gun out there in the hands of someone that should, presumably, not have it. And we can't hold the irresponsible gun owner accountable for being irresponsible with their deadly weapon. I hope you'll all remedy this situation soon. Its happening almost weekly. I'm terrified for the safety of our communities. Here's a link to the most recent incident.
