Hello,

My name is Grant Daily and I live at 1430 S 9th Street, and I am commenting on the Campion Housing Redevelopment Project.

My biggest concern is that the development will be similar to the largely unsuccessful Latitude student housing development, which has had issues with occupancy. With 120 4-bedroom units and various amenities, I am anticipating a "luxury student" housing style focus with these units.

Density in housing is good, we need many more housing units near downtown. However, to meaningfully examine the proposal in relation to the Comprehensive Plan, we need to think critically about the type of units being provided.

Are the 4 bedroom units in a cramped, dorm style? Will these units have value in the secondary market if the housing development is sold later? Would those units be able to be turned into ownership condos later?

I hope this development can be used by both students, families, and young professionals. We need flexible housing types downtown, open to a variety of family types. As of yet, I am not able to see any draft designs of the interior. I just hope our planning department, planning commission, urban development, and city council think critically about how the design implements the future of downtown housing 20 years from now before we agree to using TIF.

City of Lincoln
City Council
555 S. 10th St. Rm. 111
Lincoln, NE 68508

Members of the Council for the City of Lincoln,

Our agency would like to address concerns of potential changes within the city’s budget cut that may affect our population who are either Deaf, Deaf-Blind or Hard of Hearing with multiple disabilities incapable of riding the standard city’s transportation system; namely, the city’s StarTran bus.

Mayor Leirion Gaylor Baird proposed to create a saving of approximately $147,000 or more by not renewing a contract with Transport Plus Handi-Van. It is critical that transportation providers know how to accommodate our population’s diversity of communication and technologies needs. The changes will create hardship for our population in these areas of concerns.

Our agency requests the city council weigh their decisions with care and consideration of the communication and technology accessibility need for Handi-Van riders who are either Deaf, Deaf-Blind or Hard of Hearing. If sensitivity training is needed, our agency can provide this at no cost to the city, it’s transportation department and drivers.

Please vote to maintain Handi-Van services within your city’s budget that will meet the upmost accommodation necessities for our population.

Sincerely,

John Wyvill
Executive Director

Dear City Council,

Please see the attached letter from the Unitarian Church of Lincoln's Social Justice Committee along with 48 signatures and three letters in support of a safe storage policy in the home. Our church has hosted several events with Nebraskans for Peace, Nebraskans Against Gun Violence, and March for Our Lives, and our youth group has been active in the gun violence prevention marches the past two years.

The research is clear that in Lincoln, NE., we have a problem with guns getting into the hands of teenagers and our schools. We are asking you to hold adults responsible for guns in the community and enact a safe storage law that requires guns in the home be locked up when not in use.

Thank you,
Melody Vaccaro

Unitarian Church of Lincoln says “LOCK IT IN LINCOLN”
SAFE STORAGE SAVES LIVES

BACKGROUND

Irresponsibly stored guns are a significant risk factor for accidental shootings, school shootings, and youth suicide. Studies show that policy combined with an educational campaign directed towards adults is the best way to keep guns out of the hands of minors. In fact, a recent study found that in school shootings in which the shooter was a minor and the source of the gun was known, 80% of the shooters had simply accessed a firearm in their own home or the home of a friend or relative.

Here are just a few Nebraska incidents that could have been prevented with safe storage laws:

- Westroads Mall shooting (2007) - the gunman took the firearms from his stepfather’s home.
- Millard South shooting (2011) - the shooter used his father’s handgun.
- In Lincoln in 2004, a 17-year-old boy was killed unintentionally after he found an unsecured shotgun in his home.
- In Lincoln in 2006, a teenage girl stole 48 of her father’s firearms and gave them to her friends.
- In Lincoln in 2008, a 13-year-old boy was killed when his cousin accessed a grandparent’s unsecured firearm.
- In August of 2018, 15 unsecured firearms were stolen from a Lincoln home.

Lincoln has increased funding for police in schools and has implemented regular lockdown drills in which K-12 students must practice hiding from school shooters. The school district is instructing students: “If you see something, say something.” However, we have done nothing to require change from the adults who make guns accessible.
How can we subject our children to this when we, the adults in the community, have not taken basic steps to ensure their safety? A safe storage ordinance does just that. It does not change what anyone can buy or own or even carry in public in Lincoln, but it makes people who bring dangerous objects into our community ensure that they stay out of the hands of people who shouldn’t have them.

To that end, members and friends of the Unitarian Church of Lincoln ask the Lincoln City Council to pass a safe storage ordinance. We have proposed this language:

*It shall be unlawful to store or otherwise place or leave a firearm in such a manner or under circumstances that the firearm is out of the immediate possession or control of the owner or other lawful custodian of the firearm, without having secured the firearm in a locked container designed for such a purpose so that access to the firearm shall be controlled by the owner or lawful custodian to the exclusion of all others.*

Dear City Council Members

18 August 2019

Please support lock up guns. Scientific studies prove having guns safely locked up reduces gun deaths. This is a basic, simple fact. Lincoln Citizens support reasonable scientific facts unlike many people who prefer "alternative facts."

Please introduce a Support a Lock Up Guns ordinance.

Sincerely,

Lincoln, Nebraska
To Chair Raybold,

Our church wants to do something about this gun situation. We just want to begin with something small like gun storage. I hope you will show leadership in this matter.

Thanks for listening.

Sincerely,

Amy Birky
To Chair Raybold,

How many more innocent people have to be killed before minimum safety requirements are instituted?

Safe storage of firearms is one of those minimum safety requirements.

Please pass the safe storage ordinance.

This morning I did a Google search for *LGBTQ non discrimination ordinance*, limited to just the last month. I retrieved the following news stories. I can only imagine how many more I would have retrieved had I expanded my search to the last year. This begs the question — if all these other cities can move forward to protect their LGBTQ citizens, why can’t Lincoln?

**Westerville [Ohio] Latest City To Consider LGBTQ Protections**

“Council member Valerie Cumming says a lack of movement on the "Ohio Fairness Act," which ensures similar protections statewide, is part of the impetus for the measure.

"If this is going to happen, municipalities are going to have to step up and be the ones to take the lead on this," Cumming says. "The hope being, of course, that if enough cities do it, the state will follow suit and recognize that this is an issue and they're moving in the wrong direction”"

“I think about the kids that I teach that live and go to school in this area and I want them to know that they’re secure and protected,” she said. “I want the same thing for the citizens who live here and because Smyrna is such a booming city, it’s an opportunity for the city to make a major statement and step up and be a leader for other places.”

When is Lincoln going to act? How is the city going to signal to members of the LGBTQ community that it is serious about protecting their rights? What message is being sent to young people who aren’t out yet about the advisability of being out? How do you explain the fact that other cities, including those in conservative states, are moving forward with nondiscrimination ordinances, but we aren’t?

Please do something.
