

LINCOLN-LANCASTER COUNTY HEALTH DEPARTMENT
Directed Health Measures 2020-14

WHEREAS, pursuant to NEB. REV. STAT. § 71-501, NEB. REV. STAT. § 71-1630(4)(d)(iii), and Chapter 8.18 of the Lincoln Municipal Code, and Lancaster County Resolution No. R-07-0035, the Director of the Lincoln-Lancaster County Health Department (“Director”) may exercise her authority to order Directed Health Measures necessary to prevent or minimize the spread of communicable disease. The objectives of this order are to reduce morbidity and mortality; minimize disease transmission; protect health care personnel, and preserve health care system functioning; and,

WHEREAS, The Novel Coronavirus (“COVID-19”) has impacted and continues to dramatically impact the citizens of Lincoln and Lancaster County, Nebraska; and,

WHEREAS, Patricia D. Lopez has been appointed and confirmed as the Health Director of the Lincoln-Lancaster County Health Department (“LLCHD”); and,

WHEREAS, Pursuant to NEB. REV. STAT. § 71-501, the LLCHD is authorized to promulgate rules and regulations concerning contagious, infectious, and malignant diseases in Lincoln and Lancaster County; and,

WHEREAS, Pursuant to NEB. REV. STAT. § 71-1630(4)(d)(iii), the Health Director is authorized to investigate the existence of any contagious or infectious disease and adopt measures to arrest the progress of the disease; and,

WHEREAS, Pursuant to Lincoln Municipal Code § 8.18.140 and Lancaster County Resolution No. R-07-0035, the Health Director may order the closure of, or restrict access to, any business, office, healthcare facility, school, or government agency or department for the purpose of controlling the spread of disease or for any activity related to controlling the spread of disease, and the Health Director may adopt any other control measures which are consistent with applicable guidelines of a public sector partner, emergency management agency, and any other applicable laws and regulations; and,

WHEREAS, having reviewed information from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention (“CDC”), local public health departments, treating health care providers and health care facilities, and other public health, security, and law enforcement authorities; having consulted with medical and communicable disease control personnel of the LLCHD; and having considered directives and guidelines issued by the CDC and other public health authorities, the Health Director finds as follows:

1. Information from the World Health Organization, the CDC, the LLCHD, local public health departments throughout Nebraska, and members of the Lincoln and Lancaster County medical community indicates that citizens of Lincoln and Lancaster County have been and will continue to be exposed due to community transmission of COVID-19.
2. Exposure to COVID-19 presents a risk of death or serious long-term disabilities; the exposure is wide-spread and poses a significant risk of harm (including death) to people in the general population; there is a particular subset of the population that is more vulnerable to the threat and thus at increased risk; and the threat is from a novel infectious disease.
3. Directed Health Measures (“DHMs”) exist to effectively prevent, limit, and slow the spread of COVID-19 amongst the citizens of Lincoln and Lancaster County and implementation will continue to curtail unnecessary in-person interaction, which is the main means of transmission of COVID-19.
4. The continued enforcement of DHMs is necessary due to the threat posed to members of the public if people gather in large numbers, in close proximity to each other, and in enclosed spaces, thereby increasing the danger to public health.
5. The manner in which the spread of COVID-19 cases in Lincoln and Lancaster County has occurred poses unacceptable risks to the health and welfare of the citizens of Lincoln and Lancaster County and continued DHMs are necessary to continue to prevent or limit the transmission of COVID-19.
6. Not having effective DHMs targeted at current circumstances would significantly jeopardize the ability to prevent or limit the transmission of COVID-19 or pose unacceptable risks to members of the Lincoln and Lancaster County community.
7. Maintaining practices to mitigate the spread of COVID-19 including, but not limited to, maintaining six (6) feet of physical distancing between individuals and/or parties of eight (8) or fewer, and wearing face coverings which cover the mouth and nose, are necessary to continue slowing the spread of COVID-19.
8. Director Dr. Robert R. Redfield of the CDC, as well as the Lancaster County Medical Society Board, have concluded the wearing of face coverings by every individual while in public is one of the best methods to slow and stop the spread of COVID-19.
9. The American Academy of Pediatrics has determined education is fundamental to child and adolescent development and well-being and strongly advocates that all policy considerations for the school year should start with a goal of having students physically present in school, and to be able to open schools safely, it is vitally important that communities take all necessary measures to limit the spread of

COVID-19.

10. Nebraska's Chief Medical Officer, Dr. Gary Anthonie, has indicated during the month of November 2020 the State of Nebraska has seen an increase in hospitalizations which is stressing the state's healthcare workforce and facilities.
11. Hospital capacity, as defined by both available inpatient beds and adequate staffing, has consistently decreased within Lincoln and Lancaster County in the preceding weeks.
12. The following DHMs have been identified as effective against public health threats by the CDC and other similar public health authorities to effectively prevent, limit, or slow the spread of COVID-19.

THEREFORE, the following Directed Health Measures ("DHM") supersedes previous Lincoln-Lancaster County Health Department Directed Health Measures 2020-13, and are hereby ordered for the City of Lincoln and Lancaster County, Nebraska, effective on December 7, 2020, at 12:01 a.m. and continuing until December 18, 2020, at 11:59 p.m. unless renewed, extended, or terminated by subsequent order; however, this Order will remain in effect no longer than necessary to ensure that COVID-19 no longer poses a public health threat, and all persons are ordered to comply:
