MINUTES LANCASTER COUNTY BOARD OF COMMISSIONERS COUNTY-CITY BUILDING, ROOM 112 TUESDAY, SEPTEMBER 29, 2015 9:00 A.M.

Advance public notice of the Board of Commissioners meeting was posted on the County-City Building bulletin board and the Lancaster County, Nebraska, web site and emailed to the media on September 25, 2015.

Commissioners present: Roma Amundson, Chair; Larry Hudkins, Vice Chair; Deb Schorr and Todd Wiltgen

Commissioner absent: Bill Avery

Others present: Kerry Eagan, Chief Administrative Officer; Gwen Thorpe, Deputy Chief Administrative Officer; David Derbin, Deputy County Attorney; Dan Nolte, County Clerk; Cori Beattie, Deputy County Clerk; and Kelly Lundgren, County Clerk's Office

The Chair called the meeting to order at 9:03 a.m., the pledge of allegiance was recited and the location of the Nebraska Open Meetings Act was announced.

1) <u>MINUTES</u>: Approval of the minutes of the Board of Commissioners meeting held on Tuesday, September 22, 2015.

MOTION: Hudkins moved and Wiltgen seconded approval of the minutes. Hudkins, Schorr, Wiltgen and Amundson voted aye. Avery was absent. Motion carried 4-0.

2) <u>CLAIMS</u>: Approval of all claims process through September 29, 2015.

MOTION: Schorr moved and Hudkins seconded approval of the claims. Hudkins, Schorr, Wiltgen and Amundson voted aye. Avery was absent. Motion carried 4-0.

3) SPECIAL PRESENTATION:

A. Commissioners' Award of Excellence – September Winner – Ron Bohaty, County Engineering, in the category of Productivity.

The Clerk read the nomination for the record. Hudkins presented a plaque to Bohaty and thanked him for his service to Lancaster County. The Board members all expressed their appreciation to Bohaty for his continued commitment to the Engineering Department.

Pam Dingman, County Engineer, commented that Bohaty is a dedicated employee and outstanding representative for the County. She stated that Bohaty went above and beyond by assisting with the County Fair equipment rodeo at the last minute.

Bohaty thanked his family, the Board, and his fellow employees in the Engineering Department.

SPECIAL PRESENTATION CONTINUED:

B. Regional Prevention Coalition Annual Presentation – Sandy Morrissey, Regional Prevention Coalition (RPC) Director.

Sandy Morrissey, Regional Prevention Coalition Director, gave an overview of the Nebraska Risk and Protective Factor Student Survey results for 2014 (Exhibit A). She said the survey targets Nebraska students in grades 8, 10, and 12. Morrissey noted the survey is utilized to assess adolescent substance abuse and delinquent behavior that predict behavior problems. She highlighted areas of interest in the survey for the Board.

Morrissey also presented the booklet entitled "Consistency" (Exhibit B) developed with the Partnership with Success grant. She informed the Board the booklet provides information on parenting skills that includes an interactive website.

Hudkins complimented Morrissey for the work done within the communities to providing safe after prom activities. He thanked Morrissey for providing parents with information and ideas for effective communication.

Schorr inquired if there any efforts with the Prevention Coalition to address youth suicide. Morrissey said they are actively working with the community and schools to provide training in this area.

Wiltgen asked how the Coalition was addressing the issue of bullying. Morrissey stated they focus on empowering the youth and building student leadership. She added the challenge is getting more of the student body engaged in becoming leaders.

4) <u>OLD BUSINESS</u>:

A. Amendment to County Contract C-14-0454 between Odyssey Travel, Lancaster County, and the City of Lincoln for travel agent services. The amendment renews the contract for an additional one-year term from September 9, 2015 to September 8, 2016. Total cost to Lancaster County during the renewal term shall not exceed \$12,000. (C-15-0503)

Sara Hoyle, Human Services Director, informed the Board that the Human Services Department primarily uses this agency. She noted the department's travel is funded entirely by grants and County funds are not utilized.

Sharon Mulder, Assistant Purchasing Agent, noted this is a non-obligated contract and the County only uses the funds if needed.

MOTION: Hudkins moved and Wiltgen seconded approval of the contract. Wiltgen, Hudkins, Schorr and Amundson voted aye. Avery was absent. Motion carried 4-0.

B. Amendment to County Contract C-14-0394 with Insight Public Sector, Inc. for computers, enterprise hardware, software and services. The amendment extends the agreement for the period October 1, 2015 through June 30, 2016. The County's expenditures during the extension term shall not exceed \$5,000. (C-15-0507)

OLD BUSINESS CONTINUED:

Sharon Mulder, Assistant Purchasing Agent, said this is a cooperative contract as some offices directly use Insight as opposed to going through Information Systems.

MOTION: Schorr moved and Wiltgen seconded approval of the amendment. Wiltgen, Schorr, Hudkins and Amundson voted aye. Avery was absent. Motion carried 4-0.

5) <u>NEW BUSINESS</u>:

A. Adoption of the 2016 Lancaster County Legislative Priorities.

Kerry Eagan, Chief Administrative Officer, said that property tax relief will be a standing priority that will appear on future lists. He added that new unfunded mandates, such as adult justice reform (LB 605) could have a significant impact on the County.

Eagan noted other priorities such as: county obligations under the 300,000 population threshold, eliminating a county's responsibility to pay Health and Human Services (HHS) rent, amending the Nebraska Mental Health Commitment Act for community based sex offender treatment and supporting reform of Medicaid under the Affordable Care Act.

MOTION: Schorr moved and Hudkins seconded to adopt the legislative priorities. Hudkins added that Schorr would be the NACO representative. Schorr, Hudkins, Wiltgen and Amundson voted aye. Avery was absent. Motion carried 4-0.

Hudkins also noted that Commissioner Schorr would be presenting Lancaster County's priorities at the upcoming Nebraska Association of County Officials (NACO) Legislative Conference.

B. Standardized System of Annual Reporting (SSAR) Certification and Addendum for roads, streets and highway programs for fiscal year ending June 30, 2015.

Pam Dingman, County Engineer, informed the Board that all equipment and employee expenses are tracked as a requirement for funding from the Department of Roads. She noted that Angela Zocholl, Administrative Services Officer, was responsible for compiling the report.

Hudkins thanked Dingman and Zocholl for presenting the information to the Board.

MOTION: Hudkins moved and Schorr seconded approval of the certification and addendum. Hudkins, Wiltgen, Schorr and Amundson voted aye. Avery was absent. Motion carried 4-0.

C. Recommendation from the Purchasing Department and the County Engineer to award a purchase order for the supply and hauling of crushed rock surface course material to Lancaster County stockpiles (per Specification 15-201) to Westover Rock and Sand in the total amount of \$364,969. (B-15-0039)

Pam Dingman, County Engineer, said the rock and gravel under this award is placed on the County roads.

NEW BUSINESS CONTINUED:

MOTION: Schorr moved and Wiltgen seconded approval of the purchase order. Wiltgen, Schorr, Hudkins and Amundson voted aye. Avery was absent. Motion carried 4-0.

Sara Hoyle, Human Resources Director, provided an overview of items D – H.

D. Grant contract with the Nebraska Commission on Law Enforcement and Criminal Justice (State Grant #15-EB-0602) for community-based juvenile services. The grant amount is \$172,050 and requires a \$30,000 County match, for a total of \$202,050. Term of the contract is July 1, 2015 to June 30, 2016. (C-15-0515)

MOTION: Wiltgen moved and Hudkins seconded approval of the contract. Wiltgen, Hudkins, Schorr and Amundson voted aye. Avery was absent. Motion carried 4-0.

E. Grant contract with Cedars Youth Services, Inc., in the amount of \$20,000, to provide one-on-one supervision and advocacy for youth, ages 13-18, who are at risk of an out-of-home placement, or are in the process of transitioning back home; and to provide community supervision and outreach for juveniles supervised through the Pre-Adjudicated Program. Term of the contract is July 1, 2015 to June 30, 2016. (C-15-0516)

MOTION: Hudkins moved and Wiltgen seconded approval of the contract. Schorr, Hudkins, Wiltgen and Amundson voted aye. Avery was absent. Motion carried 4-0.

F. Grant contract with Hub-Central Access Point for Young Adults, Inc., in the amount of \$36,200 for HUB's Back on Track Program to increase school engagement for youths ages 16-17 who are habitually truant, credit-deficient and in danger of falling off track to graduate on time. HUB will document \$20,000 of non-federal matching funds used on the program. Term of the contract is July 1, 2015 to June 30, 2016. (C-15-0517)

MOTION: Hudkins moved and Wiltgen seconded approval of the contract. Hudkins, Wiltgen, Schorr and Amundson voted aye. Avery was absent. Motion carried 4-0.

G. Grant contract with the Lincoln/Lancaster County Human Services Federation in the amount of \$5,000 to provide Case Manager training sessions and e-newsletters to nonprofit agencies in the community. Term of the contract is from July 1, 2015 to June 30, 2016. (C-15-0518)

MOTION: Schorr moved and Hudkins seconded approval of the contract. Schorr, Wiltgen, Hudkins and Amundson voted aye. Avery was absent. Motion carried 4-0.

NEW BUSINESS CONTINUED:

H. Grant contract with the City of Lincoln, (Lincoln Police Department) in the amount of \$49,431 to provide funding for the domestic violence specialist as part of the Violence Against Women Act program, "A Coordinated Response to Reducing Domestic Violence." The City will contribute \$16,477 in matching funds. Term of the contract is June 1, 2015 to May 31, 2016. (C-15-0519)

MOTION: Hudkins moved and Schorr seconded approval of the contract. Hudkins, Schorr and Amundson voted aye. Wiltgen abstained. Avery was absent. Motion carried 3-0 with one abstention.

I. Contract with Alcohol Monitoring Systems, Inc., to supply and deliver electronic monitoring services and equipment for Lancaster County Community Corrections. Term of the agreement is from the date of execution through March 31, 2016. The total cost of products or services for Lancaster County shall not exceed \$7,000 during the contract term without approval. (C-15-0520)

MOTION: Hudkins moved and Wiltgen seconded approval of the contract. Hudkins, Schorr, Wiltgen and Amundson voted aye. Avery was absent. Motion carried 4-0.

J. Contract between Recycling Enterprises of NE, Inc., the City of Lincoln, Lancaster County and the Lincoln-Lancaster County Public Building Commission for recycling services. Term of the agreement is from the date of execution through July 31, 2016. (C-15-0521)

MOTION: Wiltgen moved and Hudkins seconded approval of the contract. Schorr, Wiltgen, Hudkins and Amundson voted aye. Avery was absent. Motion carried 4-0.

K. Appointment of Vanessa Humaran to the Keno Human Services Prevention Fund Advisory Board for a three-year term commencing October 1, 2015 and ending December 31, 2018.

Sara Hoyle, Human Services Director, informed the Board that Humaran will be a valuable asset to the advisory board due to her knowledge of State grant administration.

MOTION: Wiltgen moved and Hudkins seconded approval of the appointment. Wiltgen, Hudkins, Schorr and Amundson voted aye. Avery was absent. Motion carried 4-0.

L. Appointment of the following individuals to the Mental Health Crisis Center Advisory Board: Tim Kennett and Phil Tegler for three-year terms (commencing October 1, 2015 and ending September 30, 2018); Terri Burchess and Gail Anderson for two-year terms (commencing October 1, 2015 and ending September 30, 2017); and Arnold Remington and Gary Lorenzen for one-year terms (commencing October 1, 2015 and ending September 30, 2016).

NEW BUSINESS CONTINUED:

Scott Etherton, Crisis Center Director, explained that the previous advisory board was discontinued when the former Community Mental Health Center was dissolved. This group is now being established to serve in an advisory capacity to the Crisis Center. Etherton also provided background information on each applicant. There will be additional applicants forthcoming.

MOTION: Wiltgen moved and Hudkins seconded approval of the appointments. Hudkins, Schorr, Wiltgen and Amundson voted aye. Avery was absent. Motion carried 4-0.

6) <u>CONSENT ITEM</u>: These are routine business items that are expected to be adopted without dissent. Any individual item may be removed for special discussion and consideration by a Commissioner or by any member of the public without prior notice. Unless there is an exception, these items will be approved as one with a single vote of the Board of Commissioners. These items are approval of:

A. Right-of-way contract between the County Engineer and the following:

Donald B. and Lisa L. Rejcha, Southwest 72nd Street and Pella Road, \$379.00. (C-15-0522)

MOTION: Wiltgen moved and Hudkins seconded approval of the consent item. Hudkins, Schorr, Wiltgen and Amundson voted aye. Avery was absent. Motion carried 4-0.

7) <u>PUBLIC COMMENT</u>: Those wishing to speak on items relating to County business not on the agenda may do so at this time.

Gary Aldridge, 7112 S. 45th Street, Lincoln, NE 68516 appeared and commented on the Railroad Transportation Safety District (RTSD) budget hearing on September 8, 2015. He noted meeting policy and procedures and the time allowed for public to comment on agenda items prior to Board voting and roll call.

8) <u>ANNOUNCEMENTS</u>:

- A. The Lancaster County Board of Commissioners will hold a staff meeting on Thursday, October 1, 2015 at 8:30 a.m., in the Bill Luxford Studio (Room 113) of the County-City Building (555 S. 10th Street, Lincoln).
- B. The Lancaster County Board of Commissioners will hold their next regular meeting on Tuesday, October 6, 2015, at 10:30 a.m., in Room 112 of the County-City Building (555 S. 10th Street, Lincoln) with the Board of Equalization immediately following.
- C. The County Commissioners can be reached at 402-441-7447 or commish@lancaster.ne.gov.

ANNOUNCEMENTS CONTINUED:

D. The Lancaster County Board of Commissioners meeting is broadcast live. It is rebroadcast on Tuesday and Saturday on 5 City-TV, Cable Channel 5. In addition, the meeting may be viewed on the internet at lancaster.ne.gov under 5 City-TV, Video on Demand or 5 City-TV on YouTube.

9) ADJOURNMENT

MOTION: Wiltgen moved and Schorr seconded to adjourn the Lancaster County Board of Commissioners meeting at 10:00 a.m. Schorr, Wiltgen, Hudkins and Amundson voted aye. Avery was absent. Motion carried 4-0.

Introduction and Overview

This report summarizes the findings from the 2014 Nebraska Risk and Protective Factor Student Survey (NRPFSS). The 2014 survey represents the sixth implementation of the NRPFSS and the third implementation of the survey under the Nebraska Student Health and Risk Prevention (SHARP) Surveillance System. SHARP consists of the coordinated administration of three school-based student health surveys in Nebraska, including the NRPFSS, the Youth Risk Behavior Survey (YRBS), and the Youth Tobacco Survey (YTS). The Nebraska SHARP Surveillance System is administered by the Nebraska Department of Health and Human Services and the Nebraska Department of Education through a contract with the Bureau of Sociological Research at the University of Nebraska-Lincoln. For more information on the Nebraska SHARP Surveillance System please visit http://bosr.unl.edu/sharp.

As a result of the creation of SHARP and its inclusion of the NRPFSS, the administration schedule shifted from the fall of odd calendar years to the fall of even calendar years. The first three administrations of the NRPFSS occurred during the fall of 2003, 2005, and 2007, while the fourth administration occurred during the fall of 2010, leaving a three-year gap (rather than the usual two-year gap) between the most recent administrations. The 2012 and 2014 administrations also occurred during the fall, as will future administrations, taking place during even calendar years (i.e., every two years).

The NRPFSS targets Nebraska students in grades 8, 10, and 12 with a goal of providing schools and communities with local-level data. As a result, the NRPFSS is implemented as a census survey, meaning that every public and non-public school with an eligible grade can choose to participate. Therefore data presented in this report are not to be considered a representative statewide sample. The survey is designed to assess adolescent substance use, delinquent behavior, and many of the risk and protective factors that predict adolescent problem behaviors. The Nebraska survey is adapted from a national, scientifically-validated survey and contains information on the risk and protective factors that are locally actionable. These risk and protective factors are also highly correlated with substance abuse as well as delinquency, teen pregnancy, school dropout, and violence. Along with other locally attainable sources of information, the information from the NRPFSS can aid schools and community groups in planning and implementing local prevention initiatives to improve the health and academic performance of their youth.

Table 1.1 provides information on the student participation rate for Lancaster County and the state as a whole. The participation rate represents the percentage of all eligible students who took the survey. If 60 percent or more of the students participated, the report is generally a good indicator of the levels of substance use, risk, protection, and delinquent behavior in Lancaster County. If fewer than 60.0 percent participated, a review of who participated should be completed prior to generalizing the results to your entire student population.

2014 NRPFSS Sponsored by:

The 2014 NRPFSS is sponsored by Grant #1U79SP020162-01 under the Strategic Prevention Framework Partnerships for Success Grant for the Substance Abuse and Mental Health Services Administration Center for Substance Abuse Prevention through the Nebraska Department of Health and Human Services Division of Behavioral Health.

The Bureau of Sociological Research (BOSR) at the University of Nebraska – Lincoln (UNL) collected the NRPFSS data for this administration as well as the 2010 and 2012 administrations. As part of BOSR's commitment to high quality data, BOSR is a member of the American Association of Public Opinion Researchers (AAPOR) Transparency Initiative. As part of this initiative, BOSR pledges to provide certain methodological information whenever data are collected. This information as it relates to the NRPFSS is available on BOSR's website (www.bosr.unl.edu/sharp).

	Lar	ncaster Cour 2014	ity	es estimatella	State 2014	
	Number Participated	Number Enrolled	Percent Participated	Number Participated	Number Enrolled	Percent Participated
Grade						
8th	1741	3676	47.4%	10985	24992	44.0%
10th	943	3187	29.6%	8080	23796	34.0%
12th	544	3198	17.0%	6773	24194	28.0%
Total	3228	10061	32.1%	25838	72982	35.4%

Table 1.1.	Survey	Participation	Rates, 2014
------------	--------	---------------	-------------

Note. The grade-specific participation rates presented within this table consist of the number of students who completed the NRPFSS divided by the total number of students enrolled within the participating schools. For schools that were also selected to participate in the YRBS or YTS, the participation rate may be adjusted if students were only allowed to participate in one survey. In these cases, the number of students who completed the NRPFSS is divided by the total number of students enrolled that were not eligible to participate in the YRBS or YTS.

Again, the goal of the NRPFSS is to collect community-level data and not to collect representative state data; however, state data provides insight into the levels of substance use, risk, protection, and delinquent behavior among all students in Nebraska. In 2014, 35.4 percent of the eligible Nebraska students in grades 8, 10, and 12 participated in the NRPFSS.

The 2014 participation rate for the state as a whole remains lower than the 60.0 percent level recommended for representing students statewide; therefore, the state-level results should be interpreted with some caution. Failure to obtain a high participation rate statewide is, in part, due to low levels of participation within Douglas and Sarpy Counties, which combined had a 10.8 percent participation rate in 2014 compared to 52.3 percent for the remainder of the state.

Table 1.2 provides an overview of the characteristics of the students who completed the 2014 survey within Lancaster County and the state overall.

	Lanca	aster County 2014	a shall be a shall be	tate 014

Overview of Report Contents

The report is divided into the following four sections: (1) substance use; (2) delinquent behavior and bullying; (3) gambling; and (4) risk and protective factors. Within each section, highlights of the 2014 survey data for Lancaster County are presented along with state and national estimates, when available.

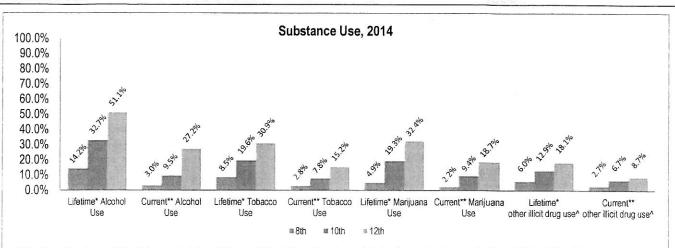

When there are *less than 10* survey respondents for a particular grade, their responses are not presented in order to protect the confidentiality of individual student participants. However, those respondents are included in regional- and state-level results. Furthermore, if a grade level has *10* or more respondents but an individual question or sub-group presented in this report has *less than 10* respondents then results for the individual item or sub-group are not reported.

A number of honesty measures were also created to remove students who may not have given the most honest answers. These measures included reporting use of a fictitious drug, using a drug during the past 30 days but not in one's lifetime, answering that the student was not at all honest when filling out the survey, and providing an age and grade combination that are highly unlikely. Students whose answers were in question for any one of these reasons were excluded from reporting. For Lancaster County, 100 students met these criteria.

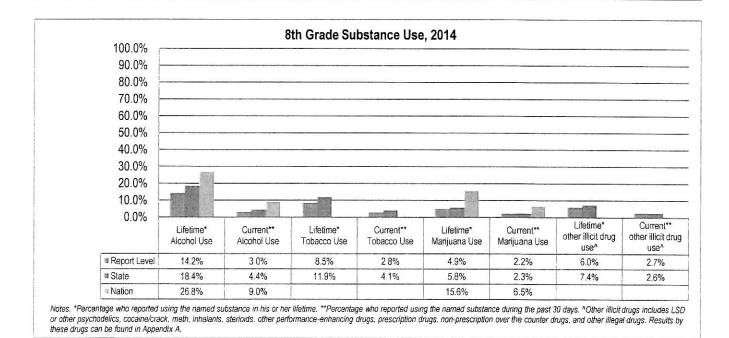

Substance Use

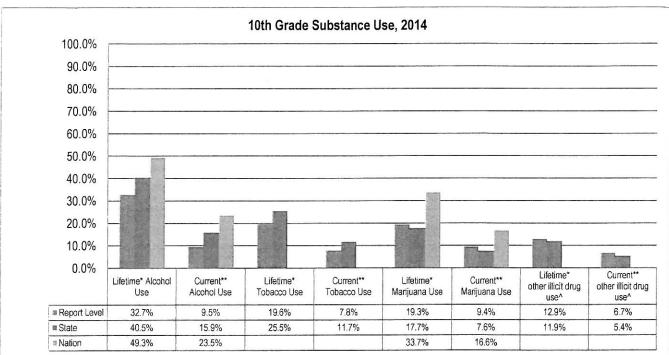

This section contains information on the use of alcohol, tobacco, and other drugs among 8th, 10th, and 12th grade students in Nebraska. In addition to substance use, this section contains information on the source and place of alcohol and tobacco use as well as attitudes and perceptions related to substance abuse. To provide greater context for the results from Lancaster County, overall state and national results are presented when available. As discussed earlier, the state results <u>are not to be considered a</u> representative statewide sample. The national data source is the Monitoring the Future survey, administered by the Institute for Social Research at the University of Michigan and sponsored by the National Institute on Drug Abuse and National Institutes of Health.

Substance Use

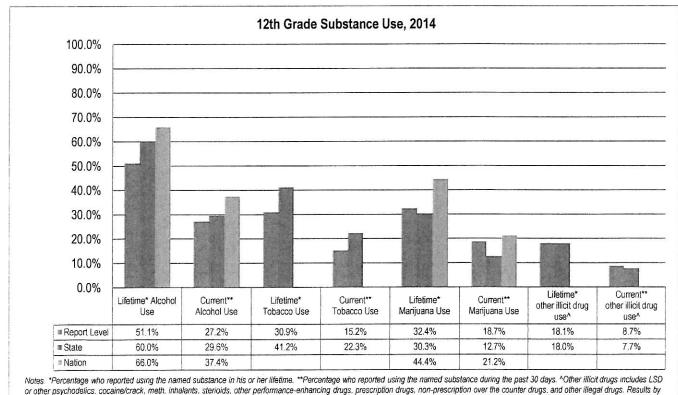

Notes. *Percentage who reported using the named substance in his or her lifetime. **Percentage who reported using the named substance during the past 30 days. *Other illicit drugs includes LSD or other psychodelics. cocaine/crack. meth. inhalants, sterioids, other performance-enhancing drugs, prescription drugs, non-prescription over the counter drugs, and other illegal drugs. Results by these drugs can be found in Appendix A.

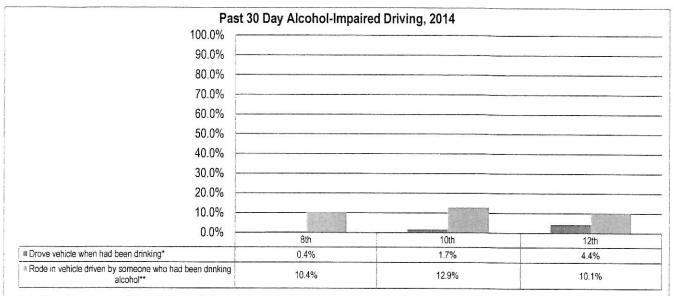

Notes. *Percentage who reported using the named substance in his or her lifetime. **Percentage who reported using the named substance during the past 30 days. *Other illicit drugs includes LSD or other psychodelics. cocaine/crack. meth. inhalants, sterioids, other performance-enhancing drugs, prescription drugs, non-prescription over the counter drugs, and other illegal drugs. Results by these drugs can be found in Appendix A.

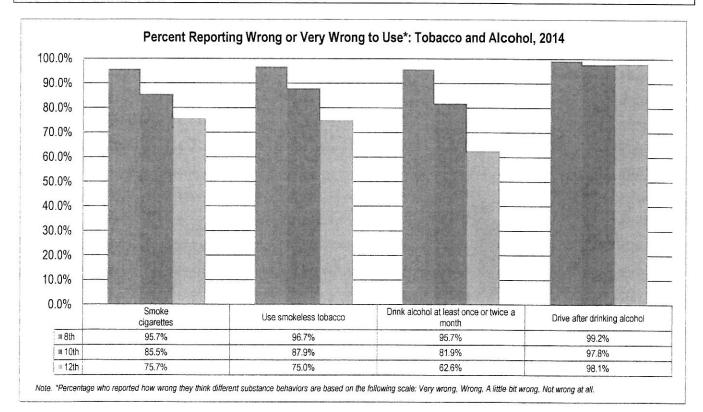

or other psychodelics, cocaine/crack, meth, inhalants, these drugs can be found in Appendix A.

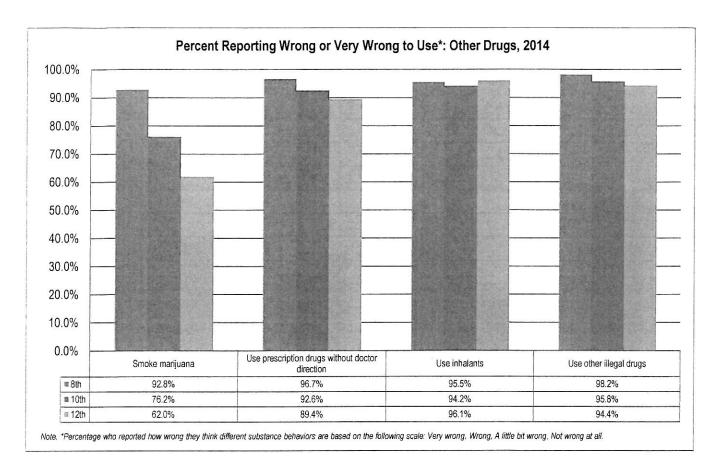

Past 30 Day Alcohol-Impaired Driving

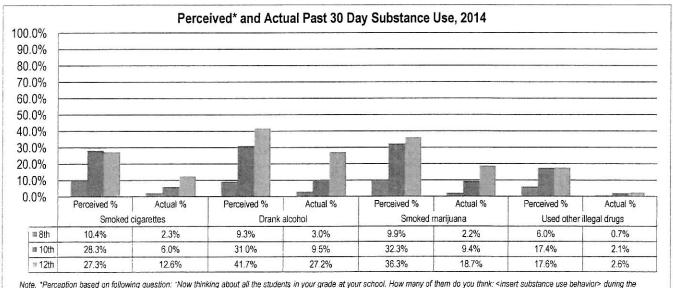

Notes. "Percentage who reported "Yes" to the question "During the the last 30 days did you drive a car or other vehicle when you had been drinking alcohol?" **Percentage who reported "Yes" to the question "During the the last 30 days did you ride in a car or other vehicle driven by someone who had been drinking alcohol?"

Attitudes toward Substance Use

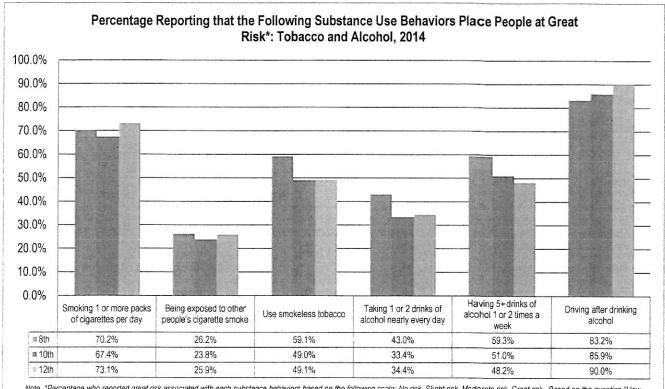

Perceived and Actual Substance Use during the Past 30 Days

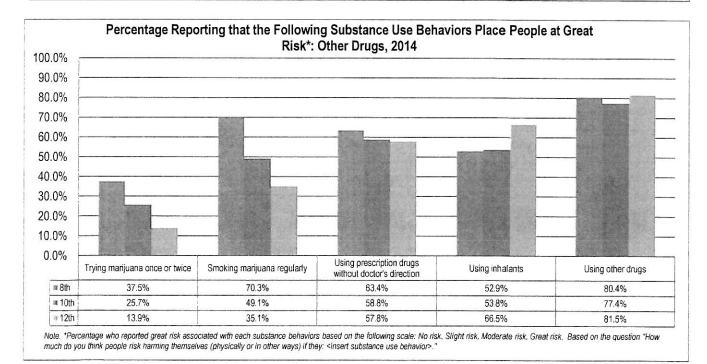

Note. *Perception based on following question: "Now thinking about all the students in your grade at your school. How many of them do you think: <insert substance use behavior> during the past 30 days?"

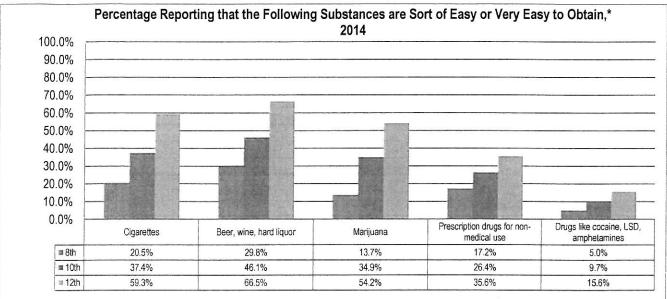

Perceived Risk from Substance Use

Note. "Percentage who reported great risk assocrated with each substance behaviors based on the following scale: No risk, Slight risk, Moderate risk, Great risk. Based on the question "How much do you think people risk harming themselves (physically or in other ways) if they: <insert substance use behavior>."

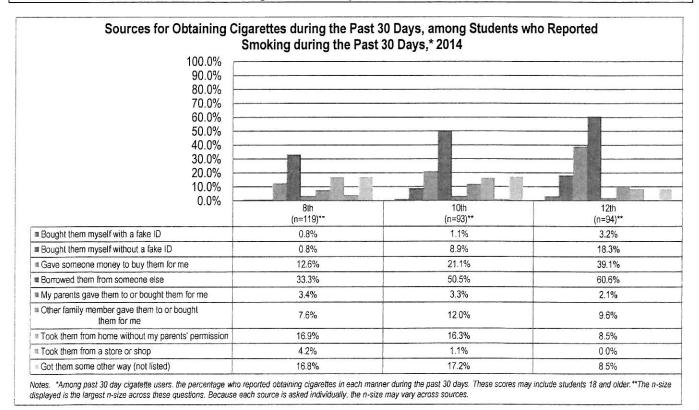

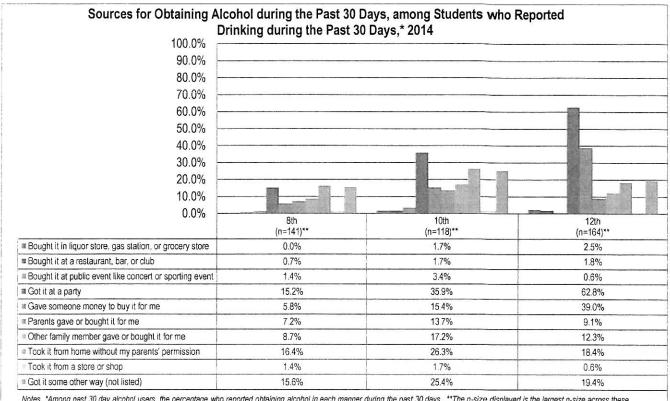

Perceived Availability of Substances

Note. *Percentage who reported it is sort of or very easy to obtain each substances based on the following scale: Very hard, Sort of hard, Sort of easy. Very easy. Based on the quesiton "If you wanted to, how easy would it be for you to get: <insert substance use behavior"."

Sources and Places of Substance Use during the Past 30 Days

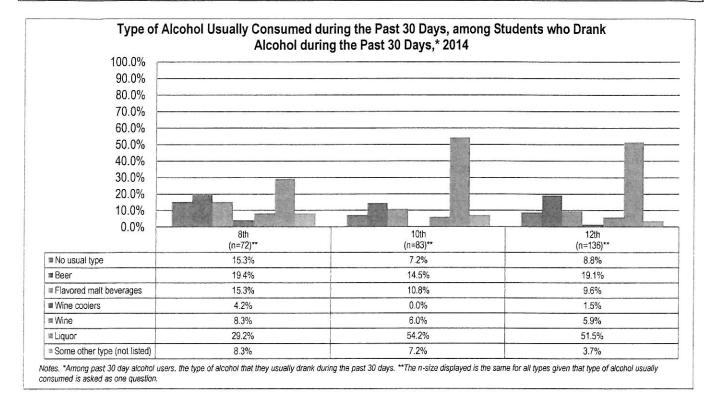

Notes. *Among past 30 day alcohol users, the percentage who reported obtaining alcohol in each manner during the past 30 days. **The n-size displayed is the largest n-size across these questions. Because each source is asked individually, the n-size may vary across sources.

Places of Alcohol Use during the Past 30 Days, among Students who Reported Drinking during the Past 30 Days,* 2014 100.0% 90.0% 80.0% 70.0% 60.0% 50.0% 40.0% 30.0% 20.0% 10.0% 0.0% 8th 10th 12th (n=140)** (n=117)** (n=163)** My home without my parents' permission 19.0% 29.9% 26.5% 13.7% Someone else's home without their parents' permission 39.3% 46.0% . My home with my parents' permission 9.4% 19.8% 19.6% Someone else's home with their parents' permission 5.7% 17.2% 23.3% 6.7% Restaurant, bar, or club 3.6% 4.3% # Public event like concert or sporting event 3.6% 9.6% 12.9% Open area like a park, lake, field, or street corner 10.0% 14.7% 17.2% ■ Car 6.5% 24.8% 21.5% 2.9% 8.5% Hotel or motel 8.6% School property 2.2% 5.1% 3.1% Some other place (not listed) 15.2% 26.5% 26.4%

Notes. *Among past 30 day alcohol users. the percentage who reported using alcohol in each manner during the past 30 days. **The n-size displayed is the largest n-size across these questions. Because each place is asked individually, the n-size may vary across places.

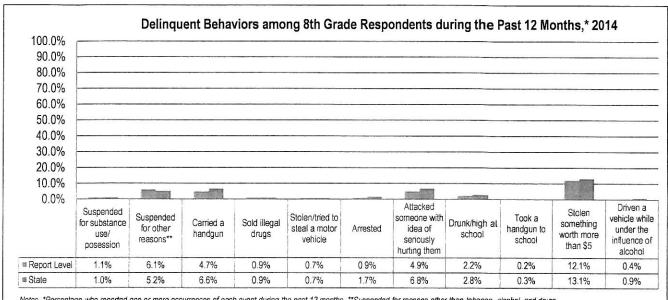

Types of Alcohol Used Among Those Who Used Alcohol during the Past 30 Days

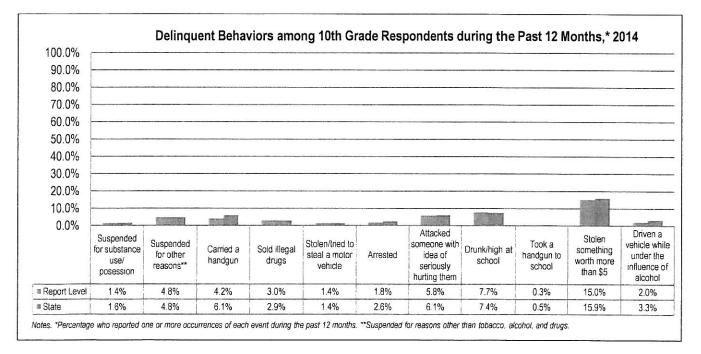

Delinquent Behaviors and Bullying

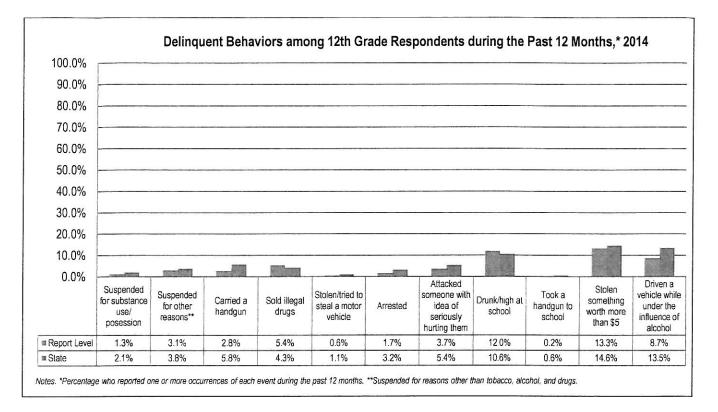

This section contains information on delinquent behaviors (i.e., behaviors that are illegal, violent, and/or highly unacceptable in society) as well as recent bullying behavior among 8th, 10th, and 12th grade students in Nebraska. There are 11 delinquent behaviors presented in this section, including behaviors that occur both on and off school property. Bullying questions were added to the 2010 surveys in response to interest from school and community leaders.

Delinquent Behavior during the Past 12 Months

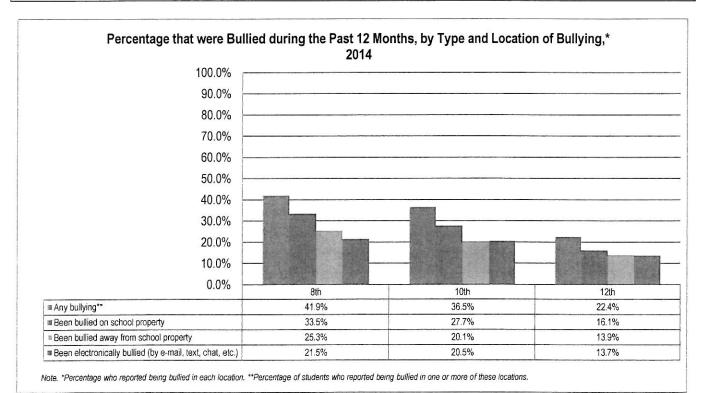

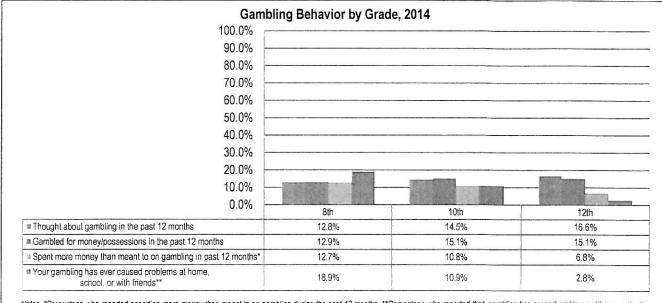

Location of Bullying during the Past 12 Months

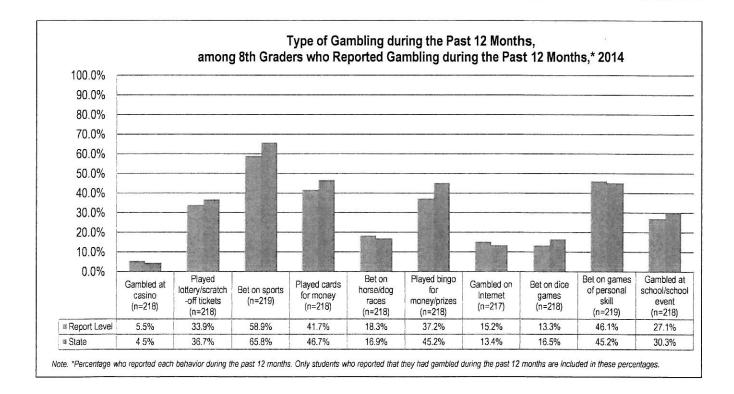

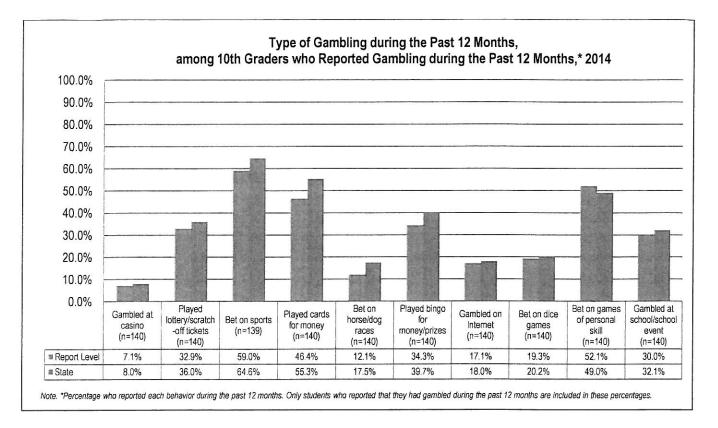

Gambling

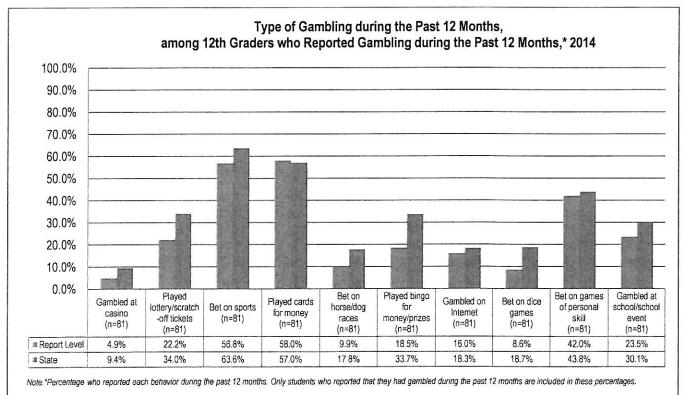

This section contains information on gambling behaviors among 8th, 10th, and 12th grade students in Nebraska.

Notes. *Percentage who reported spending more money than meant to on gambling during the past 12 months. **Percentage who reported that gambling has caused problems at home, school, or with friends during his or her lifetime.

Risk and Protective Factors

Many states, school districts and local agencies have adopted the **Risk and Protective Factor Model** to guide their prevention efforts. This model is based on the simple premise that, in order to prevent a problem from happening, we need to first identify factors that increase the risk of that problem developing and then find ways to reduce the risk. Just as medical researchers have found risk factors for heart disease (e.g., diets high in fat, lack of exercise, smoking), researchers at the University of Washington have identified a set of risk factors for youth problem behaviors.

To capture information on risk and protective factors among youth, researchers at the University of Washington developed a school-based survey called the Communities that Care (CTC) Survey. The CTC Survey, which was first administered in 1995, measures risk and protective factors demonstrated in prior studies to predict adolescent problem behaviors such as drug use, delinquency, and violence. The CTC Survey serves as the foundation for collecting reliable and valid information on risk and protective factors, and continues to be used by many states collecting these data. The most recent CTC Survey captures 24 risk factors and 13 protective factors.

Because risk and protective factors have multiple dimensions, a single factor's score is composed of the responses to several survey questions. Each factor's score is then referenced against data cut points that have been established by the researchers at the University of Washington using the results from a national administration of the CTC Survey. These cut points distinguish youth at higher risk for involvement in problem behaviors from those at lower risk. Bach Harrison, L.L.C., a survey research and evaluation company based in Utah, has made slight modifications to the risk and protective factor cut points originally developed by the University of Washington. For more information on the methodology used to calculate the risk and protective factor cut points, please refer to the following article:

Arthur, M., Briney, J., Hawkins, J., Abbott, R., Brooke-Weiss, B., & Catalano, R. (2007). "Measuring risk and protection in communities using the Communities That Care Youth Survey." *Evaluation and Program Planning* 30(2), 197-211.

The Nebraska Risk and Protective Factor Student Survey (NRPFSS) captures information on 14 risk factors and 7 protective factors from the CTC survey. The risk and protective factors included on the NRPFSS were chosen because they are locally actionable and highly correlated with substance abuse as well as delinquency, teen pregnancy, school dropout, and violence. The risk and protective factors on the Nebraska survey, including the specific survey questions that make up the factors, are presented in Appendix B.

Risk factors include characteristics of school, community, and family environments, as well as characteristics of students and their peer groups that are known to predict the increased likelihood of drug use, delinquency, school dropout, teen pregnancy, and violent behavior among youth. Dr. J. David Hawkins, Dr. Richard F. Catalano, and their colleagues at the University of Washington Social Development Research Group have investigated the relationship between risk and protective factors and youth problem behavior. For example, they have found that children who live in families with high levels of conflict are more likely to become involved in problem behaviors such as delinquency and drug use than children who live in families with low levels of family conflict. *Protective factors* exert a positive influence, or buffer, against the negative influence of risk, thus reducing the likelihood that adolescents will engage in problem behaviors. Protective factors identified through research include social bonding to family, school, community, and peers; healthy beliefs and clear standards for behavior; and individual characteristics. For bonding to

serve as a protective influence, it must occur through involvement with peers and adults who communicate healthy values and set clear standards for behavior.

By measuring risk and protective factors in a population, prevention programs can be implemented to reduce elevated risk factors and to increase protective factors. For example, if academic failure is identified as an elevated risk factor in a community, then mentoring, tutoring, and increased opportunities and rewards for classroom participation can be provided to improve academic performance. Table 5.1 illustrates associations found between 19 selected risk factors and 5 problem behaviors. Check marks indicate where at least two well-designed, published research studies have shown a link between the risk factor and the problem behavior.

The 2014 risk and protective scores for Lancaster County are displayed below by grade with the overall state scores to serve as comparisons. The scores for the risk factors indicate the proportion of students that are at risk in this area. Conversely, the protective factor scores represent the proportion of students that have this protective buffer in their lives.

Table 5.2. Risk and Protective Factor Scores

Community	8th (Grade	10th	Grade	12th	Grade

Using the NRPFSS Results for School and Community Improvement

Why conduct the risk and protective factor survey?

At the present time, the Student Health and Risk Prevention (SHARP) Surveillance System contains the only school-based student health surveys in Nebraska endorsed by both the Nebraska Department of Education and the Nebraska Department of Health and Human Services. Of the three surveys administered under SHARP, the Nebraska Risk and Protective Factor Student Survey (NRPFSS) is the only survey that generates school- and community-level results. Data from the NRPFSS can be used to help schools and communities assess current conditions and identify and prioritize local prevention issues. The risk and protective factor profiles provided by this survey reflect underlying conditions that can be addressed through specific types of interventions proven to be effective in either reducing risk or enhancing protection.

How are the data being used in Nebraska?

At the present time, data from the NRPFSS are being used for:

- Substance abuse and/or risk prevention planning at the school, school district, county, region, and state levels;
- Applying for grants and other funding;
- Fulfilling state and federal grant requirements by community coalitions across Nebraska; and
- Fulfilling federal reporting requirements by the Nebraska Department of Education and Nebraska Department of Health and Human Services.

For additional information about the uses of the NRPFSS, please visit the SHARP website at http://bosr.unl.edu/sharp.

Tips for Using this Report for School and Community Improvement

What are the numbers telling you?

Review the data presented in this report, including the appendix tables, and note your findings to the following questions:

- Which risk factors are of the greatest concern to your school/community/region?
 - Which risk factors from the NRPFSS are most prevalent among your students?
 - How do these factors compare to all students that participated in the NRPFSS?
- Which protective factors are most important to your school/community/region?
 - Which protective factors from the NRPFSS are least prevalent among your students?
 - o How do these factors compare to all students that participated in the NRPFSS?
- Which substances are your students using the most?
 - o In which grades do you see unacceptable usage levels?
 - o How does use among your students compare to all students that participated in the NRPFSS and to students nationally?
- Which delinquent behaviors are of greatest concern to your school/community/region?
 - o Which delinquent behaviors are your students exhibiting the most?
 - How do these behaviors compare to all students that participated in the NRPFSS?

How do you decide if a rate is "unacceptable"?

- Look across the appendix tables in this report—which items stand out as either much higher or much lower than the others?
- Compare your data with statewide and national data—determine a level of difference between your data and the state/national data that is unacceptable.

• Determine the standards and values held within your school and community—for example, is it acceptable in your community for a percentage of high school students to drink alcohol regularly as long as that percentage is lower than the overall state percentage?

How do you use these data for planning?

- Substance use and delinquent behavior data—identify the issues and then begin a dialogue with community stakeholders to raise awareness about the problems.
- Risk and protective factor data—establish realistic and measurable objectives within your school/community/region that will help you measure progress toward achieving your prevention goals.
- Engage in the Strategic Prevention Framework (SPF) model to ensure your planning process for prevention is data driven.

Additional Resources

Use the resources listed on the last page of this report (Appendix C: Contacts for Prevention) for ideas about prevention programs proven to be effective in addressing substance use, delinquent behavior, and elevated risk factors while improving the protective factors in your school, community, or region.

Example

The table below provides a quick illustration of how you could organize a comparison of your data with state and/or national data on various measures (i.e., indicators; risk or protective factors). An Excel version of this tool is available for download on the SHARP website at http://bosr.unl.edu/sharp.

			Prevalence common is			
Data Measure	Grade	Your data	State*	Nation (if avail.)	Comparison	Trends (if avail.)
Past 30 Day Alcohol Use	10	35.2%	25.4%	19.0%	More prevalent than both state and nation	Stable across the six survey administrations

Note. Data are for illustration purposes only and do not reflect actual results.

*Represents all students who completed the Nebraska Risk and Protective Factor Student Survey (NRPFSS) and is not intended to represent all students statewide.

*This indicates that there were less than 10 cases.

**This indicates that the criteria for a report were not met.

¹Prior to 2010, the question asked students if they had "used marijuana (grass, pot) or hashish (hash, hash oil)." In 2010, the wording was changed to "used marijuana."

²Prior to 2010, the question asked students if they had "taken 'meth' (also known as 'crank', 'crystal', or 'ice'." In 2010, the wording was changed to "used methamphetamines (meth, speed, crank, crystal meth, or ice)." ³Prior to 2010, the question asked students if they had "used prescription drugs (such as Valium, Xanax, Ritalin, Adderall, Oxycotin, or sleeping pills without a doctor telling you to take them." In 2010, the wording was changed to "used prescription drugs (such as Valium, Xanax, Ritalin, Adderall, Oxycotin, or sleeping pills without a doctor telling you to take them." In 2010, the wording was changed to "used prescription drugs (such as Valium, Xanax, Ritalin, Adderall, Oxycotin, or sleeping pills without a doctor telling you to take them."

⁴Prior to 2010, the question asked students if they had "used a non-prescription cough or cold medicine (robos, DMX, etc.) to get high and not for medical reasons." In 2010, the wording was changed to "used a non-prescription cough or cold medicine (robos, DMX, etc.) to get high and not for medical reasons." In 2010, the wording was changed to "used a non-prescription cough or cold medicine (robos, DMX, etc.) to get high and not for medical reasons."

⁵In 2010, several questions that were included in these risk and protective factors were unintentionally removed from the questionnaire. As a result, these factors were not calculated in 2010 causing their exclusion from the trend data.

⁶Prior to 2010, the questions included in this factor asked students about "one or more of your parents." In 2010, these questions were split into questions referencing each parent individually to return to their original, intended format. Because of these differences, trend data are not available prior to 2010.

⁷In 2010, several factors were added. As a result, factors not measured prior to 2010 are not included in the trend data for years other than 2010, 2012, and 2014

Note. The number of students and/or school districts included from year to year could vary due to schools participating in some administrations and not others. As a result, these trend findings should be approach with some caution.

Table B1. Risk and Protective Factor Indicators by Sur	vey Question
COMMUNITY	
Risk Factors	
Community Disorganization	89, 93a - 93d
Laws and Norms Favorable to Drug Use	88a, 88b, 88d, 88e, 92a - 92c
Perceived Availability of Drugs	86a - 86c, 86e
Perceived Availability of Handguns	86f
Protective Factors	
Opportunities for Prosocial Involvement	90, 91a - 91e
FAMILY	
Risk Factors	
Poor Family Management	69 - 71, 75, 77 - 80
Parental Attitudes Favorable Toward Drug Use	68a, 68c, 68e
Protective Factors	
Attachment	81 - 84
Opportunities for Prosocial Involvement	72 - 74
SCHOOL	
Risk Factors Academic Failure	0.40
Low Commitment to School	6, 19 7 - 9, 20, 21a - 21c
Protective Factors	7 - 9, 20, 218 - 210
Opportunities for Prosocial Involvement	10, 11, 13, 14, 18
Rewards for Prosocial Involvement	12, 15 - 17
PEER-INDIVIDUAL	12, 10 - 11
Risk Factors	The second s
Early Initiation of Drug Use	22a - 22d
Early Initiation of Antisocial Behavior	22e – 22h
Favorable Attitudes Toward Antisocial Behavior	23a - 23e
Favorable Attitudes Toward Drug Use	23f, 23h, 23j, 23m
Perceived Risks of Drug Use	30a , 30d, 30g, 30h
Gang Involvement	24
Protective Factors	
Belief in the Moral Order	27 - 29, 76
Prosocial Involvement	26f, 26h, 26k
