Close the can tightly to prevent evaporation loss. Store this can in an oven at a temperature of 52°C for two weeks. After two weeks, remove the can from the oven and allow it to cool to room temperature. Examine the paint for livering and hard settling. Hand stir the sample for 5 minutes to ensure uniform distribution. The paint shall show no caking, skinning, livering or hard settling. It shall be dispersible by hand stirring for 5 minutes to a smooth, homogeneous state. When compared to the initial consistency, the sample shall show no change greater than 5 Krebs Units after this heated storage period.

Type I Coarse Dual Coated Glass Beads shall meet the following requirements:

Imperfections. The glass beads shall have not more than 30 percent imperfect beads retained on any sieve. The total imperfect beads on all sieves shall not exceed 20 percent. Imperfect beads are defined as ovate or otherwise nonspherical in shape; two or more beads fused together; and beads which show turbidity, pitting, scratching, surface wrinkling, internal air bubbles, or other inclusions. The percentage of perfect beads and non-glass material shall be determined by microscopic inspection of a representative sample of not less than 500 beads. All particles in the sample shall be counted regardless of shape or material.

Index of Refraction. The glass beads shall have an index of refraction of not less than 1.50 when tested by the liquid immersion method at 25°C .

SPECIAL PROVISIONS FOR PROJECT NO. 17-05; PAVEMENT STRIPING

Embedment Coating Test: The glass beads shall be tested for verification of silane presence/adhesion promoter, by performing the "Dansyl Chloride Test."

Bead Embedment: Apply traffic paint to a glass panel at a wet film thickness of 0.012 inch followed immediately by an application of glass beads dropped onto the surface of the paint. After drying for at least 24 hours, observe the amount of bead embedment with a 30-power microscope. At least 90% of the beads shall be embedded between 40% and 60%.

The Contractor shall submit certified test results indicating that the beads being submitted have passed all of the above noted tests. To permit easy reference and identification the project number, type of bead, manufacturer code number, batch number and date of manufacture shall be included.

Handling and Storage

The Contractor shall provide the equipment required to load and unload the required materials. No County equipment or staff will be available for use by the Contractor. The Contractor will be allowed to use County maintenance yards for storage sites for material and equipment. A map of County maintenance yards follows these Special Provisions.

Equipment

The equipment used for applying traffic marking paint and beads shall be a self-propelled applicator. The striper used for pavement marking shall:

1. Be capable of applying three lines simultaneously on the left side for centerline markings and/or one line on the right side of the unit for edgeline markings.
2. Be capable of applying the traffic marking paint 5" wide to a dry thickness of 12±1 mils that is uniform across the width and length of the stripe.
3. The reservoirs shall be equipped with agitators that keep the paint in a smooth and even mixture.
4. Be equipped with an automatic skip device that applies a stripe and gap of a specified length with a tolerance of three inches per cycle of skip. This tolerance shall not be accumulated in subsequent cycles. The striper shall be able to adjust the cycle while striping to allow matching the existing stripe.
5. Be capable of applying the traffic marking beads to the wet paint immediately after the application of the paint at a rate required in the plans and these Special Provisions. The bead applicator shall be equipped with an automatic shut off synchronized with the paint flow.

CONSTRUCTION METHODS

Pavement Surface Preparation

The roadway to be striped shall be cleaned of foreign matter that would prevent the paint from adhering to the roadway by County forces. The paint shall be applied to a dry pavement surface.

Traffic Control

The County will provide a vehicle to follow the striper alerting traffic to the striping work. Traffic cones may be necessary in some cases to prevent tracking of the paint and will be provided by the County.

Traffic will be maintained through the work area at all times.

Traffic shall be controlled through the work area until the pavement markings have dried sufficiently to prevent tracking.

Equipment not actively involved in applying pavement markings shall not be parked or stand within 20 feet of the edge of the roadway during day and 30 feet at night. This includes any preparation of equipment, filling reservoirs, mixing paint or cleaning of equipment.

Application of Marking Materials

Pavement marking materials as specified shall be applied with equipment meeting the specifications above. In those areas where there are curbed medians, the curbs shall be painted yellow. Where the area to be painted is an odd area hand sprayers and manual bead application is acceptable.

The paint shall be applied within the manufacturer's recommended temperature range. The paint shall not be applied when the wind prevents the Contractor from placing markings acceptable to the engineer. Striping shall be performed only during daylight hours.

The beads shall be applied at the rate of 6 pounds per gallon of paint applied. If application rates are not within the requirements, the marking application shall be stopped until corrections are made. The beads shall be applied evenly over the entire surface of the freshly applied paint. The paint shall be applied in such a manner as to follow the existing lines on the roadway. Typical striping details follow these Special Provisions. The paint shall be applied to a uniform dry thickness of 12 ± 1 mils and shall be $5 \pm 1/2$ " wide. The Engineer will take periodic samples to ensure the thickness and width of the stripe. Finished lines shall have well defined edges and lateral deviations shall not exceed two inches in 200 feet. Excessive overspray, as determined by the Engineer, will not be permitted. The dashed lines shall be within three inches of their intended length and intended placement. When placing new stripes the cycle of dashed line and gap shall not vary more than 3". This tolerance shall not be accumulated in subsequent cycles. Lines not meeting these requirements may, at the discretion of the Engineer, be ordered removed and replaced at no cost to the State. Removal, if required, shall be accomplished by sandblasting, shotblasting, hydro blasting or other methods approved by the Engineer.

METHOD OF MEASUREMENT AND BASIS OF PAYMENT

Permanent Pavement Marking Paint and Beads will be measured by the mile, excluding gaps, of line applied and accepted by the Engineer. The beads shall be subsidiary to items for which direct payment is made. Any striping ordered removed and replaced shall be done at no expense to the County. INSTRUCTIONS

WHO MUST FILE. Any governmental unit or organization that is **exempt** from sales and use tax may appoint as its agent a prime contractor to purchase building materials and/or fixtures that will be annexed to property that belongs to or will belong to the governmental unit or exempt organization pursuant to a construction contract with the governmental unit or exempt organization. The appointment of the prime contractor as its agent is completed by issuing a Purchasing Agent Appointment and Delegation of Authority for Sales and Use Tax, Form 17, to the prime contractor. The Form 17 is required to be given to the contractor **BEFORE** he or she annexes building materials. The governmental unit or exempt organization must identify the project (e.g., east wing, chapel construction, or new school auditorium). Most

nonprofit organizations are **NOT** exempt from sales tax in Nebraska. In addition, not all governmental units are exempt from Nebraska sales tax. Refer to Contractor Information on our Web site for additional information on exempt entities. A contractor can confirm the exempt status of a governmental unit or exempt organization by contacting the Nebraska Department of Revenue.

The exemption from the payment of the Nebraska and local option sales and use taxes only applies if the governmental unit or exempt organization directly, or through its contractor, pays for the building materials. **IMPORTANT NOTE:** When an organization that requires licensure in order to be exempt (i.e., nonprofit hospitals), but is not licensed at the time of the construction project, the exempt organization **CANNOT**

issue either a purchasing agent appointment or an exemption certificate. If the exempt organization becomes licensed upon completion of the project, it may apply for a refund of the tax paid or collected by the contractors.

WHEN TO FILE. A prime contractor engaging in a construction project with a governmental unit or exempt organization must receive a properly completed and signed Form 17 **BEFORE** any building materials are annexed. If Form 17 is not issued, the contractor must pay the sales and use taxes and the governmental unit or exempt organization may obtain a refund of the taxes paid by the contractor.

WHERE TO FILE. A copy of the completed form should be retained by the governmental unit or exempt organization issuing the Form 17. The original is to be retained by the prime contractor. Copies of this form must be made by the prime contractor for delegation purposes to any subcontractors working on the project identified on this form.

APPOINTMENT INFORMATION. Enter the dates the purchasing agent appointment will become effective and when it will expire. This appointment will not allow any purchases without payment of the tax by the prime contractor or subcontractor before the effective date or after the expiration date. The dates the delegation becomes effective and the expiration dates must be completed. The phrase "upon completion" or similar phrase is not acceptable as an expiration date. The governmental unit or exempt organization may need to issue another Form 17 if the project is not completed within the prior "effective" and "expiration" dates. Exempt organizations must enter their Nebraska Sales and Use Tax Exemption number.

DELEGATION OF PRIME CONTRACTOR'S AUTHORITY. The prime contractor may delegate his or her authority to act as the purchasing agent of the governmental unit or exempt organization to a subcontractor. The prime contractor must complete his or her copy of Form 17 for each subcontractor who is delegated authority to act as a purchasing agent. Reproductions of this delegation must be provided to the subcontractor, who must retain a copy for his or her records, and to the governmental unit or exempt organization.

Enter the dates the delegation of the subcontractor will become effective, when it will expire, and the portion of the project delegated. This delegation will not allow any purchases without payment of the tax by the subcontractor before the delegation date or after the expiration date. Any further delegation from a subcontractor to additional subcontractors must be delegated by providing a copy of the Form 17 that they received from the prime contractor and attaching it to a separate Form 17 with any further delegation to other subcontractors. The purchasing agent appointment is limited to the contractor's purchase of building materials and/or fixtures for the specific project and is only valid during the appointment dates shown on the Form 17.

EXEMPT SALE CERTIFICATE. A prime contractor who has been appointed to act as a purchasing agent by a governmental unit or exempt organization, and who hires a subcontractor operating as an Option 1 contractor, must provide to that subcontractor a completed copy of Form 17 and a Nebraska Resale or Exempt Sale Certificate, Form 13, with Section C,

Part 2, completed. The subcontractor will retain these forms in his or her records, and will not charge the contractor sales tax on any portion of the invoice involving the annexation of materials to the specific project identified on the Form 17. If these forms are not provided to the subcontractor operating under Option 1, the subcontractor must collect and remit sales tax on the charge for the separately stated building materials portion of the invoice. If the Option 1 subcontractor does not separately state the charge for the building materials from contractor labor, then the entire charge is taxable to the prime contractor.

Contractors operating under Option 2 (maintaining a tax-paid inventory) who have been issued a Form 17 from a governmental unit or an exempt organization, must furnish each vendor a copy of the Form 17 and a Form 13, completing Section C, Part 2, when purchasing building materials that will be annexed to real estate. Forms 13 and 17 must be retained with the vendor's and contractor's records for audit purposes. A contractor or subcontractor may reproduce copies of these documents which will be furnished to the vendors for each invoice or order made by them.

Invoices from vendors for the purchase of building materials by the contractor as purchasing agent, or the authorized subcontractor, must clearly identify that such purchase is for the specific Form 17 project.

CREDIT/REFUND OF SALES AND USE TAX. A contractor or subcontractor who has been appointed as a purchasing agent before any materials are annexed, may withdraw sales or use tax-paid materials from inventory that will be annexed to real estate or used to repair property annexed to real estate and receive a credit for the sales or use tax amount previously paid on those materials.

The contractor or subcontractor may take a credit either against his or her current tax liability, or file a Claim for Overpayment of Sales and Use Tax, Form 7, and receive a refund of the sales or use tax paid on those materials.

TOOLS, EQUIPMENT, AND SUPPLIES. The purchase, rental, or lease of tools, supplies, or equipment (i.e., scaffolding, barricades, machinery, etc.) by a contractor for use in the completion of an exempt project CANNOT be purchased tax free, even if the contractor has been issued a Form 17. These items do not become annexed to the real estate.

OPTION 1 CONTRACTOR ONLY. If an Option 1 contractor is the **only** contractor involved in performing work for a governmental unit or exempt organization, a Form 17 is NOT required. The Option 1 contractor must only obtain a Form 13, Section B, from the exempt project owner.

PENALTY. Any person who signs this document with the intent to evade payment of tax is liable for the sales and use tax, interest, and penalty, and may be found guilty of a misdemeanor.

AUTHORIZED SIGNATURE. The purchasing agent appointment must be signed by an officer of the exempt organization or proper government official. The delegation of prime contractor's authority must be signed by the owner, partner, corporate officer, or other individual authorized to sign by a power of attorney on file with the Nebraska Department of Revenue.

LANCASTER COUNTY
EMPLOYER CLASSIFICATION ACT INSTRUCTIONS

WHEREAS, there is concern over the inappropriate competitive advantages in the public bidding process for local publicly funded construction and delivery service contracts resulting from the misclassification of individuals performing construction labor services as "independent contractors" rather than "employees"; such "independent contractors" are commonly referred to as "1099 workers" due to the IRS form they receive rather than a W-4 which an employee receives;

WHEREAS, this mis-classification of such individuals as "independent contractors" rather than as "employees" eliminates any obligation to pay these individuals legally required minimum or overtime wages, to provide legally required workers' compensation insurance, to make unemployment insurance payments, to pay legally required employment and payroll taxes, and to provide any other health, pension, or benefit such individuals would typically receive if properly classified as employees;

WHEREAS, this mis-classification of individuals performing construction labor services for the contractor as "independent contractors" rather than "employees" is a violation of federal and state law, but is difficult to enforce once public construction or delivery service contracts have been bid, awarded, and entered into;

WHEREAS, the use of public funds to compensate contractors who unlawfully avoid their obligation to pay legally required minimum or overtime wages, to provide legally required workers' compensation insurance, to make unemployment insurance payments, to pay legally required employment and payroll taxes, and to provide any other health, pension, or benefit is not in the public interest; and

WHEREAS, the Employee Classification Act, *Neb. Rev. Stat. §§ 48-2901 to 48-2912* (effective July 15, 2010) provides that any contract entered into between a political subdivision and a contractor shall require that each contractor who performs construction or delivery service pursuant to the contract submit to the political subdivision an affidavit attesting that (1) each individual performing services for such contractor is properly classified under the Employee Classification Act, (2) such contractor has completed a federal I-9 immigration form and has such form on file for each employee performing service, (3) such contractor has complied with *Neb. Rev. Stat. § 4-114* requirements that the contractor register and use a federal immigration employment verification system to determine the work eligibility status of new employees physically performing services in the State of Nebraska, (4) such contractor has no reasonable basis to believe that any individual performing services for such contractor is an undocumented worker, and (5) as of the time of the contract, such contractor is not barred from contracting with the state or any political subdivision pursuant to *§ 48-2912 of the Employee Classification Act*.

NOW, THEREFORE, Lancaster County adopts the following policy as to the bid and award of contracts to contractors for construction and delivery services with Lancaster County;

The Purchasing Agent shall immediately include in the County's notice to bidders for construction contracts that all contractors submitting bids in response to the notice shall affirmatively certify to the Purchasing Agent that all individuals hired to perform construction or delivery labor services for the contractor under the contract shall be properly classified as employees and not as independent contractors if the individual does not meet the requirements of an independent contractor under federal and state law (including the requirements of the State of Nebraska Employee Classification Act), and that the contractor will comply with all legal obligations with respect to these employees (including, but not limited to , minimum and overtime pay, workers' compensation, unemployment compensation, and payment of federal and state payroll taxes). The notice to bidders shall further provide that contractors may use affidavits required pursuant to the Employee Classification Act for this purpose, but that a failure to make the affirmative certification to the Purchasing Agent shall render the bidder ineligible for award of the contract.

The Purchasing Agent shall immediately include the following provisions in contracts for construction or delivery services:

(1) Contractor agrees that each individual performing services for the contractor shall be properly classified as an employee and not as an independent contractor if the individual does not meet the requirements of an independent contractor under the State of Nebraska's Employee Classification Act and that contractor shall comply with all legal obligations with respect to the employee (including, but not limited to, minimum and overtime pay, workers' compensation, unemployment compensation, and payment of federal and state payroll taxes).

(2) Contractor understands and agrees that failure to classify each individual hired to perform services under the contract as an employee rather than as an independent contractor if the individual does not meet the requirements of an independent contractor under the State of Nebraska's Employee Classification Act and/or failure to comply with legal obligations with respect to the employee (including, but not limited to, minimum and overtime pay, workers' compensation, unemployment compensation, and payment of federal and state payroll taxes) shall be considered a breach of the contract and is a ground for rescission of the Contract by the County.

(3) Contractor additionally agrees to include the following provision in each subcontract entered into with a subcontractor as part of the contractor's contract with the County.

(a) Subcontractor agrees that each individual performing services for the subcontractor shall be properly classified as an employee and not as an independent contractor if the individual does not meet the requirements of an independent contractor under the State of Nebraska's Employee Classification Act and that subcontractor shall comply with all legal obligations with respect to the employee (including, but not limited to, minimum and overtime pay, workers' compensation, unemployment compensation, and payment of federal and state payroll taxes).

(b) Subcontractor understands and agrees that subcontractor's failure to properly classify individuals hired to perform services under the subcontract as employees and not as independent contractors if the individual does not meet the requirements of an independent contract under the State of Nebraska's Employee Classification Act and/or failure to comply with legal obligation with respect to the employee (including, but not limited to, minimum and overtime pay, workers' compensation, unemployment compensation, and payment of federal and state payroll taxes) shall be considered a breach of the contract and is a ground for rescission of the subcontract with the contractor.

(4) Contractor agrees that if subcontractor fails to or is suspected of failing to properly classify each individual hired pursuant to the subcontract as an employee and not as an independent contractor if the individual does not meet the requirements of an independent contractor under the State of Nebraska's Employee Classification Act and/or fails to comply with legal obligations with respect to the subcontractor's employees, the contractor shall take appropriate corrective action including, but not limited to, reporting the suspected violation of the State of Nebraska Employee Classification Act to the Nebraska Department of Labor or rescission of the subcontract by the contractor. Written notification of the corrective action shall be submitted to the Lincoln-Lancaster County Purchasing Department. Contractor understands and agrees that contractor's failure to take appropriate corrective action shall be considered a breach of the contractor's contract with the County and is a ground for rescission of the contract by the County.

(5) The County shall notify the Nebraska Department of Labor of any contractor or subcontractor it has determined is in breach of contract due to the terms of this order.

(6) Any contractor or subcontractor who shall have been determined by the Nebraska Department of Labor to have knowingly provided a false affidavit to the County under the State of Nebraska's Employee Classification Act shall be referred to the Purchasing Agent of the County who shall determine whether to declare such contractor or subcontractor an irresponsible bidder who shall be disqualified from receiving any business from the County for a stated period of time.

(7) This policy does not prohibit a contractor or subcontractor from hiring individuals to perform construction labor services as independent contractors, provided that the contractor's or subcontractor's use of such individuals as an independent contractor complies with the criteria found in subdivision 5 of *Neb. Rev. Stat. § 48-604* and is otherwise valid under federal and state law and is not intended to circumvent lawful obligations under federal and state law or county contractual requirements.
