

**Richard Busch**  
**Commissioners' Award of Excellence**  
**May 2017**

Richard Busch has been selected as the Commissioners' Award of Excellence winner for May 2017. Richard works as a Maintenance Repair Worker II and began working for the County on February 13, 2006. He was nominated by Troy Hawk, Clerk of the District Court, in the category of Productivity.

In his nomination, Mr. Hawk states, "Over the years of my tenure as Clerk of the District Court, this office has made many requests to Property Management for assistance in reworking work spaces, moving shelving and furniture components, as well as, filing cabinets for the purpose of improving office efficiency and comfort of the Clerk's employees. Our projects have been varied. Richard has always been accommodating to what he has been assigned, taking into consideration our needs along with the complexity of the assigned job. Richard listens carefully, is knowledgeable and has made suggestions which have been valuable in accomplishing what we have wished to achieve. This has resulted in Richard completing a task efficiently with minimal disruption to our staff and their work requirements. Richard comes to the office prepared with the tools that he needs, a positive and can-do attitude, and has consistently given attention to detail."

Mr. Hawk continues, "Recently, the Records Division in the office of the Clerk of the District Court was remodeled due to aging record keeping equipment and other needs. A design firm and construction contractor were hired to carry out the remodel. Upon completion of the project, there was additional work to complete the placement of various furniture components as required by the Records Division staff. Richard's expertise for adding and moving the necessary components was accomplished with minimal intrusion to the workings of the Division."

In conclusion, Mr. Hawk states, "Richard is polite, cheerful and respectful of the busy nature of this office."

For these reasons, we are pleased to award Richard Busch with the Commissioners' Award of Excellence for the month of May 2017.
