RE: Saltillo Road Speed Studies - Supplemental #3

Ms. Pamela L. Dingman, PE
Lancaster County Engineer
444 Cherrycreek Road, Bldg C
Lincoln, NE 68528

Dear Ms. Dingman:

Thank you for the opportunity to submit this supplemental to complete Speed Studies on Saltillo Road for Lancaster County. The study will identify the 85th percentile speed along Saltillo Road and provide a comparison to the posted speed limit.

Scope of Services

17120-03 – Saltillo Road Speed Studies

FHU will collect speed data at the following locations on Saltillo Road:

- 2,000 feet west of S. 38th Street
- 1,500 feet west of S. 54th Street
- 2,378 feet east of S. 56th Street

These are the locations where speed studies were previously completed in 2015. The speed data will be analyzed to determine the 85th percentile speed at the three locations along Saltillo Road. Data collection will be completed while schools in the surrounding area are in session. FHU will provide the speed data and a brief memo detailing results of the speed study.

Schedule and Fee Estimate

FHU proposes to conduct the studies for a lump sum amount of **\$2,000**. Should the County require additional locations or attendance at meetings, we will notify you immediately regarding any impact to the cost of the study or the project schedule

We anticipate a three-week time period to complete the data collection, processing, and prepare a memo from the time you authorize us to proceed. If the conditions of this proposal are acceptable to you, please print out this letter, sign below and send it back for our files. If you have any questions about this proposal, please give me, Adam Denney, or Mark Meisinger a call at 402-445-4405. In an effort to expedite the study, please send an e-mail with the signed proposal back as your acceptance.

Sincerely,

FELSBURG HOLT & ULLEVIG

Kyle A. Anderson, PE, PTOE
