Subject: Price Increase

Dear Valued Customer

Like many companies today, we are faced with continued rising costs in raw materials that impact our pricing structure. Utilities, property taxes, labor and insurance rates continue to escalate. Increases associated with Federal and State compliance (OSHA, FDA, DOT, EPA, etc.) also hamper all of our abilities to control costs. Today, we are also faced with a very tight supply chain for the gases we all use on a daily basis. As the economy continues to strengthen we see a very tight supply & demand issue, particularly associated with Argon, Helium, Hydrogen, CO2 & Nitrous Oxide. Although we have devoted significant resources to improving efficiencies and squeezing costs out of our organization, we have reached the point where a price adjustment is necessary to allow us to remain a viable supplier to meet our customers' commitments. Matheson continues to invest in major capital & financial resources back into this industry to help strengthen and limit the effects of various economic conditions.

Effective July 1, 2018, the attached gas prices will go into effect  
Effective May 1, 2018, the below rental prices will go into effect

High Pressure cylinders .12/day  
Dry Ice Tote 1.02/day  
Specialty Liquid Cylinder 1.02/day  
Industrial Liquid Cylinder .87/day

We do value your business and hope you understand this adjustment. Should you have any questions, please do not hesitate to contact us.

Sincerely,

Greg Reeder
