This week, we're excited to announce that Crop Production Services (CPS) will officially be rebranding as Nutrien Ag Solutions™—a change that will allow us stay ahead of your needs as they evolve and your operation grows. It's a pleasure to partner with you, and we're excited to be able to offer you even greater access to solutions through expanded resources and a more integrated customer experience.

While our international footprint becomes more connected, the heart of our business is and will always be the relationships we have with our local customers and the solutions we help provide. We'll continue to serve as your day-to-day partner, advisor and support team because, at the end of the day, you remain our priority.

Along with a new name, we're also unveiling a new digital platform that will give you an easier, more effective way to manage your operational needs from one integrated online hub. This platform will be rolling out in phases over the following year and we're excited to share the features with you as they become available.

Likewise, our full rebranding process will kick off in stages, which we anticipate will be completed within the next six months. Throughout this period, you'll continue to see information from our team with ongoing progress updates. The same team you know and trust will always be here to answer any questions you may have.

As always, I thank you for your partnership. Please feel free to reach out with any questions.

Sincerely,

Virginia Van Dee
Contracts Manager
Nutrien Ag Solutions, Inc.
