Final inspection and approval of all work required and/or goods received under the contract shall be performed by the designated State officials. The State and/or its authorized representatives shall have the right to enter any premises where the contractor or subcontractor duties under the contract are being performed, and to inspect, monitor or otherwise evaluate the work being performed. All inspections and evaluations shall be at reasonable times and in a manner that will not unreasonably delay work.

**bb. CHANGES IN SCOPE/CHANGE ORDERS**

The State may, at any time with written notice to the contractor, make changes within the general scope of the contract. Changes in scope shall only be conducted with the written approval of the State's designee as so defined by the State from time to time.

The State may, at any time work is in progress, by written order, make alterations in the terms of work as shown in the specifications, require the performance of extra work, decrease the quantity of work, or make such other changes as the State may find necessary or desirable. Corrections of any deliverable services/goods or performance of work required pursuant to the contract shall not be deemed a modification requiring a change order.

**cc. SEVERABILITY**

If any term or condition of the contract is declared by a court of competent jurisdiction to be illegal or in conflict with any law, the validity of the remaining terms and conditions shall not be affected, and the rights and obligations of the parties shall be construed and enforced as if the contract did not contain the particular provision held to be invalid.

**dd. CONFIDENTIALITY**

All materials and information provided by the State or acquired by the contractor on behalf of the State shall be regarded as confidential information. All materials and information provided by the State or acquired by the contractor on behalf of the State shall be handled in accordance with Federal and State Law, and ethical standards. The contractor must ensure the confidentiality of such materials or information. Should said confidentiality be breached by a contractor; contractor shall notify the State immediately of said breach and take immediate corrective action.

It is incumbent upon the contractor to inform its officers and employees of the penalties for improper disclosure imposed by the Privacy Act of 1974, 5 U.S.C. 552a. Specifically, 5 U.S.C. 552a (i)(1), which is made applicable to contractors by 5 U.S.C. 552a (m)(1), provides that any officer or employee of a contractor, who by virtue of his/her employment or official position has possession of or access to agency records which contain individually identifiable information, the disclosure of which is prohibited by the Privacy Act or regulations established thereunder, and who knowing that disclosure of the specific material is prohibited, willfully discloses the material in any manner to any person or agency not entitled to receive it, shall be guilty of a misdemeanor and fined not more than \$5,000.

**ee. LIMITATION OF LIABILITY**

It is understood by the parties that in the State of Nebraska's opinion, any limitation on the contractor's liability is unconstitutional under the Nebraska State Constitution, Article XIII, Section 3, and that any limitation of liability shall not be binding on the State of Nebraska despite inclusion of such language in documents supplied with the contractor's bid or in the final contract.

**ff. INDEMNIFICATION**

**1) GENERAL**

The contractor agrees to defend, indemnify, hold, and save harmless the State and its employees, volunteers, agents, and its elected and appointed officials ("the indemnified parties") from and against any and all claims, liens, demands, damages, liability, actions, causes of action, losses, judgments, costs, and expenses of every nature, including investigation costs and expenses, settlement costs, and attorney fees and expenses ("the claims"), sustained or asserted against the State, arising out of, resulting from, or attributable to the willful misconduct, negligence, error, or omission of the contractor, its employees, subcontractors, consultants, representatives, and agents, except to the extent such contractor liability is attenuated by any action of the State which directly and proximately contributed to the claims.

**2) INTELLECTUAL PROPERTY**

The contractor agrees it will at its sole cost and expense, defend, indemnify, and hold harmless the indemnified parties from and against any and all claims, to the extent such claims arise out of, result from, or are attributable to the actual or alleged infringement or misappropriation of any patent, copyright, trade secret, trademark, or confidential information of any third party by the contractor or its employees, subcontractors, consultants, representatives, and agents; provided, however, the State gives the contractor prompt notice in writing of the claim. The contractor may not settle any infringement claim that will affect the State's use of the Licensed Software without the State's prior written consent, which consent may be withheld for any reason.

If a judgment or settlement is obtained or reasonably anticipated against the State's use of any intellectual property for which the contractor has indemnified the State, the contractor shall at the contractor's sole cost and expense promptly modify the item or items which were determined to be infringing, acquire a license or licenses on the State's behalf to provide the necessary rights to the State to eliminate the infringement, or provide the State with a non-infringing substitute that provides the State the same functionality. At the State's election, the actual or anticipated judgment may be treated as a breach of warranty by the contractor, and the State may receive the remedies provided under this contract.

**3) PERSONNEL**

The contractor shall, at its expense, indemnify and hold harmless the indemnified parties from and against any claim with respect to withholding taxes, worker's

## Electronic Ordering Capabilities from NAPA

### **More Parts, More Information, Fewer Clicks**

Productivity in fleet shop today depends on information and getting the right parts for the job. With NAPA's PROLink website, parts lookups, ordering and access to technical information is easier than ever before. NAPA's PROLink search engine allows you to search the way you want and delivers the exact part you need with fewer mouse clicks. Plus, thousands of color images and extensive product details help check pricing and order the right item for the job the first time, so you can keep your technicians working more efficiently and your equipment earning revenue and serving your taxpayers.

### **How to Get Started**

1. Go to [www.napaprolink.com](http://www.napaprolink.com)
2. Click on "Register" under New User
3. Complete the form and click "Submit"
4. Write down the 10 digit NAPA PROLink ID number you receive immediately after registration
5. Call your local servicing NAPA Auto and Truck Parts Store where you have an active account
6. Ask your local NAPA store to attach your 10 digit ProLink ID number into your account in their point-of-sale system.
7. Contract Pricing will be assigned to your account by your local NAPA store.
8. Please ask the NAPA store to "transmit daily sales" on your account, and to inform their "Wholesale Manager" of your account creation under NJPA contract #031212-GPC.

Once your local/servicing store has you setup in their system, you may login using the username and password you entered during registration to check pricing and/or order parts.

### **What if We already use a Shop Management System, Fleet Management System or e-Procurement System?**

Already using a shop management system, fleet management software, or an e-Procurement system like RO Writer, Asset Works, or Sci Quest? NAPA's ProLink Website interfaces with one of the most robust automotive aftermarket catalogs on the planet, the NAPA Catalog. If you are using existing shop or fleet management software, or an e-procurement system, the NAPA catalog can still be accessed through NAPA's connectivity utility entitled NAPA IBIZ. Go to [www.napaibiz.com](http://www.napaibiz.com) to see if your system provides NAPA Integration Partner connectivity. Everything is there to help you get started including registration and system setup instructions, support numbers and more.
