Subject: Raymond Address issue

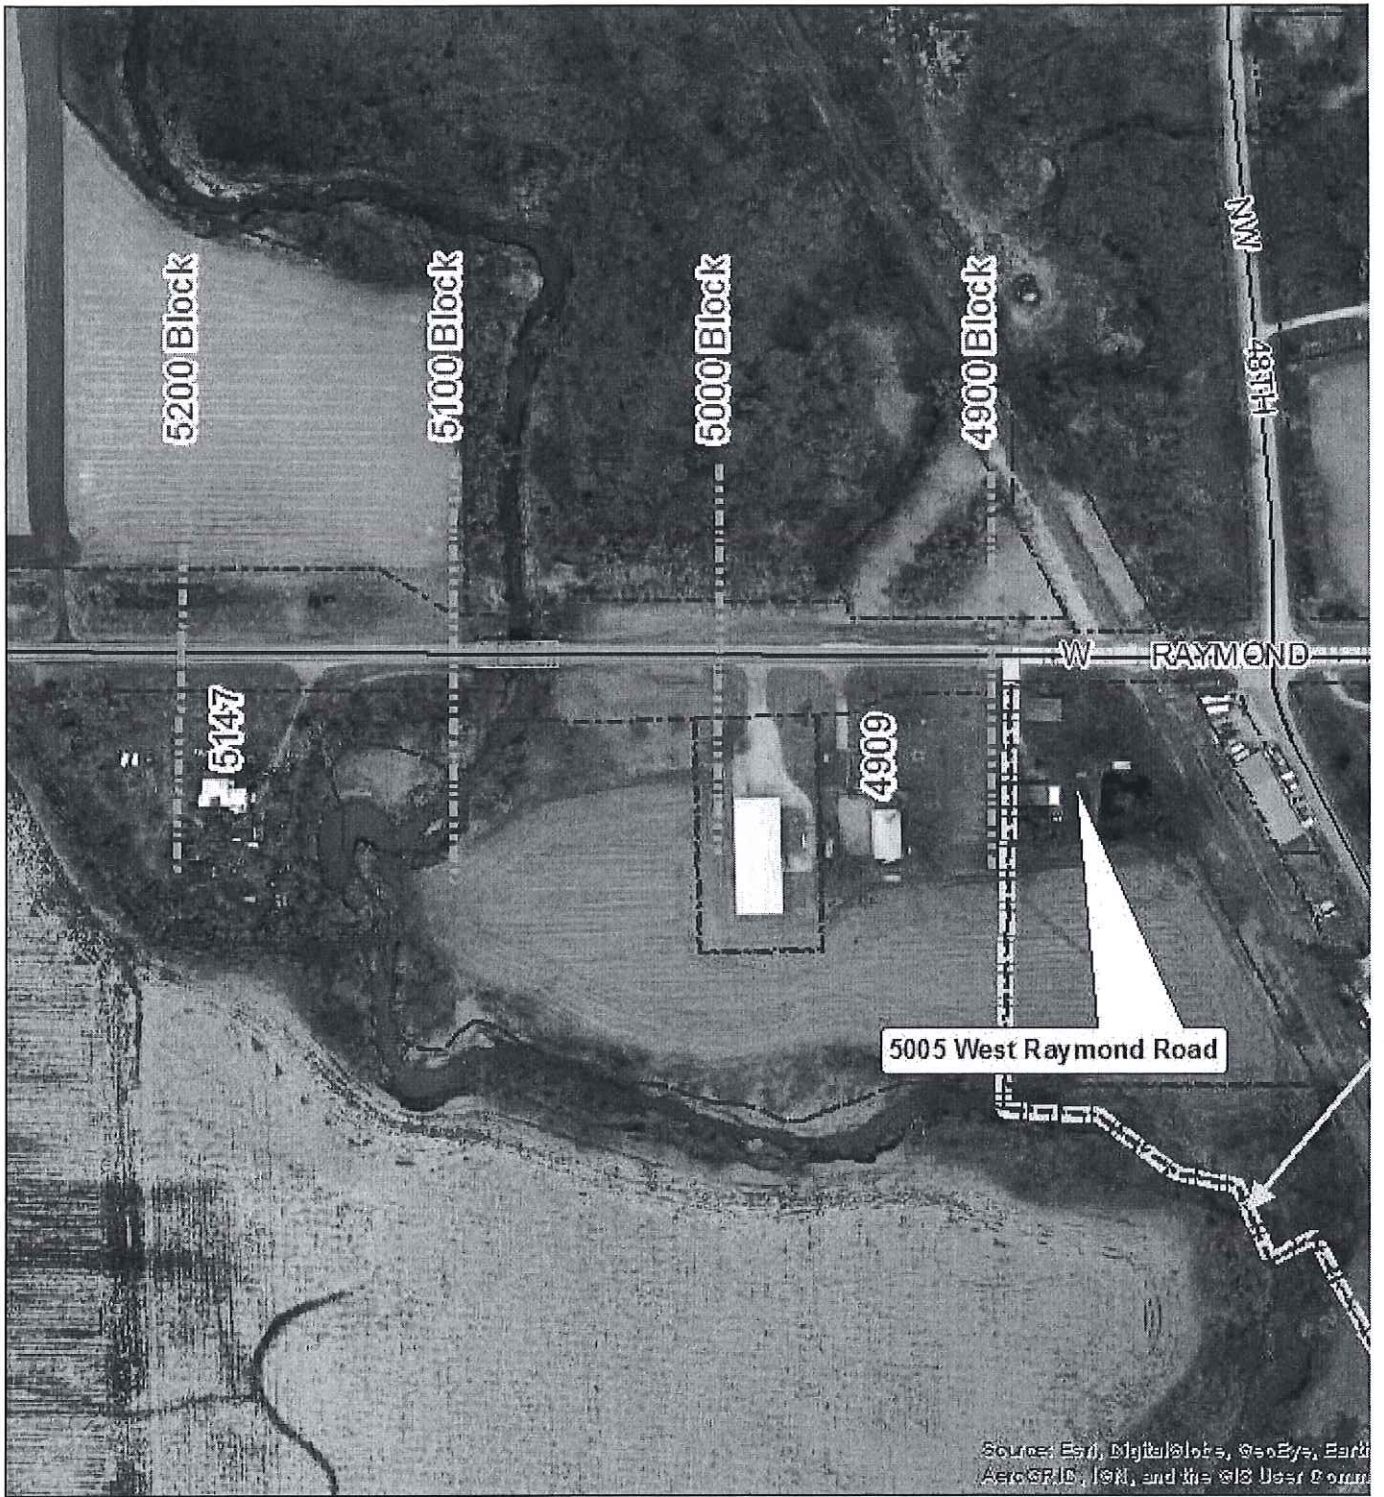

Kerry -

Attached is the Raymond addressing issue.

Really two options;

1. Raymond changes the address of 5005 to the correct block range (4877 ish)
2. The County alters the addressing policy for 911 and addresses 4900 to 5105(as owner has been told) and the 5100 block will span 3 block ranges. Possible issues could be further development with a north-south numbered street that would create havoc with these altered numbers.

I attached a .pdf for you to print and use and there is the one below.....
